divided his book into chronological sections by lunar and intercalary months a comprehensive record of seasonal palace events rituals entertainment and food and drink consumed on high days and holidays as well as information on farm work and traditions Nineteenth century Korean intellectuals possessed a deep understanding of Chinese history and culture together with a growing awareness of the distinctiveness of Korea s past and traditions Toae s work reflects this in the many comparisons he makes between the habits and customs of the two countries quoting literary and philosophical sources to note similarities and contrasts Knowledge of the seasonal traditions he describes was largely forgotten over the generations as Korea rapidly modernized but in recent years much effort has been made to recover this wisdom Tongguk sesigi is now widely read and referenced as a popular source for details on traditional food customs and entertainment While an ever increasing number of books introducing Korean culture written by non Koreans or Koreans researching their roots is now available Record of the Seasonal Customs of Korea contains information from the source that also reveals the mindset and penchants of a premodern Korean intellectual Readers will thus be confronted with many concepts names and ideas not readily understandable so extensive notes are provided in this translation Those studying other Asian cultures with some Chinese influence will also find valuable insights here for cross cultural comparison and research
