Monica White Ndounou:

Shaping the Future of African American Film Monica White Ndounou, 2014-04-29 In Hollywood we hear it's all about the money. It's a ready explanation for why so few black films get made: no crossover appeal, no promise of a big payoff. But what if the money itself is color-coded? What if the economics that governs film production is so skewed that no film by or for people of color will ever look like a worthy investment unless it follows specific racial or gender patterns? This Monica Ndounou shows us is precisely the case. In a work as revealing about the culture of filmmaking as it is about the distorted economics of African American film, Ndounou clearly traces the insidious connections between history, content, and cash in black films. How does history come into it? Hollywood's reliance on past performance as a measure of potential success virtually guarantees that historically underrepresented, underfunded, and undersold African American films devalue the future prospects of black films. So the cycle continues as it has for nearly a century. Behind the scenes, the numbers are far from neutral. Analyzing the onscreen narratives and offscreen circumstances behind nearly two thousand films featuring African Americans in leading and supporting roles, including such recent productions as *Bamboozled*, *Beloved*, and Tyler Perry's *Diary of a Mad Black Woman*, Ndounou exposes the cultural and racial constraints that limit not just the production but also the expression and creative freedom of black films. Her wide-ranging analysis reaches into questions of literature, language, speech, and dialect, film images, and narrative, acting, theater, and film business practices, production history, and financing and organizational history. By uncovering the ideology behind profit-driven industry practices that reshape narratives by and for people of color, this provocative work brings to light existing limitations and possibilities for reworking stories and business practices in theater, literature, and film.

Breaking It Down Nicole Hodges Persley, Monica White Ndounou, 2021-07-15 Everyone involved in the performing arts, from professors to casting directors to actors to students, especially those just starting out, should read this eye-opening work. Library Journal Starred Review. A practical guide that shows BIPOC actors how to break down the audition process rather than being broken down by the entertainment industry and its practices of exclusion and bias. Working in an environment that often stereotypes or attempts to universalize experiences, it's more important than ever that actors consider how culture, race, ethnicity, gender, sexuality, and ability are inseparable and important parts of their identity that should not be minimized and can instead enhance their work. In *Breaking It Down: Audition Techniques for Actors of the Global Majority*, Nicole Hodges Persley and Monica White Ndounou share real-world audition strategies that center the experiences of actors of color. They combine practical advice, cultural studies, Black feminist perspectives, and lived experiences to offer intersectional approaches to auditioning. The ten steps outlined in this book aid actors across racial lines seeking to develop the necessary skills to break down a character and script while affirming their full selves into the audition to book the role. Building on the momentum of the Black Lives Matter, Me Too, and Time's Up movements, *Breaking It Down* emboldens actors of the global majority to embrace

every aspect of their identities rather than leaving themselves behind in an effort to gain entry and access to the entertainment industry

Politics Goes to the Movies Robert Kolker, 2018-03-14 *Politics Goes to the Movies* introduces the topic of political representation and ideology by analyzing some of the most important politically themed films across the history of cinema in a refreshing and concise volume. Offering a survey of political cinema from 1915 to present day, topics include propaganda, Communism, Fascism, revolutionary cinema, and contemporary documentary. Using individual case studies that begin with *The Birth of a Nation* and end with *O.J. Made in America*, the book introduces how various strands of international politics have been woven through the fabric of cinema by contextualizing each film in its particular historical moment. In addition, Robert Kolker offers formal analyses that explore not only overtly political themes but also how the structural properties of a film can themselves be political; how political films are made politically. Including films produced across Europe, North Africa, the US, and Latin America, this accessible and engaging book is an ideal introductory text for students of political cinema.

