Poetry After Cultural Studies Heidi R. Bean, Mike Chasar, 2011-10-26 Poetry after Cultural Studies elucidates the potential of poetry scholarship when joined with cultural studies In eight searching essays covering an astonishing range of poetic practices geographical regions and methodological approaches this volume reflects on what poetry can accomplish in the broadest social and cultural contexts From Depression era Iowa to the postcolonial landscape of French speaking Martinique whether appearing in newspapers correspondences birders field guides cross stitches or television and the internet the poetry under consideration here is rarely a private lyrical endeavor For a great number of people writing reading publishing and using poetry over the past 150 years verse has not been a retreat from modern life but a way of engaging with and even changing it Whether the subject is post cards talk shows or verse from places as different as academia and MySpace as cultural production and as literary trickery the material examined in this volume demonstrates the central role of poetry as an active cultural presence By bringing together cultural studies poetics and formalist reading without antagonism Poetry after Cultural Studies looks toward a poetry criticism that does not merely do cultural studies but rather employs the resources of that discipline to examine an increasingly legible and audible record of poetic practice Exploring a wide range of poetry from the nineteenth century to the present Poetryafter Cultural Studies showcases the unexpectedly rich intersection of cultural studies theory and current poetry scholarship These essays show forcefully that cultural studies and poetics once thought incommensurable in fact are mutually informative and richer for the effort
