Transforming Performance Measurement Dean R. Spitzer, You can t accurately gauge your company s performance if you don t know what or how to measure It s no secret that you can t improve your organization s performance without measuring it In fact every function unit process and the organization as a whole is built and run according to the parameters and expectations of its measurement system So you d better make sure you re doing it right All too often performance measurement creates dysfunction whether among individuals teams or across entire divisions and companies Most traditional measurement systems actually encourage unhealthy competition for personal gain creating internal conflict and breeding distrust of performance measurement *Transforming Performance Measurement* presents a breakthrough approach that will not only significantly reduce those dysfunctions but also promote alignment with business strategy maximize cross enterprise integration and help everyone to work collaboratively to drive value throughout your organization Performance improvement thought leader Dean Spitzer explains why performance measurement should be less about calculations and analysis and more about the crucial social factors that determine how well the measurements get used His socialization of measurement process focuses on learning and improvement from measurement and on the importance of asking such questions as How well do our measures reflect our business model How successfully are they driving our strategy What should we be measuring and not measuring Are the right people having the right measurement discussions Performance

measurement is a dynamic process that calls for an awareness of the balance necessary between seemingly disparate ideas the technical and the social aspects of performance measurement For example you need technology to manage the flood of data but you must make sure that it supports the people who will be making decisions and taking action crucial to your organization s success This book shows you how to design that technical social balance into your measurement system While it is urgent to start taking action now transforming your organization s performance measurement system will take time Transforming Performance Measurement gives you assessment tools to gauge where you are now and a roadmap for moving with little or no disruption to a more transformational and mature measurement system The book also provides 34 TMAPs

Transform Inter-organizational information exchange, supply chain compliance and performance Guangqian Peng,2023-09-04 Globalization of business markets and the rapid development of information technology are making information management more and more important By combining managerial and economic theory this book builds a framework to demonstrate facilitating factors for inter organizational information exchange and the effects of information exchange on supply chain compliance and business performance We have strong indications both theoretical and empirical that such an integrative conceptual framework is needed to grasp the complexity of information exchange between business partners Using empirical evidence from the poultry chain in Mainland China this book supports the complementary roles between contractual governance and trust in the process of improving the willingness to communicate It also proposes that communication quality needs to be broader than information quality Finally it illustrates that in order to stand out from main competitors companies should not only commit to realizing more potential communication benefits for themselves but also for their main partners Different solutions for buyers and suppliers in optimizing their business performance are also discussed This book is recommended for a broad audience of professionals practitioners and policy makers who concern themselves with information management supply chain management channel relationship management and performance management

Transforming Performance Measurement Dean R. Spitzer,2007 You can t improve performance in an organization without measurement but how you measure matters Traditional measurement systems can create dysfunction and distrust This breakthrough approach provides an alternative a roadmap for moving with little or no disruption toward a more mature effective and transformative D18 measurement system
