Collecting the diverse perspectives of scholars labor organizers and human rights advocates *Accountability across Borders* is the first edited collection that connects studies of immigrant integration in host countries to accounts of transnational migrant advocacy efforts including case studies from the United States Canada and Mexico Covering the role of federal state and local governments in both countries of origin and destinations as well as nongovernmental organizations NGOs these essays range from reflections on labor solidarity among members of the United Food and Commercial Workers in Toronto to explorations of indigenous students from the Maya diaspora living in San Francisco Case studies in Mexico also discuss the enforcement of the citizenship rights of Mexican American children and the struggle to affirm the human rights of Central American migrants in transit As policies regarding immigration citizenship and enforcement are reaching a flashpoint in North America this volume provides key insights into the new dynamics of migrant civil society as well as the scope and limitations of directives from governmental agencies

Religion Across Borders Helen Rose Ebaugh, Janet Saltzman Chafetz, 2002-10-16 The new immigrants coming to the United States and establishing ethnic congregations do not abandon religious ties in their home countries Rather as they communicate with family and friends left behind in their homelands they influence religious structures and practices there *Religion Across Borders* examines both personal and organizational networks that exist between members in U S immigrant religious communities and individuals and religious institutions left behind Building upon *Religion and the New Immigrants* 2000 _their previous study of immigrant religious communities in Houston_ sociologists Ebaugh and Chafetz ask how religious remittances flow between home and host communities how these interchanges affect religious practices in both settings and how influences change over time as new immigrants become settled The study's unique comparative perspective looks at differing faith groups Catholic Protestant Buddhist from Argentina Mexico Guatemala Vietnam and China Data on ways in which historic geographic economic and religious factors influence transnational religious ties makes necessary reading for students of immigration religion and anyone interested in the increasingly global aspects of American religion

Farming across Borders Timothy P. Bowman, Kristin Hoganson, Laura Hooton, Josh MacFadyen, Todd Meyers, Peter S Morris, Andrew Dunlop, Alicia Marion Dewey, John Weber, Sonia Hernández, Rosa E Cobos, Matt Caire-Pérez, Paige Raibmon, Jason McCollom, Thomas D Isern, Suzanne Kelley, Anthony Carlson, Stephen Mumme, Tisa Anders, 2017-12-01 *Farming across Borders* uses agricultural history to connect the regional experiences of the American West northern Mexico western Canada and the North American side of the Pacific Rim now writ large into a broad history of the North American West Case studies of commodity production and distribution trans border agricultural labor and environmental change unite to reveal new perspectives on a historiography traditionally limited to a regional approach Sterling Evans has curated nineteen essays to explore the contours of big agricultural history Crops and commodities discussed include wheat cattle citrus pecans chiles tomatoes sugar beets hops henequen and more Toiling over such crops of course were the people of the North American West and as such the

contributing authors investigate the role of agricultural labor from braceros and Hutterites to women working in the sorghum fields and countless other groups in between As Evans concludes society as a whole no matter in what country often ignores the role of agriculture in the past and the present Farming across Borders takes an important step toward cultivating awareness and understanding of the agricultural economic and environmental connections that loom over the North American West regardless of lines on a map In the words of one essay we are tied together in a hundred different ways

Citizenship across Borders Michael Peter Smith, Matt Bakker, 2011-05-02 Michael Peter Smith and Matt Bakker spent five years carrying out ethnographic field research in multiple communities in the Mexican states of Zacatecas and Guanajuato and various cities in California particularly metropolitan Los Angeles Combining the information they gathered there with political economic and institutional analysis the five extended case studies in Citizenship across Borders offer a new way of looking at the emergent dynamics of transnational community development and electoral politics on both sides of the border Smith and Bakker highlight the continuing significance of territorial identifications and state policies particularly those of the sending state in cultivating and sustaining transnational connections and practices In so doing they contextualize and make sense of the complex interplay of identity and loyalty in the lives of transnational migrant activists In contrast to high profile warnings of the dangers to national cultures and political institutions brought about by long distance nationalism and dual citizenship Citizenship across Borders demonstrates that far from undermining loyalty and diminishing engagement in U S political life the practice of dual citizenship by Mexican migrants actually provides a sense of empowerment that fosters migrants active civic engagement in American as well as Mexican politics

Mexico 2050. Challenges, Scenarios & Actions Concepción Olavarrieta, Guillermo Gándara, Jorge Máttar, 2023-08-03 The book compiles 19 authors who approach the 15 Global Challenges identified by the Millennium Project as the main threats and opportunities for the present Millennium as a methodological conceptual framework for Mexico's futures The first part launches diagnoses that are formulated on each Challenge and visions and reflections are proposed The second part presents three possible scenarios for Mexico by 2050 and finally it concludes with a proposal for guiding projects by 2050

