Opening the Parables M. D. Hayden, 2024-07-11 For centuries Jesus parables have been and still are extensively interpreted by those who impose Christian dogma and tradition on a parable told decades before Christianity per se even existed There was no Christian tradition when Jesus was teaching his followers and he was teaching regular people not theologians No wonder then that after two millennia Jesus parables coated with a confusing overlay of Christian dogma still puzzle readers of the New Testament *Opening the Parables*

is based on the premise that Jesus taught a singular spiritual truth which once the clutter of others words and interpretations is cleared away appears consistently in all his teachings even in his parables In the best possible way Jesus was a one subject teacher one subject using various teaching techniques both deductive and inductive a one sermon preacher one message told in various ways Everything he taught or preached was about love in the infinite here and now Kingdom of God All his parables proverbs aphorisms and direct statements teach one lesson in the highest realm we can imagine compassionate love is all that matters

[Phosphorescence](#) Julia Baird, 2021-07-06 Both timeless and timely this is a book of wisdom and wonder Geraldine Brooks Pulitzer Prize winning author of *March* a deeply personal exploration of what can sustain us through our darkest moments What has fascinated and sustained me over these last few years has been the notion that we have the ability to find nurture and carry our own inner living light a light to ward off the darkness This is not about burning brightly it's about yielding a more simple phosphorescence being luminous having stored light for later use

Staying alive remaining upright even when lashed by doubt After surviving a difficult heartbreak and battle with cancer acclaimed author and columnist Julia Baird began thinking deeply about how we as people persevere through the most challenging circumstances She started to wonder when we are overwhelmed by illness loss or pain or a tragedy outside our control How can we keep putting one foot in front of the other Baird went in search of the magic that fuels the light within our own phosphorescence In this stunning book she reflects on the things that lit her way through the darkness especially the surprising strength found in connecting with nature and not just experiencing awe and wonder about the world around her but deliberately hunting it daily Baird also writes about crossbeams of resilience nurturing friendships and a quiet faith pursuing silence fighting for what she believes in the importance of feeling small learning from her mother's example of stoic grace She also explores how others nurture their inner light interviewing the founder of the modern forest therapy movement in Tokyo a jellyfish scientist in Tasmania and a tattooed priest from Colorado among others Weaving together candid and moving memoir with deep research and reflections on nature and the world around her Baird inspires readers to embrace new habits and to adopt a phosphorescent outlook on life to illuminate ourselves and our days even in the darkest times
