**Modernization and Revolution in China** June Grasso, Michael G. Kort, 2015-05-18 Extensively revised and updated this popular text conveys the drama of China's struggle to modernize against the backdrop of a proud and difficult history. Joseph, 2019 On October 1 2019 the People's Republic of China PRC will celebrate the 70th anniversary of its founding And what an eventful and tumultuous seven decades it has been During that time under the leadership of the Chinese Communist Party CCP China has been transformed from one of world's poorest countries into one of its fastest growing economies and from a weak state barely able to govern or protect its own territory to a rising power that is challenging the United States for global influence But in the late 1950s the PRC experienced the most deadly famine in human history caused largely by the actions and inactions of its leaders Not long after there was a collapse of government authority that pushed the country to the brink of and in some places actually into civil war and anarchy And in 1989 the CCP unleashed the army to brutally crush demonstrations by students and others calling for political reform China is now for the most part peaceful prospering and proud The CCP maintains a firm grip on power through a combination of harsh repression and popular support largely based on its recent record of promoting rapid economic growth Yet the party and country face serious challenges on many fronts including a slowing economy environmental desecration pervasive corruption extreme inequalities ethnic unrest and a rising tide of social protest *Politics in China* provides an accessible yet authoritative introduction to how the world's most populous nation and rapidly rising global power is governed today The third edition has been extensively revised thoroughly updated and includes a new chapter on the internet and politics in China The book's chapters provide overviews of major periods in China's modern political history from the mid nineteenth century to the present examinations of key topics in contemporary Chinese politics and analyses of developments in four important areas located on China's geographic periphery Tibet Xinjiang Hong Kong and Taiwan **Britain, France, West Germany and the People's Republic of China, 1969-1982** Martin Albers, 2016-12-01 This book focuses on helping readers to fill the gap of the little known history between Western Europe and its most important trading partner the People's Republic of China Inspired by the economic and political significance of Sino European relations this book shows how the China policies of the three biggest states of Western Europe Britain France and the Federal Republic of Germany helped China reintegrate into the international community in the 1970s Against the background of the Cold War the end of Maoism and the emergence of globalization the governments in Bonn Paris and London had to find ways of dealing with Europe's declining influence and promote their own national interests in Asia Based on newly declassified government files readers will find such sources invaluable in understanding the argument that despite pursuing very different policies the three governments supported a rapid expansion of peaceful exchange between the People's Republic and Europe and substantially contributed to the success of Beijing's reform policy **Red**

**Silk** Robert Cliver, 2021-02-01 *Red Silk* is a history of China's Yangzi Delta silk industry during the wars, crises and revolutions of the mid twentieth century. Based on extensive research in Chinese archives and focused on the 1950s, the book compares two very different groups of silk workers and their experiences in the revolution. Male silk weavers in Shanghai factories enjoyed close ties to the Communist party state and benefited greatly from socialist policies after 1949. In contrast, workers in silk thread mills or filatures were mostly young women who lacked powerful organizations or ties to the revolutionary regime. For many filature workers, working conditions changed little after 1949 and politicized production campaigns added a new burden within the brutal and oppressive factory regime in place since the nineteenth century. Both groups of workers and their employers had to adapt to rapidly changing circumstances. Their actions, protests, petitions, bribery, tax evasion compelled the party state to adjust its policies, producing new challenges. The results, though initially positive for many, were ultimately disastrous. By the end of the 1950s, there was widespread conflict and deprivation among silk workers, and despite its impressive recovery under Communist rule, the industry faced a crisis worse than war and revolution.

Chinese Americans Jonathan H. X. Lee, 2015-11-12 This in-depth historical analysis highlights the enormous contributions of Chinese Americans to the professions, politics, and popular culture of America from the 19th century through the present day. While the number of Chinese Americans has grown very rapidly in the last decade, this group has long thrived in the United States in spite of racism, discrimination, and segregation. This comprehensive volume takes a global view of the Chinese experience in the Americas. While the focus is on Chinese Americans in the United States, author Jonathan H. X. Lee also explores the experiences of Chinese immigrants in Canada, Mexico, and South America. He considers why the Chinese chose to leave their home country, where they settled, and how the distinctive Chinese American identity was formed. This volume is organized into four sections: historical overview, political and economic life, cultural and religious life, and literature, the arts, and popular culture. Detailed essays capture the essence of everyday life for this immigrant group as they assimilated, established communities, and interacted with other ethnic groups. Alphabetically arranged entries describe the political, social, and religious institutions begun by Chinese Americans and explore their roles as business owners, activists, and philanthropic benefactors for their communities.

*Taiping Theology* Carl S. Kilcourse, 2016-09-26 This book examines the theological worldview of the Taiping Rebellion, 1850-64, a Chinese revolutionary movement whose leader Hong Xiuquan (1814-64) claimed to be the second son of God and younger brother of Jesus. Despite the profound impact of Christian books on Hong's religious thinking, previous scholarship has neglected the localized form of Christianity that he and his closest followers created. Filling that gap in the existing literature, this book analyzes the localization of Christianity in the theology, ethics, and ritual practices of the Taipings. Carl S. Kilcourse not only reveals how Confucianism and popular religion acted as instruments of localization but also suggests that several key aspects of the Taipings' localized religion were inspired by terms and themes from translated Christian texts. Emphasizing this link between vernacularization and localization, Kilcourse demonstrates both the

religious identity of the Taipings and their wider significance in the history of world Christianity      Western Literature in China and the Translation of a Nation S. and heritage and destination management strategies By understanding the drivers of change this book sheds new insight into the promise and role of sustainability and responsibility in tourism development This book will be of great interest to all upper level students academics and researchers in the fields of Tourism Geography and Cultural and Heritage studies

Plural International Relations in a Divided World Stephen Chan, 2017-02-27 The world is troubled and full of misunderstandings It seems a new world order of fundamentalist violence and meaningless atrocity is upon us whilst civilised instruments for cooperation and compromise are becoming increasingly ineffective In this timely book Stephen Chan explores the historical and philosophical roots of difference and discord in the international system He begins with the introduction of the Westphalian system showing how throughout the 20th century new states from the Middle East Asia and Africa entered that system with reservations preconditions and great efforts to introduce new forms of concerts and congresses but without seriously challenging the international status quo By contrast the 21st century has brought turmoil and change in the form of militant Islam be it the Taleban Al Qaeda or ISIS whose varied roots and fluid emergence have so far prevented the West from being able to understand and combat it Developing Kissinger s suspicion of Saudi Arabia as an Islamic state in Westphalian dress Chan argues that what is at stake today is not the development of a new Caliphate or an old radicalism but the effort to supplant and replace the Westphalian system itself This is the complex and challenging reality to which a truly modern and persuasively relevant plural international relations must now adapt Whether it can do so remains to be seen
