Moma Modern House Moma Modern Kids:

Art Making with MoMA Cari Frisch, Elizabeth Margulies, 2018-11-13 Inspired by the authors experiences of looking at and making art with kids and families at the Museum of Modern Art and designed to get both children and adults to start thinking like artists this volume presents an array of projects that use easy to find materials and encourage hours of imaging designing experimenting constructing creating tinkering and play

Century of the Child Juliet Kinchin, Aidan O'Connor, 2012 The book examines individual and collective visions for the material world of children from utopian dreams for the citizens of the future to the dark realities of political conflict and exploitation Surveying more than 100 years of toys clothing playgrounds schools children s hospitals nurseries furniture posters animation and books this richly illustrated catalogue illuminates how progressive design has enhanced the physical intellectual and emotional development of children and conversely how models of children s play have informed experimental aesthetics and imaginative design thinking

Architecture and Design at the Museum of Modern Art Thomas S. Hines, 2019-01-22 A comprehensive and fascinating look at the history of the Museum of Modern Art s Architecture and Design Department under the leadership of the influential curator Arthur Drexler Arthur Drexler 1921 1987 served as the curator and director of the Architecture and Design Department at the Museum of Modern Art MOMA from 1951 until 1986 the longest curatorship in the museum s history Over four decades he conceived and oversaw trailblazing exhibitions that not only reflected but also anticipated major stylistic developments Although several books cover the roles of MoMA s founding director Alfred Barr and the department s first curator Philip Johnson this is the only in depth study of Drexler who gave the department its overall shape and direction During Drexler s tenure MoMA played a pivotal role in examining the work and confirming the reputations of twentieth century architects among them Frank Lloyd Wright Le Corbusier Richard Neutra Marcel Breuer and Ludwig Mies van der Rohe Exploring unexpected subjects from the design of automobiles and industrial objects to a reconstruction of a Japanese house and garden Drexler s boundary pushing shows promoted new ideas about architecture and design as modern arts in contemporary society The department s public and educational programs projected a culture of popular accessibility offsetting MoMA s reputation as an elitist institution Drawing on rigorous archival research as well as author Thomas S Hines s firsthand experience working with Drexler Architecture and Design at the Museum of Modern Art analyzes how MoMA became a touchstone for the practice and study of midcentury architecture

Designing the Creative Child Amy F. Ogata, 2013-04-21

The postwar American stereotypes of suburban sameness traditional gender roles and educational conservatism have masked an alternate self image tailor made for the Cold War

The creative child an idealized future citizen was the darling of baby boom parents psychologists marketers and designers who saw in the next generation promise that appeared to answer the most pressing worries of the age

Designing the Creative Child reveals how a postwar cult of childhood creativity developed and continues to this day

Exploring how the idea of children as imaginative and naturally creative was constructed disseminated and consumed in the United States after World War II

Amy F Ogata argues that educational toys playgrounds small middle class houses new schools and children s museums were designed to cultivate imagination in a growing cohort of baby boom children

Enthusiasm for encouraging creativity in children countered Cold War fears of failing competitiveness and the postwar critique of social conformity making creativity an emblem of national revitalization

Ogata describes how a historically rooted belief in children s capacity for independent thinking was transformed from an elite concern of the interwar years to a fully consumable and aspirational ideal that persists today
