The Routledge Dictionary of Literary Terms Roger Fowler, 2006-07-13 Covering both established terminology as well as the specialist vocabulary of modern theoretical schools this is an indispensable guide to the principal terms and concepts encountered in debates over literary studies in the twenty first century EBOOK: The Presenting Past: The Core of Psychodynamic Counselling and Therapy Michael Jacobs, 2012-09-16 This text is characterised by the insight and authority of practice based evidence rather than being primarily theory applied to practice It is also written accessibly with sometimes difficult psychodynamic concepts rendered into plain but elegant prose Convincing case studies are used throughout and summaries helpfully link practice issues with theory Therapy Today May 2013 This new edition of The Presenting Past is a wonderfully readable overview of the developmental principles underlying psychodynamic counselling Theories of Freud Klein Bowlby Winnicott Kohut and others are organized into three broad developmental themes trust and attachment authority and autonomy and cooperation and competition It is illuminated with rich clinical examples which bring alive how theory is helpful to understanding clients Jacobs lucid lively style makes the connection between theory and practice clear and accessible This outstanding book will appeal to established clinicians as well as students training in counselling and psychotherapy Jan Grant Associate Professor Counselling Psychology Curtin University Western Australia Michael Jacobs is a free spirit who roams purposefully in the often contentious world of the rival psychoanalytic traditions Professor Brian Thorne Centre for Counselling Studies University of East Anglia UK An original and reliable approach to the development of personality that every therapist and student therapist should possess Jacobs one of the founders of psychodynamic therapy and counselling avoids the twin perils of unimaginative meaningless causality on the one hand and indifferent irresponsible reference to fate on the other Andrew Samuels Professor of Analytical Psychology University of Essex UK In this fourth edition of what is a seminal text on psychodynamic ways of working Michael Jacobs has managed to take the reader through the complex and intricate ways of thinking about what it is to be human from a psychodynamic view of the world This text has been recommended reading for undergraduates that I teach who are studying the world of counselling and helping and it continues to be a text that they draw on when faced with a difficulty in understanding the ideas and concepts of the psychodynamic approach Michael Jacobs has that rare ability to make complicated ideas and concepts seem understandable and yet leave the reader in no doubt that they are complicated The use of case material brings the theory to life and mirrors Michael s commitment to practice that is informed by theory This is a vade mecum and Michael has done the job Sue Sully Senior Lecturer in Counselling and Psychotherapy University of Brighton UK A person s past is ever present from infancy to old age and it affects the dynamics of therapy and the therapist patient relationship Written by a key founding figure of psychodynamic counselling and one of most cited counselling authors in Europe the bestselling The Presenting Past gives practicing therapists and students keen insight into the subject The theories of Freud Winnicott Klein and attachment

theorists are organized into three main categories trust and attachment authority and autonomy and cooperation and competitiveness In this new edition Michael Jacobs gives psychodynamic counselling and therapy a truly human face He brings practice to the forefront in a new three part structure This is realized through the swift introduction of the themes in the therapeutic relationship throughout the book making integration of theory and practice clearer than ever Looking at what the client presents as troubling them what the therapist experiences about the client and their relationship in therapy and exploring theories to throw light on these themes now lies firmly at the core of the book Fully updated with new references The Presenting Past stays wonderfully readable The book shows Jacobs at his best and is a testimony to his lifetime of experience

Contemporary Sephardic and Mizrahi Literature Dario Miccoli,2017-04-21 This book argues that the literary texts produced by Sephardic and Mizrahi Jews who migrated from the Middle East and North Africa in the 1950s onwards should be considered as part of a transnational arena in which forms of Jewish diasporism and postcolonial displacement interweave Through an original perspective that focuses on novelists poets professional and amateur writers the book explains that these Sephardic and Mizrahi authors are part of a global literary diaspora at the crossroads of past Arab legacies new national identities and persistent feelings of Jewishness

From Fiction to the Novel Geoffrey Day,Taylor & Francis Group,2022-01-19 Originally published in 1987 this title is a comprehensive study focused on experimental forms in eighteenth century fiction Looking at works from well known authors of the time this learned and lively book gently but precisely undermines a basic category of modern literary understanding

