Dialogue within Discourse Communities Julia Bamford, Marina Bondi, 2011-12-07 The book explores aspects of reflexivity and interactivity in a variety of

academic genres oral and written scientific and educational Academic discourse is explored from a variety of perspectives that take a dialogic view of language use as their starting point ranging from conversation analysis to descriptive or applied genre studies Particular attention is paid to the way metadiscursive expressions contribute to a representation of the communicative procedures that characterise the ongoing scientific and educational dialogues *Memos to the President* Charles Schultze, 2011-01-01 When policymakers are in need of economic advice professional economists are never far away Policymakers journalists and citizens all rely on experts to explain various economic developments and policy proposals While it is fortunate that experts are close at hand those concerned with choosing or evaluating economic policies should themselves have an understanding of how the economy works Unfortunately many policymakers and interested citizens currently lack such knowledge and they need to know at the least the basics of macroeconomics to make informed decisions on their own In this insightful book Charles L Schultze employs an imaginative format for explaining to busy policymakers and citizens how the economy works and what issues are likely to affect macroeconomic policy He imagines that the next president has promised to devote one hour a week to learning about key economic principles and has asked the chairman of the Council of Economic Advisers for instruction The book is written as a series of memos to the president on the principles and policy issues that should be understood before making macroeconomic policy judgements A former chairman of the Council of Economic Advisers himself Schultze clearly explains the key relationships as a background for policy decisions relationships among domestic and foreign economic forces and government policies and economic outcomes The memos rely heavily on the use of real world examples from recent economic events and policy debates They focus principally on such policy related issues as inflation unemployment long term economic growth and the flow of international trade and capital The series of short easy to read memos is divided into three groups the first presents the background explaining why it is particularly important for policymakers to distinguish between those economic forces that affect total demand in the economy and those that affect total supply the second addresses the problem of economic stability and the third looks at long term economic growth Study Guide to Accompany Macroeconomics, Fourth Canadian Edition Frank J. (Frank Joseph) Atkins, Richard Startz, Dornbusch, Rudiger, Gordon R. Sparks, 1993
