Chinese Influences on Modern Tibetan Writings Sonam Dolkar, 2019-01-01 This publication critically evaluates the political and ideological impacts of Chinese influences on the development of modern Tibetan writing By examining three significant themes in separate chapters and focussing on selected writings of Dhondup Gyal and Yidam Tsering this work explores the defining features of the new Tibetan literature The author's analysis answers questions about the implications of modernity on this era's poetry and short stories the historical significance of the emergence of Dhondup Gyal and Yidam Tsering the relevance of the Cultural Revolution to modern Tibetan poetry and short stories the reason why poetry became a dominant literary form in modern Tibetan literature and the role of language used by the two authors in their writings This work is an invaluable reference for scholars interested in modern Tibetan literary studies      **Oral and Literary**

**Continuities in Modern Tibetan Literature** Lama Jabb, 2015-06-10 This is the first book length study to appear in English on the literary cultural and political roots of modern Tibetan literature While existing scholarship on modern Tibetan writing takes the 1980s as its point of birth and presents this period as marking a rupture with traditional forms of literature this book goes beyond such an interpretation by foregrounding instead the persistence of Tibet's artistic past and oral traditions in the literary creativity of the present While acknowledging the innovative features of modern Tibetan literary creation it draws attention to the hitherto neglected aspects of continuity within the new This study explores the endurance of genres styles concepts techniques symbolisms and idioms derived from Tibet's rich and diverse oral art forms and textual traditions It reveals how Tibetan kavya poetics the mgur genre life writing the Gesar epic and other modes of oral and literary compositions are referenced and adapted in novel ways within modern Tibetan poetry and fiction It also brings to prominence the complex and fertile interplay between orality and the Tibetan literary text Embracing a multidisciplinary approach drawing on theoretical insights in western literary theory and criticism political studies sociology and anthropology this research shows that alongside literary and oral continuities the Tibetan nation proves to be an inevitable attribute of modern Tibetan literature      **The Bloomsbury Handbook of Modern Chinese Literature in Translation** Cosima

Bruno, Lucas Klein, Chris Song, 2023-10-19 Offering the first systematic overview of modern and contemporary Chinese literature from a translation studies perspective this handbook provides students researchers and teachers with a context in which to read and appreciate the effects of linguistic and cultural transfer in Chinese literary works Translation matters It always has of course but more so when we want to reap the benefits of intercultural communication In many universities Chinese literature in English translation is taught as if it had been written in English As a result students submit what they

read to their own cultural expectations they do not read in translation and do not attend to the protocols of knowing engagements and contestations that bind literature and society to each other The Bloomsbury Handbook of Modern Chinese Literature in Translation squarely addresses this pedagogical lack Organised in a tripartite structure around considerations of textual social and large scale spatial and historical circumstances its thirty plus essays each deal with a theme of translation studies as emerged from the translation of one or more Chinese literary works In doing so it offers new tools for reading and appreciating modern and contemporary Chinese literature in the global context of its translation offering in depth studies about eminent Chinese authors and their literary masterpieces in translation The first of its kind this book is essential reading for anyone studying or researching Chinese literature in translation

**Tibetan Literary Genres, Texts, and Text Types**, 2015-09-17 The papers in Tibetan Literary Genres Texts and Text Types deepen our knowledge of Tibetan literature They not only examine particular Tibetan genres and texts pre modern and contemporary but also genre classification transformation and reception Despite previous contributions the systematic analysis of Tibetan textual genres is still a relatively undeveloped field especially when compared with the sophisticated examinations of other literary traditions The book is divided into four parts textual typologies blurred genre boundaries specific texts and text types and genres in transition to modernity The introduction discusses previous classificatory approaches and concepts of textual linguistics The text classes that receive individual attention can be summarised as songs and poetry offering ritual hagiography encyclopaedia lexicographical texts trickster narratives and modern literature Contributors include Franz Karl Ehrhard Ruth Gamble Lama Jabb Roger R Jackson Giacomella Orofino Jim Rheingans Peter Schwieger Ekaterina Sobkovyak Victoria Sujata and Peter Verhagen

influential Tibetan filmmaker on the international scene With this skillfully translated collection of short stories *Enticement* readers can now also appreciate his written works including the renowned *Tharlo* In literary long shots the author transforms grasslands snowy expanses and county seats into mindscapes with a curious and chilly brilliance until they are rendered translucent Elsewhere he racks focus with wry humor from quirky details to complex social realities finding possibility in fantasy chance meetings and even mistranslation Interspersed with the winsome and arboreal artwork of Wu Yao and with the orientation of an insightful introduction and preface these contemporary tales beckon readers with all the promise of the title story towards the liminal where cultural and temporal displacement may point to new meanings Lauran R Hartley

