Responsibility, God and Society Johan de Tavernier, 2008 A generation of students at the Faculty of Theology of the K U Leuven have been introduced by Roger Burggraeve to the thoughts of Emmanuel Levinas 1905 1995 Levinas has been and still is for him a true master in thinking For Levinas responsibility is heteronymous because it does not start from the I but from the epiphany of the other as the face appealing to me not to kill but to promote him her In and through the appeal of the face the difference between the other and me expressed in the irreducible alterity of the other is ethically speaking the appeal to the highest non indifference proximity without absorption As Levinas thinking carries on obvious Jewish Talmudic imprint Burggraeve was interested as to how the concept of responsibility can be connected to a biblically inspired ethic In which way can the Levinasian view on responsibility enhance a Christian anthropology and in particular that one articulated by Louvain personalism and in its turn inspired by a Christian anthropology so that it benefits from uniquely Christian accents In this Festschrift for Roger Burggraeve authors explore the theme of Responsibility God and Society in order to answer two questions What does Levinas ethic of responsibility have to offer Christian theology And vice versa what can Christian theology offer to contemporary ethical thought on personal relational and societal responsibility

volume seeks to enhance academic and policy maker understanding of Europe's evolving higher education system as it emerges as a cornerstone of the contemporary knowledge society *Social Register, New York* ,1910 Includes Dilatory domiciles *Talking Prices* Olav Velthuis,2013-10-24 How do dealers price contemporary art in a world where objective criteria seem absent *Talking Prices* is the first book to examine this question from a sociological perspective On the basis of a wide range of qualitative and quantitative data including interviews with art dealers in New York and Amsterdam Olav Velthuis shows how contemporary art galleries juggle the contradictory logics of art and economics In doing so they rely on a highly ritualized business repertoire For instance a sharp distinction between a gallery's museumlike front space and its businesslike back space safeguards the separation of art from commerce Velthuis shows that prices far from being abstract numbers convey rich meanings to trading partners that extend well beyond the works of art A high price may indicate not only the quality of a work but also the identity of collectors who bought it before the artist's reputation was established Such meanings are far from unequivocal For some a high price may be a symbol of status for others it is a symbol of fraud Whereas sociological thought has long viewed prices as reducing qualities to quantities this pathbreaking and engagingly written book reveals the rich world behind these numerical values Art dealers distinguish different types of prices and attach moral significance to them Thus the price mechanism constitutes a symbolic system akin to language *Talking Prices* Gil Troy,Olav Velthuis,2005 Chronicles the political events of the 1980s offering a year by year account of the economic and cultural changes that took place during Ronald Reagan's two terms in the White House **The Psychotherapeutic Framing of Psychedelic Drug Administration** Dea Siggaard Stenbæk,Stig Poulsen,Manoj Doss,Maria Beckman,2023-03-02 **Virtue in Global Governance** Jan Klabbers,2022-08-11 Virtue in Global Governance offers a framework and vocabulary for discussing the virtues in international affairs **Confrontation with the Unconscious** Scott J. Hill,2019-06-05 Carl Gustav Jung pioneered the transformative potential of the deep unconscious Psychedelic substances provide direct and powerful access to this inner world How then might Jungian psychology help us to better understand the nature of psychedelic experiences And how might psychedelics assist the movement toward psychological transformation described by Jung Jungian depth psychology and psychedelic psychotherapy are both concerned with coming to terms with unconscious drives complexes and symbolic images Unaware of significant evidence for the safe clinical use of psychedelic drugs Jung himself remained wary of psychedelics and staunchly opposed their therapeutic use His bias has prevented Jungians from objectively considering the benefits as well as the risks of using psychedelics for psychological healing and growth *Confrontation with the Unconscious* intertwines psychedelic research personal accounts of psychedelic experiences and C G Jung's work on trauma the shadow psychosis and psychospiritual transformation including Jung's own confrontation with the unconscious to show the relevance of Jung's penetrating insights to the work of Stanislav Grof Ann Shulgin Ronald Sandison Margot Cutner among other psychedelic and transpersonal researchers and to demonstrate the great value of Jung

Vital Democracy Frank Hendriks, 2010-04-08 Vital Democracy outlines a theory of democracy in action based on four elementary forms of democracy pendulum consensus voter and participatory democracy that are thoroughly analysed compared and related to both the literature and the real world of democracy Just like a few primary colours produce an array of shades a few basic models of democracy appear the author argues to constitute a wide range of democratic variants in real life Focusing on tried and tested democratic institutions Frank Hendriks shows that the four models of democracy with their divergent patterns of leadership citizenship and governance their inherent strengths and weaknesses are never purely instantiated He argues that wherever democracy is practiced with some level of success it is always as hybrid democracy thereby challenging those democratic reformers and theorists that have inspired the quest for democratic purity Vital Democracy builds on Arend Lijphart's well known work which distinguishes between majoritarian and consensual democratic countries but also goes well beyond it urging attention to non national non formal and non representative expressions of democracy as well
