**Narrative in Health Care** John D Engel, Joseph Zarconi, Lura Pethtel, Sally Missimi, 2017-11-22 Narrative medicine has developed an identity already Clinicians of many disciplines are being summoned to a practice that recognizes patients by receiving their accounts of self Starting from different positions

the four authors have converged in a strong and shared commitment to narrative health care. They conceptualize narrative health care practices within frameworks derived from the social sciences and psychology and to a lesser degree phenomenology and autobiographical theory. They relate the development of narrative medicine to relationship centered care, patient centered care and complex responsive process of relating theory, positing that narrative medicine can help clinicians to develop the skills required to practice relationship centered care. The book details with exercises, resource texts and abundant scholarly apparatus how these skills can be developed and strengthened. This work will change health care. Because of its scholarly rigor, its multi-voiced sources and its highly practical features, lists, activities, key ideas and key references, primary texts written by health care professionals and patients, this work will be a guide in the field for those who practice medicine or nursing or social work. The book establishes that there is a field to be practised, a need to practise it and a means to develop the wherewithal to do so.

**Supportive Oncology E-Book** Mellar P. Davis, Petra Feyer, Petra Ortner, Camilla Zimmermann, 2011-02-11. Supportive Oncology by Drs Davis, Feyer, Ortner and Zimmermann is your practical guide to improving your patients' quality of life and overall outcomes by integrating palliative care principles into the scope of clinical oncologic practice at all points along their illness trajectories. A multidisciplinary editorial team representing the dual perspectives of palliative medicine and oncology offers expert guidance on how to effectively communicate diagnoses and prognoses with cancer patients and their families, set treatment goals and manage symptoms through pharmacological therapies as well as non-pharmacological therapies and counselling when appropriate. Integrate complementary palliative principles as early as possible after diagnosis with guidance from a multidisciplinary editorial team whose different perspectives and collaboration provide a well-balanced approach. Effectively communicate diagnoses and prognoses with cancer patients and their families, set treatment goals and manage symptoms through pharmacological therapies as well as non-pharmacological therapies and counseling when appropriate. Improve patients' quality of life with the latest information on pain and symptom management, including managing side effects of chemotherapy and radiotherapy, rehabilitating and counselling long-term survivors and managing tumor-related symptoms and other complications in the palliative care setting. Prescribe the most effective medications, manage toxicities and deal with high symptom burdens.

**Learning from the Student's Perspective** Alison Cook-Sather, Brandon Clarke, Daniel Condon, Kathleen Cushman, Helen Demetriou, Lois Easton, 2015-11-17. Much has been written about how to engage students in their learning, but very little of it has issued from students themselves. Compiled by one of the leading scholars in the field of student voice, this sourcebook draws on the perspectives of secondary students in the United States, England, Canada and Australia as well as on the work of teachers, researchers and teacher educators who have collaborated with a wide variety of students. Highlighting student voices, it features five chapters focused on student perspectives articulated in their own words regarding specific approaches to creating and maintaining a positive classroom environment and designing engaging lessons and on more general issues of

respect and responsibility in the classroom To support educators in developing strategies for accessing and responding to student voices in their own classrooms the book provides detailed guidelines created by educational researchers for gathering and acting upon student perspectives To illustrate how these approaches work in practice the book includes stories of how pre service and in service teachers school leaders and teacher educators have made student voices and participation central to their classroom and school practices And finally addressing both practical and theoretical questions the book includes a chapter that outlines action steps for high school teachers school leaders and teacher educators and a chapter that offers a conceptual framework for thinking about and engaging in this work Bringing together in a single text student perspectives descriptions of successful efforts to access them in secondary education contexts concrete advice for practitioners and a theoretical framework for further exploration this sourcebook can be used to guide practice and support re imagining education in secondary schools of all kinds and the principles can be adapted for other educational contexts
