## **Meaningful Texts The Extraction Of Semantic Information From Monolingual And Multilingual Corpora:**

*Meaningful Texts* Geoff Barnbrook, Pernilla Danielsson, Michaela Mahlberg, 2006-11-01 This book reflects the growing influence of corpus linguistics in a variety of areas such as lexicography translation studies genre analysis and language teaching The book is divided into two sections the first on monolingual corpora and the second addressing multilingual corpora The range of languages covered includes English French and German but also Chinese and some of the less widely known and less widely explored central and eastern European language The chapters discuss the relationship between methodology and theory the importance of computers for linking textual segments providing teaching tools or translating texts the significance of training corpora and human annotation how corpus linguistic investigations can shed light on social and cultural aspects of language Presenting fascinating research in the field this book will be of interest to academics researching the applications of corpus linguistics in modern linguistic studies and the applications of corpus linguistics

**Rethinking Idiomaticity** Stefanie Wulff, 2010-09-17      *Evaluation and Stance in War News* Louann Haarman, Linda Lombardo, 2011-10-20 In a world in which advanced communication technologies have made the reporting of disasters and conflicts also in the form of breaking news a familiar and normalised activity the information we present here about television news reporting of the 2003 war in Iraq has implications that go beyond this particular conflict Evaluation and Stance in War News functions as a tool kit for the critical evaluation of language in the news both as raw data in need of interpretation and as carefully packaged products of information management in need of unpacking The chapters offer an array of theoretical and empirical instruments for revealing identifying sifting weighing and connecting patterns of language use that construct messages These messages carry with them world views and value systems that can either create an ever wider divide or serve to build bridges between peoples and countries      *The Routledge Handbook of Corpus Linguistics* Anne O'Keeffe, Michael McCarthy, 2010-04-05 The Routledge Handbook of Corpus Linguistics provides a timely overview of a dynamic and rapidly growing area with a widely applied methodology Through the electronic analysis of large bodies of text corpus linguistics demonstrates and supports linguistic statements and assumptions In recent years it has seen an ever widening application in a variety of fields computational linguistics discourse analysis forensic linguistics pragmatics and translation studies Bringing together experts in the key areas of development and change the handbook is structured around six themes which take the reader through building and designing a corpus to using a corpus to study literature and translation A comprehensive introduction covers the historical development of the field and its growing influence and application in other areas Structured around five headings for ease of reference each contribution includes further reading sections with three to five key texts highlighted and annotated to facilitate further exploration of the topics The Routledge Handbook of Corpus Linguistics is the ideal resource for advanced undergraduates and postgraduates      *Concept Parsing Algorithms (CPA) for Textual Analysis and Discovery: Emerging Research and Opportunities* Shafrir, Uri, Etkind,

Masha,2017-07-13 Text analysis tools aid in extracting meaning from digital content As digital text becomes more and more complex new techniques are needed to understand conceptual structure Concept Parsing Algorithms CPA for Textual Analysis and Discovery Emerging Research and Opportunities provides an innovative perspective on the application of algorithmic tools to study unstructured digital content Highlighting pertinent topics such as semantic tools semiotic systems and pattern detection this book is ideally designed for researchers academics students professionals and practitioners interested in developing a better understanding of digital text analysis Perspectives on Corpus Linguistics Vander

Viana,Sonia Zyngier,Geoff Barnbrook,2011-12-21 Perspectives on Corpus Linguistics is a collection of interviews with fourteen well known researchers in the field of linguistics Each interview consists of a set of ten questions the first seven are common to all contributors while the last three are connected to the research experience of each guest In the general questions the invited scholars explore sometimes controversial topics such as the concept of representativeness the role of intuition and the status of Corpus Linguistics In the specific questions they provide a thorough discussion of materials and methods in corpus research as well as theoretical and applied perspectives on the use of corpora in language studies Whether experts or novices the volume should be of interest to all those who want to learn about corpus linguistics and carry out research in this fascinating and growing area **New Trends in Corpora and Language Learning** Ana

Frankenberg-Garcia,Guy Aston,Lynne Flowerdew,2011-01-20 This book provides an up to date snapshot of recent research and developments in the use of corpora for language learning and teaching It is divided into three parts Part I focusses on innovative uses of corpora by language teachers and learners These cover the world s first corpus based TV program for the teaching of English conversation as well as corpus based approaches to the teaching of EAP cultural studies and translation Part II focuses on new corpus based tools for LSP learning Part III illustrates research findings from corpora consisting of language learner data and discusses their implications for language teaching and learning It will appeal to scholars in both language teaching and learning and corpus and computational linguistics **Knowledge Representation in the Social**

**Semantic Web** Katrin Weller,2010 The main purpose of this book is to sum up the vital and highly topical research issue of knowledge representation on the Web and to discuss novel solutions by combining benefits of folksonomies and Web 2 0 approaches with ontologies and semantic technologies The book contains an overview of knowledge representation approaches in past present and future introduction to ontologies Web indexing and in first case the novel approaches of developing ontologies Corpus Linguistics for Translation and Contrastive Studies Mikhail Mikhailov,Robert

