Paul Kagame And Rwanda Power Genocide And The Rwandan Patriotic Front:

Paul Kagame and Rwanda Colin M. Waugh, 2013-05-17 In 1994 ethnic conflict turned to genocide in Rwanda When the world finally took notice a million people lay dead and the small African country lay in ruins Rwanda returned from the brink guided by rulers determined to rebuild the country on their own terms rather than those of a previously indifferent international community Paul Kagame Rwanda's first democratically elected president embodies the new Rwandan political philosophy Young unconventional not without flaws and critics Kagame is key to understanding Rwanda's transition from a country that had known only fear division and clan based nepotism for many years to an exceptional African state built upon traditional order and values Paul Kagame's life from exiled child refugee to guerilla warrior and rebel politician to President of Rwanda is traced in this exploration of the influences on Rwanda's struggle for change Analyzing the conflicts and challenges of post genocide Rwanda in comparison to modern parallels the work invites reassessment of Kagame's leadership and government in an African context rather than measurement against Western standards and critiques Western involvement in Rwanda since the early 1990s Twenty eight photographs and three maps supplement the text as do a history of Rwanda's Banyarwanda people and a glossary of words in Kinyarwanda their language The work includes a bibliography and an index *Innovations in Peace and Security in Africa* Joseph Adero Ngala, Rachel Julian, Jonathan

Henriques, 2023-08-28 This edited volume harnesses African expertise to examine the local and global dimensions of peace It is an outcome of a workshop in Nairobi Kenya that convened African academics and practitioners with diverse specialisations The authors contributions foreground local voices across a broad scope of inquiry including rural community structures health trauma sexual violence peacekeeping and cybersecurity African knowledge is essential to understanding peace on the continent the complexities of conflict and insecurity the lived experiences of individuals and communities and their responses to such phenomena This analytical approach underpins the book creating fertile ground to identify and develop innovations that hold the promise for sustainable African solutions

War, Women, and Power Marie E. Berry, 2018-03-15 Rwanda and Bosnia both experienced mass violence in the early 1990s Less than ten years later Rwandans surprisingly elected the world's highest level of women to parliament In Bosnia women launched thousands of community organizations that became spaces for informal political participation The political mobilization of women in both countries complicates the popular image of women as merely the victims and spoils of war Through a close examination of these cases Marie E Berry unpacks the puzzling relationship between war and women's political mobilization Drawing from over 260 interviews with women in both countries she argues that war can reconfigure gendered power relations by precipitating demographic economic and cultural shifts In the aftermath however many of the gains women made were set back This book offers an entirely new view of women and war and includes concrete suggestions for policy makers development organizations and activists supporting women's rights

The Politics of Challenging Presidential Term Limits in Africa Jack R. Mangala, 2020-04-02 This

book takes stock of the debate surrounding the institution of presidential term limits in Africa against the backdrop of global trends toward authoritarianism and the rise of strong men. Widely adopted three decades ago, term limits for the office of the president are now being challenged by many African leaders. The power alternation debate in Africa raises important questions concerning the future of democracy and development on the continent. Using a case study approach, this book explores in detail six situations in which leaders have either succeeded or failed in altering term limits. It thoroughly dissects the arguments, tactics, and strategies on both sides of the issue and draws key lessons for strengthening constitutionalism in Africa.

The Violence of Law Jens Meierhenrich, 2024-04-30 Lawfare describes the systematic use and abuse of legal procedure for political ends. This provocative book examines this insufficiently understood form of warfare in post-genocide Rwanda, where it contributed to the making of dictatorship. Jens Meierhenrich provides a redescription of Rwanda's daring experiment in transitional justice known as *inkiko gacaca*. By dissecting the temporally and structurally embedded mechanisms and processes by which change agents in post-genocide Rwanda manoeuvred to create modified legal arrangements of things past, Meierhenrich reveals an unexpected jurisprudence of violence. Combining nomothetic and ideographic reasoning, he shows that the deformation of the *gacaca* courts and thus the rise of lawfare in post-genocide Rwanda was not preordained but the outcome of a violently structured contingency. *The Violence of Law* tells a disturbing tale and will appeal to scholars, advanced students, and practitioners of international and comparative law, African studies, and human rights.

