The United States Court of Appeals for the Federal Circuit has recently embarked on a campaign to improve the quality of briefing. With the 2018 Edition of Patent Appeals: The Elements of Effective Advocacy in the Federal Circuit, Mark Davies has provided attorneys with an indispensable guide to briefing and arguing cases before the Federal Circuit. In the ten years since the First Edition of this book, the need for high-quality appellate briefs at the Federal Circuit has intensified. When the First Edition was published in 2008, the Supreme Court had already repeatedly faulted the Federal Circuit for inventing formalistic rules, using jargon, and failing to harmonize patent law with other areas of law. Unfortunately, more recent Supreme Court cases make precisely the same three points. This 2018 Edition is another effort at helping parties and their representatives present patent arguments in a fashion that the appellate court will adopt and the Supreme Court accept. As before, the structure of the book is designed to match the chronological process of writing an appellate brief. After some preliminary comments on writing, the book chapters track the various sections of an opening brief required (or permitted) by the federal rules. Separate chapters address other types of briefs and filing mechanics and the final chapters address oral argument and rehearing petitions. The appendix to this book includes complete copies of the principal briefs discussed along with several other documents on proper formatting and style. The contested mixture of law and technology, of democracy and progress, is a fortunate place to spend one's career. Law changes slowly, and much of the basic guidance for writing appeal briefs today is the same as it would have been when the patent laws were written hundreds of years ago. Technology, of course, moves quickly in comparison, and presenting relevant legal arguments requires staying current with complex factual changes. The aim with this 2018 Edition is to help all lawyers contribute to an effective presentation to the Federal Circuit, a presentation that advances the client's interests by working within the Supreme Court's and thus the Federal Circuit's expectations of sound appellate briefing. Reviews Mark Davies recently authored the user manual for Federal Circuit appeals. From its 300 spiral-bound pages, you can tell that the book is designed to serve the appellate attorney during the process of crafting a brief. Davies argued dozens of appeals as a DOJ appellate attorney and is now doing the same at Orrick in DC. The book is very easy to read and understand, and it does an especially good job of providing concrete advice on how to draft an effective and clearly written brief while staying within the rules. If you have an appeal pending, you better use this book. Dennis D. Crouch, Editor of nation's leading patent law blog, Patently-O, and Co-Director of the Center for Intellectual Property & Entrepreneurship and Associate Professor of Law at the University of Missouri School of Law This work, by one of the leading appellate lawyers, is an indispensable combination of intellectual-property issues and appellate strategy. In an easy-to-use format that tracks the Federal Rules of Appellate Procedure, Mark Davies distills his unique background in both high-stakes appellate practice and patent law to assist the patent litigator
