Media Coverage of Crime and Criminal Justice Matthew B. Robinson, 2011 Media Coverage of Crime and Criminal Justice critically examines the media to identify how crime and criminal justice are treated in the news and entertainment media The goal is not only to help shed light on important realities of crime and criminal justice in the United States but also to correct major misconceptions created by coverage of crime and criminal justice in the news on television in movies in music and other media forms While there are other texts on the market focused on the impact of mass media on criminal justice this text is the only one that starts with the issue of corporate ownership of the mass media as a potential problem for gaining an accurate understanding of the realities of crime and criminal justice Further this text presents basic information about the media in the introductory chapters and then applies this information to specific issues of crime and criminal justice in the rest of the book thereby focusing on the same issues and themes throughout the book Topics analyzed include how the media are organized how they operate and to what degree citizens are exposed to the media Additionally the book analyzes competing explanations of media coverage of crime and criminal justice using examples from the real world to show why the media cover topics and ignore others the way they do The book deals with media coverage of law making and crime policing courts and corrections There are separate chapters of media coverage of each branch of criminal justice with reviews of the literature focused on the most recent and influential research on these topics The book also examines how the media both help and hinder effective crime control and crime prevention efforts The book concludes with a summary of the book as well as suggestions for media reform based on major findings of the book Author maintained supplemental website at <http://gjs.appstate.edu/research/media> Regularly updated blog by the author at mediacriminaljustice.blogspot.com

Lies, Damned Lies, and Drug War Statistics, Second Edition Matthew B. Robinson, Renee G. Scherlen, 2014-01-01 Revised and updated edition that analyses how the Office of National Drug Control Policy employs statistics to misleadingly claim the War on Drugs is a success First published in 2007 *Lies Damned Lies and Drug War Statistics* critically analyzed claims made by the Office of National Drug Control Policy ONDCP the White House agency of accountability in the nation's drug war since 1989 as found in the six editions of the annual National Drug Control Strategy between 2000 and 2005 In this revised and updated second edition of their critically acclaimed work Matthew B Robinson and Renee G Scherlen examine seven more recent editions 2006 2012 to once again determine if ONDCP accurately and honestly presents information or intentionally distorts evidence to justify continuing the drug war They uncover the many ways in which ONDCP manipulates statistics and visually presents that information to the public Their analysis demonstrates

a drug war that consistently fails to reduce drug use drug fatalities or illnesses associated with drug use fails to provide treatment for drug dependent users and drives up the prices of drugs They conclude with policy recommendations for reforming ONDCP s use of statistics as well as how the nation fights the war on drugs Praise for the First Edition Lies Damned Lies and Drug War Statistics is surprisingly easy to read and Robinson and Scherlen have done a huge favor not only to critics of current drug policy by compiling this damning critique of ONDCP claims but also to anyone interested in how data is compiled presented and misused by bureaucrats attempting to guard their domains It should be required reading for members of Congress Drug War Chronicle Book Review The authors have performed a valuable service to our democracy with their meticulous analysis of the White House ONDCP public statements and reports They have pulled the sheet off what appears to be an official policy of deception using clever and sometimes clumsy attempts at statistical manipulation This document at last gives us a map of the truth Mike Gray author of Drug Crazy How We Got into This Mess and How We Can Get Out Robinson and Scherlen make a valuable contribution to documenting how ONDCP fails to live up to basic standards of accountability and consistency Ethan Nadelmann Executive Director Drug Policy Alliance *Encyclopedia of Policy Studies, Second Edition* Stuart Nagel,2020-08-18 This entirely updated and enlarged Second Edition of a landmark reference text continues to provide comprehensive coverage of every important aspect of policy studies discussing concepts methods utilization formation and implementation both internationally and across each level of government Mass Mediated Representations of Crime and Criminality Julie B.
