## **Media Revolution Politics Egypt Journalism:**

Media, Revolution and Politics in Egypt Abdalla F. Hassan, 2015-10-01 For too long Egypt's system of government was beholden to the interests of the elite in power aided by the massive apparatus of the security state. Breaking point came on 25 January 2011. But several years after popular revolt enthralled a global audience, the struggle for democracy and basic freedoms are far from being won. Media Revolution and Politics in Egypt: The Story of an Uprising examines the political and media dynamic in pre and post revolution Egypt and what it could mean for the country's democratic transition. We follow events through the period leading up to the 2011 revolution, eighteen days of uprising, military rule, an elected president's year in office and his ouster by the military. Activism has expanded freedoms of expression only to see those spaces contract with the resurrection of the police state. And with sharpening political divisions, the facts have become amorphous as ideological trends cling to their own narratives of truth. **Media, Revolution and Politics in Egypt** Abdalla F.

Handbook of Applied Journalism Leon Barkho, Jairo Alfonso Lugo-Ocando, Sadia Jamil, 2024-02-21 This authoritative handbook looks at the entire news cycle and provides a bridge between the theoretical and academic study of journalism and its actual contemporary practice. The book's main merit is that it brings theory and practice together with contributors discussing these issues from different perspectives in a way that scholars, students and practitioners can find useful in the study of journalism. The handbook is also unique as it undertakes an international scope across regions and cultures both from the West and the Global South while providing an overview which balances the over-emphasis on content in most academic approaches to journalism. The book is divided into four major parts: 1 Conceptual foundations, 2 Interlink between journalism as scholarship and journalism as practice, 3 Regions and cultures, and 4 The practitioner world. The first two sections lay down the foundation for section 3 which provides an overview of journalism practice in different regions and cultures. Section 4 includes contributions by practitioners in which they attempt to respond to some of the issues raised in preceding sections. This handbook will appeal to academics, practitioners and professionals alike who are interested in a better understanding of the academic study of journalism and its actual contemporary practice. Transformations in

Egyptian Journalism Naomi Sakr, 2013-01-22 Egypt's revolutionary uprising in 2011 raised important questions about the kind of journalism that would be viable in the country's changing political dynamics. Suddenly the output of bloggers online radio and social media news operations which had all formed part of the groundswell of action against dictatorship and repression posed an explicit challenge to journalists in state-run and commercial media companies who were more directly subject to government controls. As different interest groups struggle over the country's future, Naomi Sakr considers emerging visions of journalism in Egypt. In this book she charts recent transformations in Egyptian journalism, exploring diverse approaches to converged media and the place of participatory cross-media networks in expanding and developing the country's body of professional journalists. She analyses journalists' initiatives for restructuring publicly owned media and securing a safe and open environment in which to work.

#### **Online Journalism in Africa** Hayes Mawindi

Mabweazara, Okoth Fred Mudhai, Jason Whittaker, 2014-01-21 Very little is known about how African journalists are forging new ways to practise their profession on the web. Against this backdrop, this volume provides contextually rooted discussions of trends, practices and emerging cultures of web-based journalism across the continent, offering a comprehensive research tool that can both stand the test of time as well as offer researchers, particularly those in the economically developed Global North, models for cross-cultural comparative research. The essays here deploy either a wide range of evidence or adopt a case study approach to engage with contemporary developments in African online journalism. This book thus makes up for the gap in cross-cultural studies that seek to understand online journalism in all its complexities.

#### **The Kidnapping of Journalists**

Robert G. Picard, Hannah Storm, 2016-03-22 The vulnerability of journalists to kidnappings was starkly illustrated by the killing of James Foley and Steven Sotloff by Islamic militants in 2014. Their murder underscored the risks taken by journalists and news organisations trying to cover developments in dangerous regions of the world and has forced news enterprises to more clearly prepare for and confront issues of safety. This book explores the complex organisational issues surrounding the capture or kidnapping of journalists in areas of conflict and risk. It explores how journalists becoming news is covered and the implications of that coverage; how news organisations prepare for and respond to such events; and how kidnapping and ransom insurers, victim recovery firms, journalists' families and governments influence the actions of news enterprises. It considers how and why journalists are kidnapped; how employers and journalists' organisations respond to kidnappings; and why freelancers are particularly at risk, as well as suggesting best practices for preventing and responding to kidnappings.
