Jenkins,1997-12-04 Educated people have become bereft of sophisticated ways to develop their religious inclinations A major reason for this is that theology has become vague and dull In The Character of God author Thomas E Jenkins maintains that Protestant theology became boring by the late nineteenth century because the depictions of God as a character in theology became boring He shows how in the early nineteenth century American Protestant theologians downplayed biblical depictions of God s emotional complexity and refashioned his character according to their own notions stressing emotional singularity These notions came from many sources but the major influences were the neoclassical and sentimental literary styles of characterization dominant at the time The serene benevolence of neoclassicism and the tender sympathy of sentimentalism may have made God appealing in the mid 1800s but by the end of the century these styles had lost much of their cultural power and increasingly came to seem flat and vague Despite this both liberal and conservative theologians clung to these characterizations of God throughout the twentieth century Jenkins argues that a way out of this impasse can be found in romanticism the literary style of characterization that supplanted neoclassicism and sentimentalism and dominated American literary culture throughout the twentieth century Romanticism emphasized emotional complexity and resonated with biblical depictions of God A few maverick religious writers such as Harriet Beecher Stowe W G T Shedd and Horace Bushnell did devise emotionally complex characterizations of God and in some cases drew directly from romanticism But their strange and sometimes shocking depictions of God were largely forgotten in the twentieth century s use theological as a pejorative term implying that an argument is needlessly Jenkins urges a reassessment of their work and a greater understanding of the relationship between theology and literature Recovering the lost literary power of American Protestantism he claims will make the character of God more compelling and help modern readers appreciate the peculiar power of the biblical characterization of God      **Practical Theology in Progress** Nigel Rooms,Zoë Bennett,2020-06-29

*Agape* Gene H. Outka, 1977-09-10 This study is the most comprehensive account to date of modern treatments of the love commandment Gene Outka examines the literature on agape from Nygren s *Agape and Eros* in 1930 Both Roman Catholic and Protestant writings are considered including those of D Arcy Niebuhr Ramsey Tillich and above all Karl Barth The first seven chapters focus on the principal treatments in the theological literature as they relate to major topics in ethical theory The last chapter explores further the basic normative

content of agape and discusses some of the most characteristic problems The book is in my judgment the best recent work in religious ethics Outka brings together analytic moral philosophy and theological ethics providing a masterly survey of views and issues arising in the past forty years I can think of few books of interest to scholars in both philosophy and theology but Outka's is one Unlike some scholars who are at home in continental theology Outka is also at home in secular analytic philosophy he brings them together in a mutually illuminating way Donald Evans Outka has mastered this vast literature on love and has brought a critical and clarifying analysis to bear upon it This is a most important book on a most important subject and brings the whole discussion into a new phase John Macquarrie The first thing to be said about Outka's book quite simply is that it is excellent in fact it is probably the very best available book about contemporary Christian ethical theory The Humanities Association Review

The Artistic Foundations of Nations and Citizens Ann Ward, 2021-09-28 This book examines politics through the lens of art and literature Through discussion on great works of visual art literature and cultural representations of political thought in the medieval early modern and American eras it explores the relevance of the nation state to human freedom and flourishing as well as the concept of citizenship and statesmanship that it implies in contrast to

that of the global community The essays in this volume focus on shifting notions of various core political concepts like citizenship republicanism and nationalism from antiquity to the present day to provide a systematic understanding of their evolving histories through Western Art and literature It highlights works such as the Bayeux Tapestry Shakespeare's Henry V Henry VI and A Midsummer Night's Dream Twain's Joan of Arc and Hermann's Nichts als Gespenster among several other canonical works of political interest Further it questions if we should now look beyond the nation state to some form of transnational global community to pursue the human freedom desired by progressives or look at smaller forms of community resembling the polis to pursue the friendship and nobility valued by the ancients The volume will be invaluable to students and teachers of political science especially political theory and philosophy visual arts and world literature

Sexual Privatism in British Romantic Writing Adam Komisaruk, 2019-05-09 The Romantic age though often associated with free erotic expression was ambivalent about what if anything sex had to do with the public sphere Late eighteenth and early nineteenth century British texts often repressed the very sexual energies they claimed to be bringing into the open The delineation of what could and could not be said and done in the name of physical pleasure was of a piece with the capitalist consecration of the social trust to the individual profit motive Both these practices moreover presupposed a determinate self with sovereignty over its own interests Writings from and about some nominally public institutions were thus characterized by privatism a sexual economic and ontological withdrawal from otherness Sexual Privatism in British Romantic Writing A Public of One explores how this threefold ideology was both propagated and resisted wittingly and unwittingly successfully and unsuccessfully in such Romantic publics as rape law sodomy law adultery law high profile scandals the population debates and club culture It includes readings of imaginative literature by William Beckford William Blake Erasmus Darwin Mary Hays Percy Shelley and Mary Wollstonecraft works of political economy by Jeremy Bentham William Cobbett William Godwin William Hazlitt and Thomas Robert Malthus as well as contemporary legal treatises popular journalism and satirical pamphlets