Columbia University Pema Tseden a distinguished writer and filmmaker is an important leader among Tibetan intellectuals He sees Tibet as more than a land of startling natural beauty of profound religious heritage and of galling colonization by the Communist Party of China correct though those views are For him Tibetan culture lives not only in Tibet proper but across Qinghai Sichuan and Gansu as well and Tibetan people are not mystical Others but ordinary human beings flawed as we all are who struggle to adapt their inherited lives to the modern world as people everywhere now or recently have done By looking beyond clichéd concepts to examine actual lives Pema Tseden's work enriches Tibetan culture and shows a new face for it Perry Link author of *An Anatomy of Chinese Rhythm Metaphor Politics* For the first time in the Anglophone world we have an extraordinary translation of short stories by the celebrated Tibetan filmmaker and writer Pema Tseden originally written in Tibetan and Mandarin Chinese While he wrote his stories in Tibetan for his Tibetan readers in Mandarin Chinese for Chinese readers the translators have brought both sets of stories together in one volume to allow readers to compare and contrast how he writes for different audiences These stories told in beguilingly simple and direct prose are powerful vignettes of Tibetan life as powerful as his deeply evocative films filled not only with despair and loss but also beauty and longing These elegant stories are almost more powerful in what they do not say than in what they do say I recommend *Enticement* to everyone Shu mei Shih author of *Visuality and Identity Sinophone Articulations across the Pacific* The blinding sun wind storms wolves and death are at work in these vital and unforgettable stories Equally the social forces of surveillance bureaucracy information misinformation and romance propel the narratives which encompass the ordinary and the truly strange The collection is invaluable for offering an all too rare Tibetan view of Tibet revealing unexpected and disorienting perspectives on Buddhism and on Tibetans engagements with the Chinese state The characters we get to know are police officers herders artists children lamas and lovers They are all painfully and vividly alive their every move and impulse represented with startlingly detailed observation Readers will be richer in knowledge and imagination from spending time with these stories so expertly translated that we feel we hear the author's compassionate and yet relentlessly perceptive voice One is left with an impression that is crystal clear and yet uncanny It is difficult to say whether the strongest draw of the stories is humor or sorrow Dominique Townsend Bard College

Morality and Monastic Revival in Post-Mao Tibet Jane E. Caple,2019-03-31 The speed and extent of the Tibetan Buddhist monastic revival make it one of the most extraordinary stories of religious resurgence in post Mao China At the end of the 1970s there were no working monasteries within a decade thousands had been reconstructed and repopulated Most studies have focused on the political challenges facing Tibetan monasteries emphasizing their relationship to the Chinese state Yet in their efforts to revive and develop their institutions monks have also had to negotiate a rapidly changing society playing a delicate balancing act fraught with moral dilemma as well as political danger Drawing on the recent moral turn in anthropology this volume the first full length ethnographic study of the subject explores the social and moral dimensions of monastic revival and reform across a range of Geluk monasteries in northeast Tibet Amdo Qinghai Province from the 1980s on Author Jane Caple s analysis shows that ideas and debates about how best to maintain the mundane bases of monastic Buddhism economy and population are intermeshed with those concerning the proper role and conduct of monks and the ethics of monastic lay relations Facing a shrinking monastic population monks are grappling with the impacts of secular education demographic transition rising living standards urbanization and marketization all of which have driven debates within Buddhism elsewhere and fueled perceptions of monastic decline Some Tibetans including monks are even questioning the good of the mass form of monasticism that has been a distinctive feature of Tibetan society for hundreds of years Given monastic Buddhism s integral position in Tibetan community life and association with Tibetan identity Caple argues that its precarity in relation to Tibetan society raises questions about its future that go well beyond the issue of religious freedom

**Historical Dictionary of Tibet** John Powers, David Templeman, 2012-05-18 Tibet is a land bounded by the world's highest mountains and it is the repository of an ancient culture For centuries it was viewed by Europeans as a remote mystical place populated by Buddhist masters with supernatural powers and profound wisdom In contrast to this image it was once a warlike country whose expansionist rulers conquered a vast empire that incorporated much of central Asia and parts of China Even now the Tibetan Plateau remains a scene of contestation both ideologically and militarily Major popular uprisings in 1959 1988 and 2008 have drawn the attention of the world's media and its religious teachers often attract large crowds when they travel overseas The situation in the country remains highly volatile today as the 2008 uprising the largest and most widespread in the history of the region attests The Historical Dictionary of Tibet is the most comprehensive dictionary published to date on Tibetan history It covers the history of Tibet from 27 000 BCE to the present through a chronology an introductory essay an extensive bibliography and over 1 000 cross referenced dictionary