The Future of Companies in the Face of a New Reality Griselda Dávila-Aragón, Salvador Rivas-Aceves, 2021-07-06 This book analyzes the changes brought on to economic and business activities in Latin America due to the new scenarios environments and social dynamics the world is facing as a result of the COVID 19 pandemic at both micro and macroeconomic levels Recent changes to working environments has brought discussions on work life balance to the forefront and creating support mechanisms to attract and retain the next generation of workers has become a primary focus for talent managers At an industry level there are expectations that once the crisis passes there will be massive capital inflows toward ESG investments in emerging markets driving the transformation of companies Consequently ESG business models will have a cascading effect in the whole supply chain upstream midstream and downstream and will generate greater value for all stakeholders At the same time

technologies of the fourth industrial revolution such as Blockchain and Artificial Intelligence have gradually been adopted by companies leading the charge in ESG business models. The financial sector has taken the lead in these two technologies but the challenge generated by the COVID 19 pandemic forced other sectors to innovate rapidly in order to remain afloat. Using empirical and theoretical frameworks, the contributors in this book identify the most attractive alternatives to benefit consumers in an adverse environment like the one the world is facing as a result of the COVID 19 pandemic, which while posing a significant challenge for most industries has also created new opportunities for innovation and ingenuity. Analyzing case studies from the coffee and medical tourism sectors in particular, Medical Tourism Stephanie Watson, Kathy Stolley, 2012-04-23. From exotic spa treatments to euthanasia, this book examines the background and social context of medical tourism, the practice of traveling for health care. This work also documents how this industry is reshaping the face of medicine worldwide for individuals, local communities, and national health care systems. Medical Tourism: A Reference Handbook provides an accessible overview of the state of medical tourism, written from a balanced, unbiased perspective. The authors provide relevant social context for this controversial topic, discussing the state of extremely limited research data on medical tourism, the ethical issues involved, such as traveling to have a black market organ transplanted, and the significant impact of medical tourism on health care systems, that of the United States and those of the destination countries. The book highlights many contemporary problems, controversies, and implications of medical tourism, both for individuals and health care systems, and presents thought-provoking potential solutions. The topic of medical tourism is also addressed against the backdrop of current healthcare reforms in the United States. Readers can reference a wealth of additional material on medical tourism, ranging from original documents to extensive directories of selected organizations and resources.

Religion Across Borders Helen Rose Fuchs Ebaugh, Janet Saltzman Chafetz, 2002. A study describing the transnational ties between members of Houston, Texas congregations and individuals, groups, and congregations in their sending communities in Argentina, Mexico, China, Vietnam, and Guatemala. Also includes one chapter on New York City Chinese immigrants. Congregations examined represent diversity in geographic proximity of communities of origin, immigration history, faith, socioeconomic status of the immigrant population, and the extent to which immigrants come from a tightly bounded geographic area. Seven chapters address particular congregations; the final chapter analyzes the variety of transnational religious networks described in the seven case studies. Economic Trends and Sustainable Environmental Assessment Andrew Adewale Alola, Festus Victor Bekun, Uju Violet Alola, 2024-08-30. The book *Economic Trends and Sustainable Environmental Assessment* attempts to x-ray the economic and socioeconomic activities and cultural or behavioural aspects from the concept of sustainability by employing several related research scenarios spanning the micro, meso, and macro level approaches. Given the increasing awareness of the importance of social, economic, environmental, and even now human sustainability aspects to a sustainable global present future, the

relevance of the dimensions of Sustainable Development Goals SDGs need to be consistently examined For instance decades of climate related disasters which have increasingly endangered humans are the reason for ongoing advanced advocacy policy and research towards achieving an environmentally sustainable or net zero emission NZE future Thus considering the illustration of the theoretical and practical dimensions of the connectedness of the economic and socioeconomic aspects with environmental dimensions this book should hugely benefit students researchers and policymakers to further understand and solve some of the world s lingering challenges

Culture Across Borders David Maciel, Mar'a Herrera-Sobek, 1998 For as long as Mexicans have emigrated to the United States they have responded creatively to the challenges of making a new home But although historical sociological and other aspects of Mexican immigration have been widely studied its cultural and artistic manifestations have been largely overlooked by scholars even though Mexico has produced the greatest number of cultural works inspired by the immigration process And recently Chicana o artists have addressed immigration as a central theme in their cultural productions and motifs Culture across Borders is the first and only book length study to analyze a wide range of cultural manifestations of the immigration experience including art literature cinema corridos and humor It shows how Mexican immigrants have been depicted in popular culture both in Mexico and the United States and how Mexican and Chicano Chicana artists intellectuals and others have used artistic means to protest the unjust treatment of immigrants by U S authorities Established and upcoming scholars from both sides of the border contribute their expertise in art history literary criticism history cultural studies and other fields capturing the many facets of the immigrant experience in popular culture Topics include the difference between Chicano a and Mexican representation of immigration how films dealing with immigrants are treated differently by Mexican Chicano and Hollywood producers the rich literary and artistic production on immigration themes and the significance of immigration in Chicano jokes As a first step in addressing the cultural dimensions of Mexican immigration to the United States this book captures how the immigration process has inspired powerful creative responses on both sides of the border

