Modernity And The Architecture Of Mexico:

Modernity and the Architecture of Mexico Edward R. Burian, 1997 Since the mid 1970s there has been an extraordinary renewal of interest in early modern architecture both as a way of gaining insight into contemporary architectural culture and as a reaction to neoconservative postmodernism This book undertakes a critical reappraisal of the notion of modernity in Mexican architecture and its influence on a generation of Mexican architects whose works spanned the 1920s through the 1960s Nine essays by noted architects and architectural historians cover a range of topics from broad based critical commentaries to discussions of individual architects and buildings Among the latter are the architects Enrique del Moral Juan O Gorman Carlos Obregón Santacilia Juan Segura Mario Pani and the campus and stadium of the Ciudad Universitaria in Mexico City Relatively little has been published in English regarding this era in Mexican architecture Thus *Modernity and the Architecture of Mexico* will play a groundbreaking role in making the underlying assumptions ideological and political constructs and specific architect's agendas known to a wide audience in the humanities Likewise it should inspire greater appreciation for this undervalued body of works as an important contribution to the modern movement

Modernity and the Architecture of Mexico, 1997 This book undertakes a critical reappraisal of the notion of modernity in Mexican architecture and its influence on a generation of Mexican architects whose works spanned the 1920s through the 1960s Nine essays by noted architects and architectural historians cover a range of topics from broad based critical commentaries to discussions of individual architects and buildings Among these are the architects Enrique del Moral Juan O Gorman Carlos Obregón Santacilia Juan

Modern Architecture in Mexico City Kathryn E. O'Rourke, 2017-02-10 Mexico City became one of the centers of architectural modernism in the Americas in the first half of the twentieth century Invigorated by insights drawn from the first published histories of Mexican colonial architecture which suggested that Mexico possessed a distinctive architecture and culture beginning in the 1920s a new generation of architects created profoundly visual modern buildings intended to convey Mexico's unique cultural character By midcentury these architects and their students had rewritten the country's architectural history and transformed the capital into a metropolis where new buildings that evoked pre conquest colonial and International Style architecture coexisted Through an exploration of schools a university campus a government ministry a workers park and houses for Diego Rivera and Luis Barragán Kathryn O'Rourke offers a new interpretation of modern architecture in the Mexican capital showing close links between design evolving understandings of national architectural history folk art and social reform This book demonstrates why creating a distinctively Mexican architecture captivated architects whose work was formally dissimilar and how that concern became central to the profession

Mutlow, 2005 This book explores the modern architecture the modern architecture of Mexico with an emphasis from the early 1980s to the present day It is particularly appropriate now given a renewed interest in the recent modern architecture of Mexico and as the work *The Architecture and Cities of Northern Mexico from Independence to the Present* Edward R. Burian, 2015-08-15 The states of Northern Mexico Tamaulipas Nuevo León Coahuila Chihuahua Durango Sonora Sinaloa and Baja California Norte and Sur have architecture urbanism and landscape design that offer numerous lessons in how to build well but this constructed environment is largely undervalued or unknown To make this architecture better known to a wide professional academic and public audience this book presents the first

comprehensive overview in either English or Spanish of the architecture urban landscapes and cities of Northern Mexico from the country's emergence as a modern nation in 1821 to the present day Profusely illustrated with color and black and white photographs maps and analytical drawings of urban cores of major cities The Architecture and Cities of Northern Mexico systematically examines significant works of architecture in large cities and small towns in each state from the earliest buildings in the urban core to the newest at the periphery Edward R Burian describes the most memorable works of architecture in each city in greater detail in terms of their spatial organization materials and sensory experience He also includes a concise geographical and historical summary of the region that provides a useful background for the discussions of the works of architecture Burian concludes the book with a brief commentary on lessons learned and possible futures for the architectural culture of the region as well as the first comprehensive biographical listing of the architects practicing in Northern Mexico during the past two centuries

Modern Architecture in Latin America Luis E. Carranza, Fernando Luiz Lara, 2015-01-05 Modern Architecture in Latin America Art Technology and Utopia is an introductory text on the issues polemics and works that represent the complex processes of political economic and cultural modernization in the twentieth century The number and types of projects varied greatly from country to country but as a whole the region produced a significant body of architecture that has never before been presented in a single volume in any language Modern Architecture in Latin America is the first comprehensive history of this important production Designed as a survey and focused on key examples paradigms arranged chronologically from 1903 to 2003 this volume covers a myriad of countries historical social and political conditions and projects developments that range from small houses to urban plans to architectural movements The book is structured so that it can be read in a variety of ways as a historically developed narrative of modern architecture in Latin America as a country specific chronology or as a treatment of traditions centered on issues of art technology or utopia This structure allows readers to see the development of multiple and parallel branches historical strands of architecture and at times their interconnections across countries The authors provide a critical evaluation of the movements presented in relationship to their overall goals and architectural transformations

Hotel Mexico George F. Flaherty, 2016-08-16 In 1968 Mexico prepared to host the Olympic games amid growing civil unrest The spectacular sports facilities and urban redevelopment projects built by the government in Mexico City mirrored the country's rapid but uneven modernization In the same year a street savvy democratization movement led by students emerged in the city Throughout the summer the 68 Movement staged protests underscoring a widespread sense of political disenfranchisement Just ten days before the Olympics began nearly three hundred student protestors were massacred by the military in a plaza at the core of a new public housing complex In spite of institutional denial and censorship the 1968 massacre remains a touchstone in contemporary Mexican culture thanks to the public memory work of survivors and Mexico's leftist intelligentsia In this highly original study of the afterlives of the 68 Movement George F Flaherty explores how urban

spaces material but also literary photographic and cinematic became an archive of 1968 providing a framework for de facto modes of justice for years to come Mexico's Modern Architecture I. E.
