Young, 2014-02-24 Contemporary Latin American Cultural Studies is a collection of new essays by recognised experts from around the world on various aspects of the new discipline of Latin American cultural studies Essays are grouped in five distinct but interconnected sections focusing respectively on I the theory of Latin American cultural studies II the icons of culture III culture as a commodity IV culture as a site of resistance and V everyday cultural practices The essays range across a wide gamut of theories about Latin American culture some for example analyse the role that ideas about the nation and national icons have played in the formation of a sense of identity in Latin America while others focus on the resonance underlying cultural practices as diverse as football in Argentina TV in Uruguay cinema in Brazil and the bolero and soaps of modern day Mexico Contemporary Latin American Cultural Studies has an introduction setting the ideas explored in each section in their proper context The essays are written in jargon free English all Spanish terms have been translated into

English and are supplemented by a concluding section with suggestions for further reading Who's who in Interior Design, 2000 *Biennial Boom* Paloma Checa-Gismero, 2024-07-05 In *Biennial Boom* Paloma Checa Gismero traces an archeology of contemporary art biennials to uncover the processes that prompted these exhibitions to become the global art world's defining events at the end of the twentieth century Returning to the early post Cold War years Checa Gismero examines the early iterations of three well known biennials at the borders of North Atlantic liberalism the Bienal de La Habana inSITE and Manifesta She draws on archival and oral history fieldwork in Cuba Mexico the US Mexico borderlands and the Netherlands showing how these biennials reflected a post Cold War optimism for a pacified world by which artistic and knowledge production would help mend social political and cultural divisions Checa Gismero argues that in reflecting this optimism biennials facilitated the conversion of subaltern aesthetic genealogies into forms that were legible to a nascent cosmopolitan global elite all under the pretense of cultural exchange By outlining how early biennials set the basis for what is now recognized as global contemporary art Checa Gismero intervenes in previous accounts of the contemporary art world in order to better understand how it became the exclusionary rarified institution of today *Sacred Darkness* Holley Moyes, 2012-04-15 Caves have been used in various ways across human society but despite the persistence within popular culture of the iconic caveman deep caves were never used primarily as habitation sites for early humans Rather in both ancient and contemporary contexts caves have served primarily as ritual spaces In *Sacred Darkness* contributors use archaeological evidence as well as ethnographic studies of modern ritual practices to envision the cave as place of spiritual and ideological power that emerges as a potent venue for ritual practice Covering the ritual use of caves in Europe Asia Australia Africa Mesoamerica and the US Southwest and Eastern woodlands this book brings together case studies by prominent scholars whose research spans from the Paleolithic period to the present day These contributions demonstrate that cave sites are as fruitful as surface contexts in promoting the understanding of both ancient and modern religious beliefs and practices This state of the art survey of ritual cave use will be one of the most valuable resources for understanding the role of caves in studies of religion sacred landscape or cosmology and a must read for any archaeologist interested in caves
