"Modern Marine Weather, Third Edition, is the best summary of the state of the art that I have seen. A terrific book. It has leapt to the top of my list of references to recommend to sailors and navigators." — **Stan Honey, Champion racing navigator.**

"A thoughtfully and masterfully crafted work. It will be my prime recommendation of a book focusing specifically on the application of weather information and knowledge for maritime interests, whatever the size and purpose of the vessel. David thoroughly explores the essentials of meteorology, and does so in a fascinating manner. Reading and absorbing these principles and applications will lead to safer, faster and more efficient passages." — **Jeff Renner, Meteorologist, King 5 TV, Seattle, WA.**

"I have chosen this book as the definitive text for the wardroom of my U.S. Navy Destroyer. Superior explanations that are as useful for the professional naval officer as they are for the coastal pleasure cruiser or blue water sailor. Consistent with all of David Burch's texts: Easy to read, fascinating, and the absolute best resource." — **CDR Tate Westbrook, former CO USS Spruance (DDG111)**