Cooper,2016-05-20 Corpus Linguistics for Translation and Contrastive Studies provides a clear and practical introduction to using corpora in these fields Giving special attention to parallel corpora which are collections of texts in two or more languages and demonstrating the potential benefits for multilingual corpus linguistics research to both translators and researchers this book explores the different types of parallel corpora available and shows how to use basic and advanced

search procedures to analyse them explains how to compile a parallel corpus and discusses their uses for translation purposes and to research linguistic phenomena across languages demonstrates the use of corpus extracts across a wide range of texts including dictionaries novels by authors including Jane Austen and Mikhail Bulgakov and newspapers such as The Sunday Times is illustrated with case studies from a range of languages including Finnish Russian English and French Written by two experienced researchers and practitioners Corpus Linguistics for Translation and Contrastive Studies is essential reading for postgraduate students and researchers working within the area of translation and contrastive studies

**Corpus Triangulation** Sofia Malamatidou, 2017-09-20 Despite the recognition that corpus based translation research would benefit from the triangulation of corpora little has been done in the direction of actually employing combined corpus data and methods in the field This book aims to address this gap by providing a much needed detailed account of corpus triangulation where different corpora e g parallel comparable synchronic diachronic and or different methods of analysis e g qualitative quantitative can be used to increase our understanding of the phenomena where translation plays a key role The book also demonstrates clearly how the proposed methodology can be fruitfully employed to investigate different linguistic features through its systematic application to empirical data The first part of the book introduces the innovative framework for corpus triangulation which is based on a new and comprehensive corpus typology while the second part applies the methodological framework to two case studies examining the language of translation and the relationship between translation and language change The book advances current translation studies in terms of methodology innovation and offers a model on which future studies investigating the network of relationships surrounding translated texts can be based

*Corpus Linguistics. Volume 2* Anke Lüdeling, Merja Kytö, 2009-03-26 This handbook provides an up to date survey of the field of corpus linguistics a field whose methodology has revolutionized much of the empirical work done in most fields of linguistic study over the past decade Corpus linguistics investigates human language by starting out from large collections of texts spoken written or recorded These language corpora which are now regularly available in electronic form are the basis for quantitative and qualitative research on almost any question of linguistic interest Many techniques that are in use in corpus linguistics today are rooted in the tradition of the late 18th and 19th century when linguistics began to make use of mathematical and empirical methods Modern corpus linguistics has used and developed these methods in close connection with computer science and computational linguistics The handbook sketches the history of corpus linguistics shows its potential discusses its problems and describes various methods of collecting annotating and searching corpora as well as processing corpus data It also reports case studies that illustrate the wide range of linguistic research questions addressed in corpus linguistics The over 60 articles included in the handbook are divided into five sections 1 the origins and history of corpus linguistics and surveys of its relationship to central fields of linguistics 2 corpus compilation 3 corpus types 4 preprocessing of corpora 5 the use and exploitation of corpora The final section gives an overview of the results of corpus

studies obtained in phonetics phonology morphology syntax semantics sociolinguistics historical linguistics stylometry dialectology and discourse analysis It also reports on recent advances made in human and machine translation contrastive studies computer assisted language learning and automatic summarization The contributors to the volume are internationally known experts in their respective fields The handbook is intended for a wide audience ranging from teachers university students and scholars to anyone interested in the use of computers in linguistic analyses and applications

*Corpus Linguistics and World Englishes* Vivian de Klerk, 2010-01-01 Monograph examining English as it is spoken by the Xhosa people in South Africa

Evaluation in Media Discourse Monika Bednarek, 2008-11-01 Evaluation is the linguistic expression of speaker writer opinion and has only recently become the focus of linguistic analysis This book presents the first corpus based account of evaluation one hundred newspaper articles collated to form a 70 000 word comparable corpus drawn from both tabloid and broadsheet media The book provides detailed explanations and justifications of the underlying framework of evaluation as well as demonstrating how this is part of the larger framework of media discourse Unlike many other linguistic analyses of media language it makes frequent reference to the production circumstances of newspaper discourse in particular the so called news values that shape the creation of the news Cutting edge and insightful Evaluation in Media Discourse will be of interest to academics and researchers in corpus linguistics and media discourse

*Sadness Expressions in English and Chinese* Ruihua Zhang, 2014-09-25 Winner of the Tianjin Social Science Outstanding Achievement Award This book reports on the contrastive semantic investigation of sadness expressions between English and Chinese based on two monolingual general corpora and a parallel corpus The exploration adopts a unique theoretical approach which integrates corpus linguistic theories on meaning as a social construct usage and paraphrase with a corpus linguistic lexical model It employs a new complex but workable methodology which combines computational tools with manual examination to tease meaning out of corpus evidence to compare and contrast lexical items that do not match up neatly between languages It looks at sadness expressions both within and across languages in terms of three corpus linguistic structural categories i e colligation collocation and semantic association preference and paraphrase both explicit and implicit to capture their subtle nuances of meaning disclose the culture specific conceptualisations encoded in them and highlight their respective cultural distinctiveness of emotion By presenting multidisciplinary original work Sadness Expressions in English and Chinese will be of interest to researchers in corpus linguistics contrastive lexical semantics psychology bilingual lexicography and language pedagogy

