Modernity, Religion, and the War on Terror Richard Dien Winfield, 2016-04-15 The war on terror cannot be truly understood without investigating the legitimacy of modernity the challenge that religion presents to modernization the inescapable conflicts attending the emergence and expansion of modernity and the post colonial predicament from which Islamist reaction arises Richard Dien Winfield illuminates the war on terror in light of these issues presenting an anti foundationalist justification of the rationality and freedom of modernity while assessing how religion can stand in opposition to modernity and why Islam has been a privileged vehicle of anti modern religious revolt Winfield shows that the privatization that religion must undergo to be compatible with modern freedom involves no capitulation to relativism but rather is a theological imperative on which the truth of religion depends Exposing the limits of any purely secular modernization of Islam Winfield shows how Islam can draw upon its core tradition to repudiate the oppression of Islamist reaction and become at home in the modern world

A Practical Guide to Winning the War on Terrorism Adam

Garfinkle, 2013-09-01 The military side of the war on terrorism says Adam Garfinkle is a necessary but not sufficient aspect of the solution Weapons of mass destruction are activated by ideas of mass destruction and these ideas arise from complex historical and social factors A Practical Guide to Winning the War on Terrorism offers concrete steps for undermining the very notion that terrorism is a legitimate method of political struggle and for changing the conditions that lead people to embrace it

War on Terrorism Alan O'Day, 2017-09-08 President George W Bush maintained in his address of 20 September 2001 that the successful prosecution of the war against terrorism will require the judicious use of every resource at our command every means of diplomacy every tool of intelligence every instrument of law enforcement every financial

influence and every necessary weapon of war Unlike the Cold War the War on Terrorism is neither a battle against some ideology nor bounded by physical boundaries or conventional political units such as nation states The War on Terrorism is the internationalisation or rather globalisation of previous wars Terror is not a nation and the enemies in such wars are not nations any regime such as Libya simply by repudiating terrorism can become an ally of the anti terror coalition Regimes that continue to practice terrorism against domestic opponents qualify to participate in the wider war if they conform to certain norms in external affairs The 28 articles reprinted here consider aspects of that most amorphous of animals the War on Terrorism They do not set out to provide all of the answers nor do they radiate a unified vision of what constitutes the war on terrorism the pieces begin from a range of political and intellectual outlooks Taken as a group however the difficulties of determining the limits and nature of the war on terrorism receive important attention The authors address several major themes within the war on terrorism what falls within its perimeters its shifting manifestations implications responses and future directions

Modernity and Terrorism Milan Zafirovski, Daniel G. Rodeheaver, 2013-05-02 In *Modernity and Terrorism From Anti Modernity to Modern Global Terror* Milan Zafirovski and Daniel G Rodeheaver analyze the nature types and causes of contemporary global terrorism The book redefines modern terrorism in a novel more comprehensive manner compared to the previous literature It examines counter state and state terrorism with an emphasis on the latter in light of its scale persistence and intensity as well as its relative neglect in the literature The book identifies and predicts the general cause of most modern terrorism in anti modernity as the adverse reaction to and reversal of liberal democratic secular rationalistic and globalized modernity In essence it discovers and predicts anti liberalism in the form of conservatism as the main source and force of modern terrorism

Sacrifice and Modern War Writing Alex Houen, 2024-09-05 *Sacrifice and Modern War Writing* presents the most extensive study to date of twentieth and twenty first century war writing Examining works by over 110 authors Alex Houen surveys how war writing explores sacrifice in relation to major modern and contemporary conflicts from the First World War to the War on Terror Various conceptions of sacrifice are examined including Christian Jewish Islamic and secular The discussion ranges across literary portrayals of multiple sacrificial practices including ancient rituals of child sacrifice martyrdom scapegoating and suicide bombing Houen builds an innovative interdisciplinary approach to how war sacrifice and their representations interrelate and a wide range of Anglophone literature is discussed including novels memoirs short stories essays manifestoes elegies ballads and lyric poetry Whereas critics and theorists have tended to emphasize that war's reality exceeds any attempt to represent it Houen contends that political religious and cultural frames of sacrifice have continued to play a significant part in shaping how war's reality is shaped and experienced Those frames are inextricably tied to modes of representation which include symbolism and mimesis *Sacrifice and Modern War Writing* explores how sacrificial killing in war is itself riddled with symbolic transfigurations and mimetic exchanges and it builds a fresh approach by arguing that the figurative and imaginative aspects

of literary writing ironically become its very means of engaging closely with the reality of war's sacrifices. That approach also develops by using the literary analyses to critique and revise various prominent theories of sacrifice and war.

Discourse, War and Terrorism Adam Hodges, Chad Nilep, 2007-04-11

Discourse since September 11 2001 has constrained and shaped public discussion and debate surrounding terrorism worldwide. Social actors in the Americas, Europe, Asia, the Middle East, and elsewhere employ the language of the war on terror to explain, react to, justify, and understand a broad range of political, economic, and social phenomena. *Discourse, War and Terrorism* explores the discursive production of identities, the shaping of ideologies, and the formation of collective understandings in response to 9/11 in the United States and around the world. At issue are how enemies are defined and identified, how political leaders and citizens react, and how members of societies understand their position in the world in relation to terrorism. Contributors to this volume represent diverse sub-fields involved in the critical study of language, including perspectives from sociocultural linguistics, communication, media, cultural, and political studies.

Britain and the War on Terror Warren Chin, 2016-04-15

Why did Britain come to play such a prominent role in the war on terror, and why did the military instrument come to be the dominant theme in the British prosecution of what was an ideological and political struggle? This book is an analysis of Britain's war against Al Qaeda and the phenomenon of international terrorism, which marked a paradigm shift in the nature and conduct of war in the twenty-first century. At the heart of the book is an attempt to understand why Britain, which possessed a wealth of experience in the conduct of counterterrorism, counterinsurgency, and small wars, developed a strategic and operational design to defeat the Islamist threat, which proved to be deeply flawed. In addressing this question, the book explores the complex intellectual, doctrinal, and geopolitical challenge posed by Al Qaeda and international terrorism, and how and why the British response took the form that it did. In conducting this analysis, the book raises important questions about the assumptions and perceptions of those in government who led the UK into this conflict, the nature of the civil-military relationship in Britain, and how well it functioned, and finally, the competence of its security forces in being able to deal with this threat both domestically and overseas.

New Political Religions, Or an Analysis of Modern Terrorism Barry Cooper, 2005-08

While terrorism has been used throughout the ages as a weapon in political struggles, there is an essential difference between groups who use these tactics for more or less rational political goals and those seeking more apocalyptic ends. Cooper argues that today's terrorists have a spiritual perversity that causes them to place greater significance on killing than on exploiting political grievances. He supports his assertion with an analysis of two groups that share the characteristics of a pneumopathological consciousness: Anum Shinrikyo, the terrorist

organization that poisoned thousands of Tokyo subway riders in 1995 and Al Qaeda the group behind the infamous 9 11 killings
