web resistance and propulsion the resistance to forward motion of a ship is of three principal kinds friction wave making and separation or eddy making friction or viscous resistance is caused by the acceleration of liquid particles in a forward

direction as the bow continually runs into a region of liquid at rest

ship resistance and propulsion cambridge university press - Aug 03 2022

web introduction the estimation of ship propulsive power is fundamental to the process of design ing and operating a ship a knowledge of the propulsive power enables the size and mass of the propulsion engines to be established and estimates made of the fuel con sumption and operating costs

ship resistance and propulsion cambridge university - Apr 11 2023

web ship resistance and propulsion is dedicated to providing a comprehensive and modern scientific approach to evaluating ship resistance and propulsion the study of propul sive power enables the size and mass of the propulsion engines to be established and estimates made of the fuel consumption and likely operating costs
