John McGreal

Mondrian From Figuration To Abstraction:

Mondrian Piet Mondrian, H. Henkels, 1987 Herbert Henkels provides an overview of Mondrian's transition from figuration to non-figurative art and recreates the cultural and intellectual background against which Mondrian's career and sense of mission as an artist unfolded. Copiously illustrated with archive photographs of Mondrian, his family, friends, and studios, with pages from his sketchbooks and numerous reproductions of his works, the book also includes Mondrian's important essay *Plastic Art and pure Art* published in the English Constructivist group's book *Circle* in 1937. The 116 colour plates which form the heart of the volume are accompanied by selected quotations from Mondrian's essay *Dialogue and Trialogue of Neo Plasticism* published in *De Stijl* 1918-1920. Three interviews with the artist, an illustrated chronology with excerpts from Mondrian's letters, and a select bibliography complete this handsome volume. Its innovation lies in its reappraisal of a forgotten definition of rhythm as stasis or composition which can be traced back to ancient Greek thought. This conception of rhythm, the book argues, can be demonstrated in terms of pictorial strategy through analysis of East Asian painting and calligraphy, with which Greek thought on rhythm has identifiable commonalities. The book demonstrates how these ideas about rhythm draw together various threads of intellectual development in the visual arts that cross disparate aesthetic cultural practices. As an icon of early 20th Century Modernism, Mondrian's neoplasticism is a serious painterly and philosophical achievement. In his painting, Mondrian was deeply influenced by Theosophy, which took its influence from Eastern aesthetics, particularly East Asian and Indian thought. However, Mondrian's approach to visual rhythm was so idiosyncratic that his contribution to studies of visual rhythm is often under-recognized. This volume shows that a close inspection of Mondrian's own writing, thinking, and painting has much to tell scholars about how to understand a long-forgotten aspect of visual rhythm. Rodin's famous criticism of photography: 'athlete in motion is forever frozen' can be applied to Muybridge's zoopraxiscope, the Futurists' rendition of

stroboscopic images and Duchamp's *Nude Descending a Staircase* Through a comparative study between Mondrian's painting and these seminal works this volume initiates a new convention for the cognition of the surface of painting as visual rhythm Mondrian's simultaneous emphasis on the static and the rhythmic is hardly fodder for a publicist Eiichi Tosaki has taken on the challenge of elucidating Mondrian's theories of rhythm and particularly his conception of static rhythm The result is a tour de force that will forever alter the reader's encounter with the works of Mondrian Prof Kathleen Higgins

Mondrian Flowers David Shapiro, 1991 With 57 full color plates this book reveals a side of the great Dutch born abstract painter Piet Mondrian rarely seen In delicate portraits of roses lilies amaryllis chrysanthemums and sunflowers Mondrian proves that he ranks with Georgia O'Keeffe as one of this century's most gifted painters of flowers 75 illustrations 57 in full color

It's Abstraction, Concretely John McGreal, 2017-02-21 John McGreal's three new books *It's Abstraction* *Concretely* *It's Figuration* *Groundly* and *It's Representation* Really continue the *It Series* published by Matador since 2010 They constitute another stage in an artistic journey exploring the visual and audial dialectic of mark word and image that began over 25 years ago Emerging out of the first books on the Bibliograph published in 2016 initiated with *It's Nothing* Seriously these new texts retain some of the same structural features The Bibliographs contain the same focus on repetition and variation in meaning of their dominant motifs of representation abstraction and figuration which have framed philosophical discourse on epistemology and ontology in aesthetics their chance placement in each Bibliograph interspersed with one another displaying and enhancing similarities and differences At the same time these works constitute a development in the aesthetic form of the Bibliograph In earlier works on *Nothing* *Absence* and *Silence* it was just a question of finding and transferring given textual references from their source to construct their Bibliographs with the focus being on the strategic position of the latter within each book In these new works the concern has been with working on the line and shape of the references themselves with their enhanced spacial form as well as that of each Bibliograph as a whole In shaping and spacing the referential images the place of words and letters became as important as their semantic to read in a new way on diverse contemporary issues across conventional boundaries in the arts and sciences at several levels of physical psychical and social reproduction

From figuration to abstraction Herbert Henkels, 1987 **Mondrian** Herbert Henkels, 1988 **Piet Mondrian** Herbert Henkels, Fondation Maeght (Saint-Paul), 1985 *The Legacy of Neoplatonic Philosophy* Gina Zavota, 2024-11-14 Bringing together leading scholars from philosophy architecture history classics and art history this volume asks what are the key concepts in Neoplatonic aesthetics And what impact has Neoplatonic philosophy had on the arts since the 3rd century CE Organized into three parts in part I four authors examine the theory behind Neoplatonic aesthetics including in particular the philosophy of beauty ornament and the artistic imagination Based on the thought of Plato Neoplatonism incorporated influences from Aristotle Stoicism and a variety of other philosophical traditions to create a unique school of thought within the Western canon The second part explores the influence of Neoplatonic thought

on the painting architecture and music of classical medieval and Renaissance Europe With chapters on Byzantine hymns the birth of the Gothic and Vasari's Saint Michael the authors bring to life the Neoplatonic influence on European culture and thinking Finally part III uncovers the impact of Neoplatonism right up to the modern day through a range of 19th and 20th century artistic case studies from Kandinsky and Malevich to literature music and world cinema Unique in its interdisciplinary breadth historical coverage and combination of theory and application The Legacy of Neoplatonic Philosophy provides a fresh insight into the enduring influence of Neoplatonic thought on the arts of the Western world