Speech and Silence in Contemporary Children's Literature Danielle E. Price,2023-10-31 Speech and Silence in Contemporary Children s Literature brings a fresh perspective to a central literary question Who speaks by examining a variety of represented silences These include children who do not

speakers do not yet speak effectively or speak on behalf of others. A rich and unexamined literary archive explores the problematics of children who are literally silent or metaphorically so because they cannot communicate effectively with adults or peers. This project centers children's literature in the question of voice by considering disability, gender, race, and ecocriticism. Children's literature rests on a paradox at the root of its own genre: it is produced by an adult author writing to a constructed idea of what children should be. By reading a range of contemporary children's literature, this book scrutinizes how such texts narrate the child's journey from communicative alterity to a place of empowered adult speech. Sometimes the child's verbal enclosure enables privacy and resistance. At other times, silence is coerced or imposed or arises from bodily impairment. Children may act as intermediaries speaking on behalf of species that cannot. Recently, we have seen children exercise their voices on the world stage and as authors. In all cases, the texts analyzed here reveal speech as a minefield to be traversed. Children who talk too much, too little, or with insufficient expertise pose problems to themselves and others. Implicitly and sometimes explicitly, they attempt to hold adults to account inside and outside the text. *Speech and Silence in Contemporary Children's Literature* addresses this underconceptualized subject in what will be an important text for scholars of children's literature, childhood studies, English, disability studies, gender studies, race studies, ecopedagogy, and education.

Conservation of Books Abigail Bainbridge, 2023-03-27 *Conservation of Books* is the highly anticipated reference work on global book structures and their conservation, offering the first modern comprehensive overview on this subject. The volume takes an international approach to its subject. Written by over 70 specialists in conservation and conservation science based in 19 countries, its 26 chapters cover traditional book structures from around the world, the materials from which they are made, and how they degrade and how to preserve and conserve them. It also examines the theoretical underpinnings of conservation, what and how to treat, and the ethical, cultural, and economic implications of treatment. Technical drawings and photographs illustrate the structures and treatments examined throughout the book. Ultimately, readers gain an in-depth understanding of the materiality of books in numerous global contexts and reflect on the practical considerations involved in their analysis and treatment. *Conservation of Books* is a quintessential reference work for book conservators and anyone working with books, such as collection managers, librarians, curators, dealers, collectors, historians, and related professionals. Locating Values in Literature Corina-Mihaela Beleaua, 2020-10-14 *Locating Values in Literature: Goodness, Beauty, and Truth* discusses the relevance of literature in the current educational process, stating that regardless of the level of study, literature provides students with the necessary skills to address real-world situations. Corina-Mihaela Beleaua posits that a curriculum that includes literature has a multitude of benefits for the mental and ethical development of students, defending the relevance of the three ancient values of goodness, beauty, and truth. Beleaua argues that literature is a significant tool for endorsing these transcendentals and actualizing their positive potentials as humanistic and moral values, acting as a symbolic manifestation of moral values.

Ehrhardt,David Oladimeji Alao,M. Sani Umar,2023-11-16 Exploring the contentious landscape of Nigeria s escalating violence this book describes the changing roles of traditional authorities in combatting contemporary security challenges Set against a backdrop of widespread security threats including insurgency land disputes communal violence regional independence movements and widespread criminal activities perhaps more than ever before Nigeria s conventional security infrastructure seems ill equipped for the job This book offers a fresh empirical analysis of the roles of traditional authorities including kings Ezes Obas and Emirs who are often hailed as potent alternatives to the state in security governance It

complicates the assumption that these traditional leaders by virtue of their customary legitimacy and popular roots are singularly effective in preventing and managing violence. Instead, in exploring their creative adaptation to governance roles after a dramatic postcolonial downturn, this book argues that traditional leaders can augment but not substitute the state in addressing insecurity. This book's in-depth analysis will be of interest to researchers and policy makers across African and security studies, political science, anthropology, and development.
