Paul Delaroche History Painted:

Paul Delaroche Stephen Bann, Paul Delaroche, 1997 Paul Delaroche's works were heralded as masterpieces in the nineteenth century and the man himself was lauded in 1853 by one Italian critic as at the summit of all living painters. But while his paintings themselves are still familiar to many, Delaroche the artist fell into almost total obscurity during the twentieth century. Stephen Bann addresses this lacuna in art scholarship presenting an in-depth examination of Delaroche's career. Bann situates Delaroche and his wide-ranging oeuvre in the context of early nineteenth-century visual culture. From his early historical paintings to experimental pieces influenced by photography, the book analyzes each stage of Delaroche's artistic development as well as his major masterpieces such as *The Execution of Lady Jane Grey* and *The Princes in the Tower*. Bann also analyzes the numerous reproductions of Delaroche's works in a variety of visual mediums including engravings by Mercuri and Henriquel Dupont, lithographs, popular prints, and the photographs that illustrated Delaroche's first retrospective catalog. An unparalleled and lushly illustrated study, Paul Delaroche restores a neglected master to his rightful place in nineteenth-century European art. Paul Delaroche Stephen Bann, 1997 Paul Delaroche Norman D. Ziff, 1974 **Paul Delaroche** Norman D. Ziff, Paul Delaroche, 1977 Paul Delaroche Patricia Smyth, 2022-06-15 *Paul Delaroche Painting and Popular Spectacle* explores the connections between painting and an emergent popular visual culture in the early nineteenth century, which included new forms of optical entertainment such as panoramas and dioramas and innovation in fields such as illustration, art reproduction, and stage decor. Delaroche's paintings caused a sensation at the Paris Salon, with critics comparing the emotional response they elicited to that of popular melodrama. Yet his appeal to a certain type of spectator lay behind the increasingly hostile criticism to which his works were subjected and has in our own time led to his uncertain status in the art historical canon. This book focuses on Delaroche's popularity with a newly expanded audience. Lacking in specialist knowledge but nevertheless keen to engage with and deeply affected by art, the behaviour of this new public prompted lively discussions about who has the right to judge art and on what grounds. Working across disciplinary boundaries, this book proposes a new reading both of Delaroche and of the connections between the arts in this period. The artist emerges as a figure at the cutting edge of an emergent trans-medial popular visual culture in which we see the formation of modern spectatorship. *What Was History Painting and What Is It Now?* Mark Salber Phillips, Jordan Bear, 2019-10-10 The dominant visual language of European painting from the Renaissance to the nineteenth century, history paintings were formidable in their monumental scale, ambitious moral lessons, and intricate narratives. With the rise of modernist avant-gardes, the genre receded from the forefront of artistic production into the realm of nostalgia. Yet history painting cast a shadow that would subtly colour even the works that sought to displace it. Exploring the resilience of this distinctive mode of visual representation, *What Was History Painting and What Is It Now?* brings together an internationally distinguished group of scholars to trace the endurance, adaptation, and mutation of history painting. These studies offer a

reexamination of the fortunes of the genre from North America to Europe and Africa Organized around illuminating themes the book explores the creation of an audience attuned to the genre s didactic aims the entry of history painting into the marketplace of commercial art and attractions and the reimagination of the mode in response to the edicts of modern and contemporary art Spanning the full range and diversity of history painting this collection is a broad reconsideration of the tradition and the vibrant ways in which it resonates through the art of the present Dictionary of Artists' Models Jill Berk Jiminez,2013-10-15 The first reference work devoted to their lives and roles this book provides information on some 200 artists models from the Renaissance to the present day Most entries are illustrated and consist of a brief biography selected works in which the model appears with location a list of further reading This will prove an invaluable reference work for art historians librarians museum and gallery curators as well as students and researchers *Narrative painting in nineteenth-century Europe* Nina Lübbren,2023-05-23 This ground breaking book presents a critical study of pictorial narrative in nineteenth century European painting Covering works from France Germany Britain Italy and elsewhere it traces the ways in which immensely popular artists like Jean Le Rond Goussier Karl von Piloty and William Quiller Orchardson used unique visual strategies to tell thrilling and engaging stories Regardless of genre content or national context these paintings share a fundamental modern narrative mode Unlike traditional art they do not rely on textual sources nor do they tell stories through the human body alone Instead they experiment with objects spaces cause and effect relations and open ended ambiguity prompting viewers and reviewers to read for clues in order to weave their own elaborate tales **Representing the Past in the Art of the Long Nineteenth Century** Matthew C. Potter,2021-09-30 This edited collection explores the intersection of historical studies and the artistic representation of the past in the long nineteenth century The case studies provide not just an account of the pursuit of history in art within Western Europe but also examples from beyond that sphere These cover canonical and conventional examples of history painting as well as more inclusive popular and vernacular visual cultural phenomena General themes explored include the problematics internal to the theory and practice of academic history painting and historical genre painting including compositional devices and the authenticity of artefacts depicted relationships of power and purpose in historical art the use of historical art for alternative Liberal and authoritarian ideals the international cross fertilisation of ideas about historical art and exploration of the diverse influences of socioeconomic and geopolitical factors This book will be of particular interest to scholars of the histories of nineteenth century art and culture *"Art, Theatre, and Opera in Paris, 1750-1850 "* Richard Wrigley,2017-07-05 *Art Theatre and Opera in Paris 1750 1850* Exchanges and Tensions maps some of the many complex and vivid connections between art theatre and opera in a period of dramatic and challenging historical change thereby deepening an understanding of familiar and less familiar artworks practices and critical strategies in the eighteenth and nineteenth centuries Throughout this period new types of subject matter were shared fostering both creative connections and reflection on matters of decorum legibility pictorial and