The American Pipe Dream Max Shulman, 2022-06-15 *The American Pipe Dream* examines the representational history of addiction on the US stage from 1890 to the start of the nation's involvement in the second World War in 1941. Through intensive archival work, textual and performance analysis, and by considering related literary, legislative, and medical histories, this work argues that performance was essential in the creation of the drug addict in the US cultural imagination. Though little attention has been paid to the figure of the stage addict, this conventionalized figure was a major presence in US popular entertainment through the Progressive Era into the Roaring Twenties and through the Great Depression. The aim of this study is to trace this complex history, establish the stage addict's place in US theatre studies, and by doing so, provide a new lens for examining the history of drug addiction and drug use in the US.

Theatres of Value Danielle Rosvally, 2024-07-01 *Theatres of Value* explores the idea that buying and selling are performative acts and offers a paradigm for deeper study of these acts: the dramaturgy of value. Modeling this multifaceted approach, the book explores six case studies to show how and why Shakespeare had value for nineteenth-century New Yorkers. In considering William Brown's African Theater, P.T. Barnum's American Museum and Lecture Hall, Fanny Kemble's American reading career, the Booth family brand, the memorial statue of Shakespeare in Central Park, and an 1888 benefit performance of *Hamlet* to theatrical impresario Lester Wallack, *Theatres of Value* traces a history of audience engagement with Shakespearean cultural capital and the myriad ways this engagement was leveraged by theatrical businesspeople.

The American Negro Theatre and the Long Civil Rights Era Jonathan Shandell, 2018-08-10 Jonathan Shandell provides the first in depth study of the historic American Negro Theatre ANT and its lasting influence on American popular culture Founded in 1940 in Harlem the ANT successfully balanced expressions of African American consciousness with efforts to gain white support for the burgeoning civil rights movement The theatre company featured innovative productions with emerging artists Sidney Poitier Harry Belafonte Ruby Dee and many others who would become giants of stage film and television In 1944 the ANT made theatrical history by creating the smash hit Anna Lucasta the most popular play with an African American cast ever to perform on Broadway Starting from a shoestring budget the ANT grew into one of the most important companies in the history of African American theatre Though the group folded in 1949 it continued to shape American popular culture through the creative work of its many talented artists Examining oral histories playbills scripts production stills and journalistic accounts Shandell gives us the most complete picture to date of the theatre company by analyzing well known productions alongside groundbreaking and now forgotten efforts Shedding light on this often overlooked chapter of African American history which fell between the New Negro Renaissance and the Black Arts Movement Shandell reveals how the ANT became a valued community institution for Harlem an important platform for African American artists to speak to racial issues and a trailblazer in promoting integration and interracial artistic collaboration in the U S In doing so Shandell also demonstrates

how a small amateur ensemble of the 1940s succeeded in challenging expanding and transforming how African Americans were portrayed in the ensuing decades The result is a fascinating and entertaining examination that will be of interest to scholars and students of African American and American studies and theatre history as well as popular culture enthusiasts

Properties of Violence Sandy Alexandre, 2012-11-01 *The Properties of Violence* focuses on two connected issues representations of lynching in late nineteenth and twentieth century American photographs poetry and fiction and the effects of those representations Alexandre compellingly shows how putting representations of lynching in dialogue with the history of lynching uncovers the profound investment of African American literature as an enterprise that continually seeks to create conceptual spaces for the disenfranchised culture it represents in matters of property and territory Through studies ranging from lynching photographs to Toni Morrison's Pulitzer Prize winning novel *Beloved* the book demonstrates how representations of lynching demand that we engage and discuss various forms of possession and dispossession The multiple meanings of the word representation are familiar to literary critics but Alexandre's book insists that its other key term effects also needs to be understood in both of its primary senses On the one hand it indicates the social and cultural repercussions of how lynching was portrayed namely what effects its representations had On the other hand the word signals too the possessions or what we might call the personal effects conjured up by these representations These possessions were not only material as for example property in land or the things one owned The effects of representation also included diverse less tangible but no less real possessions shared by individuals and groups the aura of a lynching site the ideological construction of white womanhood or the seemingly default capacity of lynching iconography to encapsulate the history of ostensibly all forms of violence against black people **Improvising Across Abilities** Thomas Ciufo, Abbey L.
