Michael Hall, 2020-09-28 This is the first book to provide a comprehensive account of cultural and heritage tourism in the Middle East and North Africa MENA region and the many complexities that heritage sites and tourist attractions face The MENA region has long been regarded as the cradle of Western and Arab civilisation and is the home of many of the world's major religions Because of this the region is rich in heritage sites that serve as major tourist attractions and as icons of national cultural and religious identity However as this book examines heritage in the region is simultaneously highly contested and has even become a target for terrorism creating a situation that brought major challenges for heritage management and sustainable tourism development Many of the region's innumerable cultural sites are threatened in some cases by overuse in others by neglect and in many simply by the pressures of economic development This book is therefore of interest not only to heritage managers and policy makers but those academics who seek to address the delicate balance between tourism development communities and the tourists who visit such sites in a turbulent but highly significant region of the world *Lonely Planet New Orleans*, 2006 New York Magazine, 1990-07-16 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the

trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine s consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea , **Lonely Planet** Lonely Planet, Lonely Planet Publications, 1998-10-01 *Learning Language and Culture Via Public Internet Discussion Forums* B. Algeria and examines its place in the global community Presenting a comprehensive overview of the country that is sure to engage young readers the book studies aspects such as geography economy language and leisure activities **Historical Dictionary of Burkina Faso** Lawrence Rupley, Lamissa Bangali, Boureima Diamitani, 2013-02-07 Burkina Faso known as Upper Volta until its independence from France in 1960 and locally called the land of the upright people is a medium sized land locked country with no less than six neighbors some of which periodically get into trouble which makes it reasonably strategic in some ways While it has not done as poorly as some other African states its economic has certainly not prospered and many Burkinabe go abroad to earn a living As for politics it is another case of stability without democracy even if there are periodic elections Still this is better than not even having stability This third edition of Historical Dictionary of Burkina Faso covers its history through a chronology an introductory essay maps appendixes and an extensive bibliography The dictionary section has over 1000 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent access point for students researchers and anyone wanting to know more about Burkina Faso **J.M.G. Le Clézio** Keith Moser, 2013 This monograph represents the first comprehensive study of the multifaceted representations of the complex phenomenon of globalization in the diverse repertoire of the 2008 Nobel Laureate in Literature This interdisciplinary investigation explores the initial euphoria related to the ambivalent concept of the global village and how this evaporated dream can perhaps be reappropriated to create a better global society for both the human and Cosmic Other through the lens of Le Clézio's fiction Chapter one offers a conceptual framework for understanding the Franco Mauritian author's nuanced ideas concerning globalization It also probes the original ambivalence of McLuhan's celebrated notion of a global village in addition to its euphoric reception Chapter two explores the current state of the interconnected interdependent modern world in which many disenfranchised and marginalized individuals are living a recurring nightmare Chapter three examines Le Clézio's deconstruction of the simplistic ideology of consumerism that is indicative of contemporary consumer republics This section also underscores the intricate systems of hegemonic domination such as the media created by the transnational corporations that dominate the global economic landscape to sustain their supremacy Chapter four delves into Le Clézio's ecocentric humanism that extends to all other living creatures by debunking Manichean dualities that separate human beings from elemental matter and the rest of the universe The final chapter examines recent texts such as *Raga Ourania* and *Histoire du pied et autres fantaisies* which encourage the reader to envision what a more just and egalitarian global village might encompass These works dismiss neoliberal fantasies and consumerist ideology that have justified the systematic exploitation of everyone and everything in the name of progress but they also urge the modern subject to be resilient in the face of tremendous adversity Instead of accepting the imposition of a monolithic socioeconomic model that is riddled with inequality and injustice and which serves the interests of the Happy Few Le Clézio suggests that the first step is to resist integration into the global village by stoically confronting reality and having the

necessary courage to propose another vision which counterpoints McLuhan's misguided one **Water, Cultural Diversity, and Global Environmental Change** Barbara Rose Johnston, Lisa Hiwasaki, Irene J. Klaver, Ameyali Ramos Castillo, Veronica Strang, 2011-12-07 Co published with UNESCO A product of the UNESCO IHP project on Water and Cultural Diversity this book represents an effort to examine the complex role water plays as a force in sustaining maintaining and threatening the viability of culturally diverse peoples It is argued that water is a fundamental human need a human right and a core sustaining element in biodiversity and cultural diversity The core concepts utilized in this book draw upon a larger trend in sustainability science a recognition of the synergism and analytical potential in utilizing a coupled biological and social systems analysis as the functioning viability of nature is both sustained and threatened by humans **Microtravel** Charles Forsdick, Zoë Kinsley, Kate Walchester, 2024-06-04 The 2020 COVID 19 pandemic imposed immobility on large sectors of the world's population with confinement becoming an everyday reality The lives of those who previously enjoyed the privileges of being fast castes ground to a halt while at the same time the displacement of more vulnerable populations along well established migration corridors has been radically reduced The result has been a recalibration of the scale of journeying with travellers slowing down their journeys and readjusting their relationship to the proximate and nearby This situation has provided an opportunity for those who study travel and travel writing to rethink their objects of study and approaches to them This volume explores and historicizes the phenomenon of microtravel designating slower journeys within a limited radius which allow and sometimes necessitate new forms of experiencing the world