Educating Across Borders María Teresa de la Piedra, Blanca Araujo, Alberto Esquinca, 2018-11-20 Educating Across Borders is an ethnography of the learning experiences of transfronterizxs border crossing students who live on the U S Mexico border their lives spanning two countries and two languages Authors Mar a Teresa de la Piedra Blanca Araujo and Alberto Esquinca examine language practices and funds of knowledge these students use as learning resources to navigate through their binational dual language school experiences The authors who themselves live and work on the border question artificially created cultural and linguistic borders To explore this issue they employed participant observation focus groups and individual interviews with teachers administrators and staff members to construct rich understandings of the experiences of transfronterizx students These ethnographic accounts of their daily lives counter entrenched deficit perspectives about transnational learners Drawing on border theory immigration and border studies funds of knowledge and multimodal literacies Educating Across Borders is a critical

contribution toward the formation of a theory of physical and metaphorical border crossings that ethnic minoritized students in U S schools must make as they traverse the educational system **Birding Without Borders** Noah Strycker,2017-10-10

The story of how the associate editor of Birding magazine set himself a lofty goal to become the first person to see half the world s birds in one year In 2015 for 365 days with a backpack binoculars and a series of one way tickets Noah Strycker traveled across forty one countries and all seven continents eventually spotting 6 042 species by far the biggest birding year on record This is no travelogue or glorified checklist Noah ventures deep into a world of chronic sleep deprivation airline snafus breakdowns mudslides floods war zones ecologic devastation conservation triumphs common and iconic species and scores of passionate bird lovers around the globe By pursuing the freest creatures on the planet he gains a unique perspective on the world they share with us and offers a hopeful message that even as many birds face an uncertain future more people than ever are working to protect them Birding Without Borders is light hearted and filled with stories of exotic birds risky adventures and colorful birding companions New York Times Book Review Highly recommended for anyone interested in travel natural history and adventure Library Journal Even readers who wouldn t know a marvellous spatuletail from a southern ground hornbill will be awed by Strycker s achievement and appreciate the passion with which he pursues his interest Publishers Weekly **Medical Tourism** John Connell,2011

Although it may seem a recent phenomenon tourism has long been associated with improved health and spa tourism has its roots in antiquity With the emergence of activities such as bushwalking and meditation and with increasing numbers of people travelling abroad for medical or cosmetic procedures medical tourism is now a growing niche in the tourism market This book looks at the background and rise of health tourism new emerging facets of the sector and examines how health related travel fits into a tourism framework It is suitable for undergraduate and postgraduate students **Unequal Partners** Sidney Weintraub,2010-03-28

Since Mexico s defeat in the Mexican American War of the 1840s the United States has dominated Mexico economically militarily and politically This long history of asymmetry has created a Mexican distaste for American arrogance and an American vision of Mexico as its backyard and has damaged political negotiations trade pacts and capital flows as suspicions and protectionism have undermined diplomacy Despite this the two nations remain joined at the hip more than 80 percent of Mexico s exports are to the United States and the majority of foreign investment in Mexico comes from America In Unequal Partners Sidney Weintraub examines the current relationship of Mexico and the United States as one of sustained dependence and dominance The chapters examine the consequences of this imbalance in six major policy areas trade investment and finance narcotics energy migration and the border The book begins in 1954 when the Mexican growth miracle was at its apex and proceeds to the present Special attention is paid to the post 1982 debt crisis era when Mexico began a more outward looking trade policy As this study reveals Mexico has often been its own worst enemy in foreign relations Over the past thirty years the country has been plagued by debt currency fluctuations tax collection problems political corruption and state controlled business

monopolies that block foreign investment and importation These factors have created an environment of instability damaged outside perceptions and weakened Mexico's bargaining position Weintraub considers future policy changes that would help Mexico to level the playing field Improving the education system he argues will benefit nearly every other activity and institution and opening the oil market to private investment and technology will help develop deep water drilling and revitalize this significant export commodity In foreign relations Mexico must be assertive as it has been in easing U S restrictions on goods traded through NAFTA and demanding U S aid to fight drug cartels not passive as it currently is on U S anti immigration policy and the proposed border wall Perhaps most importantly the study points to the deeper development of policies that are proactive and outward looking