**Extending the Scope of Corpus-Based Translation Studies** Sylviane Granger, Marie-Aude Lefer, 2022-01-27 With the rapid growth of corpus based translations studies CBTS over recent years this book offers a timely overview of the field today It features cutting edge studies from leading experts in the area focused on both professional and student translations and covers the latest theoretical developments such as the constrained communication framework with a strong focus on methodology particularly mixed method approaches multivariate research designs and translation error

annotation The volume highlights the emerging interdisciplinary bridges between CBTS and other areas in linguistics and demonstrates the applications of these theories and methods to translator training It also offers a forward looking perspective by presenting some of the challenges CBTS currently faces and possible pathways for future research Thanks to its combined theoretical methodological and applied perspective and innovative approaches Extending the Scope of Corpus Based Translation Studies will appeal to both seasoned specialists and newcomers to the field **Historical Corpus**

**Stylistics** Patrick Studer, 2014-02-25 This book analyzes how news discourse was shaped over time by external factors such as the historical context news production technological innovation and current affairs and as such both conformed to and deviated from generic conventions Using data from a newspaper corpus it offers the first empirical study into the development of style in early mass media In this analysis media style appears as a dynamic concept which is highly sensitive to innovative approaches towards making news not only informative but also entertaining to read This cutting edge survey will be of interest to academics researching corpus linguistics media discourse and stylistics **English Collocation**

**Studies** Robert Daley, Susan Jones, John Sinclair, 2004-08-01 This is the first published edition of John Sinclair Susan Jones and Robert Daley's research on collocation undertaken in 1970 The unpublished report was circulated amongst a small group of academics and was enormously influential sparking a growth of interest in collocation amongst researchers in linguistics Collocation was first viewed as important in computational linguistics in the work of Harold Palmer in Japan Later M A K Halliday and John Sinclair published on collocation in the 1960s English Collocation Studies is a report on empirical research into collocation devised by Halliday with Sinclair acting as the Principal Investigator and editor of the resultant OSTI report The present edition contains an introduction by Professor Wolfgang Teubert based on his interview with John Sinclair The introduction assesses the extent to which the findings of the original research have developed in the intervening years and how some of the techniques mentioned in the report were implemented in the COBUILD project at Birmingham University in the 1980s *Patterns in Contrast* Jarle Ebeling, Signe Oksefjell Ebeling, 2013-09-17 Combining the fields of phraseology and contrastive analysis this book describes how patterns defined as recurrent word combinations with semantic unity behave cross linguistically As the contrastive approach adopted in the book relies on translations and a bidirectional corpus model the first part offers an in depth discussion of contrastive linguistics with special emphasis on using translations as tertium comparationis and a parallel corpus as the main source of material Central to the contrastive analysis is the use of corpus linguistic methods in the identification of patterns while a deeper understanding of the phraseological nature of the patterns is closely related to the concept of extended units of meaning The second part of the book presents five case studies using an easy to follow step by step method to illustrate the phraseological contrastive approach at work The studies show that patterns weave an intricate web of meanings across languages and demonstrate the potential of exploring patterns in contrast

**The Prosody of Formulaic Sequences** Phoebe Lin, 2018-09-20 To apply the same approaches to analysing

spoken and written formulaic language is problematic to do so masks the fact that the contextual meaning of spoken formulaic language is encoded to a large extent in its prosody In *The Prosody of Formulaic Sequences* Phoebe Lin offers a new perspective on formulaic language arguing that while past research often treats formulaic language as a lexical phenomenon the phonological aspect of it is a more fundamental facet This book draws its conclusions from three original empirical studies of spoken formulaic language assessing intonation unit boundaries as well as features such as tempo and stress placement Across all studies Lin considers questions of methodology and conceptual framework The corpus based descriptions of prosody outlined in this book not only deepen our understanding of the nature of formulaic language but have important implications for English Language Teaching and automatic speech synthesis

*Representation of the British Suffrage Movement* Kat Gupta, 2015-11-19 Focussing on *The Times* this monograph uses corpus linguistics to examine how suffrage campaigners different ideologies were conflated in the newspaper over a crucial time period for the movement 1908 to 1914 leading up to the Representation of the People Act in 1918 Looking particularly at representations of suffrage campaigners support of or opposition to military action Gupta uses a range of methodological approaches drawn from corpus linguistics discourse analysis and CDA These include collocation analysis examination of consistent significant collocates and van Leeuwen's taxonomy of social actors The book offers an innovative insight into contemporary public understanding of the suffrage campaign with implications for researchers examining large complex protest movements
