Test No. 210 AF Reading Blueprints

The purpose of this test is to measure how much you have learned about electrical engineering skills. The results will help you and your system manager evaluate your progress and plan the next steps in your training program.

Instructions

- Print your name and the Test No. and location in the box at the top of the document sheet (top only). Also print your ID number, Test No. and location in the box at the top of the Report page.
- Time for the test: 30 min.
- Read each question carefully and make a selection from the choices that you think is the best answer.
- Working on 8 in the box with the Test No. and location of the question.

The Training Systems website is a comprehensive Training Needs Analysis survey tool that helps identify all your knowledge gaps in mechanical systems. The survey is divided into 10 sections, each of which represents a major subject area and will be completed in a number of hours in the completion of your analysis.

As part of the effort, we will analyze the results and give you a detailed report of your knowledge gaps, and identify exactly the Technical Skills courses that cover those knowledge gaps. This analysis also demonstrates to you the essential core knowledge being collected in your training program up and coming in a comprehensive effort.