African Peace Militaries David Francis, 2017-08-16 This book provides a critical understanding of the emerging role of African militaries in peacetime democratic Africa. This book departs from the dominant perspective which simply presents the military as an enemy of democracy because of the history and legacy of unending military coups and interventions in civilian politics. In the context of Africa, the military has been blamed or largely held responsible for instigating wars, armed conflicts, political violence, poverty, and underdevelopment due to bad governance and mismanagement of the state. Drawing from diverse case studies across Africa, including Nigeria, Rwanda, Uganda, Ethiopia, and Egypt, this volume presents the argument that though the military has played a negative and sometimes destructive role in undermining constitutional rule and the overthrow of democratic civilian governments, the same military, now operating in a changed global environment, is making effort to support the development of democracy and democratic consolidation as well as remain subjected to civilian democratic oversight and control. Notwithstanding the real challenge for this emerging trend of African peace militaries is the extent to which they are able to fulfil on a predictable and consistent basis their constitutional mandate to defend the people against elected autocrats in Africa who try to use the military to perpetuate themselves in power. This work fills a critical gap in the literature and will be of much interest to students of African security and politics, peace and conflict studies, security studies, and IR in general.

Prosecuting Heads of State Ellen L. Lutz, Caitlin Reiger, 2009-03-16 Since 1990, 65 former heads of state or government have been legitimately prosecuted for serious human

rights or financial crimes Many of these leaders were brought to trial in reasonably free and fair judicial processes and some served time in prison as a result This book explores the reasons for the meteoric rise in trials of senior leaders and the motivations public dramas and intrigues that accompanied efforts to bring them to justice Drawing on an analysis of the 65 cases the book examines the emergence of regional trends in Europe and Latin America and contains case studies of high profile trials of former government leaders Augusto Pinochet Chile Alberto Fujimori Peru Slobodan Milosevic former Yugoslavia Charles Taylor Liberia and Sierra Leone and Saddam Hussein Iraq studies written by experts who closely followed their cases and their impacts on wider societies This is the only book that examines the rise in the number of domestic and international trials globally and tells the tales in readable prose and with fascinating details Remembering Genocides in Central Africa Rene Lemarchand, 2021-01-04 Scene of one of the biggest genocides of the last century Rwanda has become a household word yet bitter disagreements persist as to its causes and consequences Through a blend of personal memories and historical analysis and informed by a lifelong experience of research in Central Africa the author challenges conventional wisdom and suggests a new perspective for making sense of the appalling brutality that has accompanied the region's post independence trajectories All four states adjacent to Rwanda are inhabited by Hutu and Tutsi and thus contained in germ the potential for ethnic conflict but only in Burundi did this potential reach genocidal proportions when in 1972 in response to a local insurrection at least 200 000 Hutu civilians were killed by a predominantly Tutsi army By widening his analytic lens the author shows the critical importance of the Burundi bloodshed to an understanding of the roots of the Rwanda genocide and in later years the significance of the mass murder of Hutu civilians by Kagame's Tutsi army not just in Rwanda but in the Congo The regional dimension of ethnic conflict traceable to Belgian engineered Hutu revolution in Rwanda in 1959 three years before its independence is the principal missing piece in the genocidal puzzle of the Great Lakes region of central Africa But this is by no means the only one Reassembling the missing pieces within and outside Rwanda is not the least of the merits of this highly readable reassessment of a widely misunderstood human tragedy *Saviors and Survivors* Mahmood Mamdani, 2010-05-25 From the author of *Good Muslim Bad Muslim* comes an important book unlike any other that looks at the crisis in Darfur within the context of the history of Sudan and examines the world's response to that crisis In *Saviors and Survivors* Mahmood Mamdani explains how the conflict in Darfur began as a civil war 1987-89 between nomadic and peasant tribes over fertile land in the south triggered by a severe drought that had expanded the Sahara Desert by more than sixty miles in forty years how British colonial officials had artificially tribalized Darfur dividing its population into native and settler tribes and creating homelands for the former at the expense of the latter how the war intensified in the 1990s when the Sudanese government tried unsuccessfully to address the problem by creating homelands for tribes without any The involvement of opposition parties gave rise in 2003 to two rebel movements leading to a brutal insurgency and a horrific counterinsurgency but not to genocide as the West has declared Mamdani also explains how the Cold War exacerbated the

twenty year civil war in neighboring Chad creating a confrontation between Libya's Muammar al Qaddafi with Soviet support and the Reagan administration allied with France and Israel that spilled over into Darfur and militarized the fighting. By 2003 the war involved national, regional and global forces including the powerful Western lobby who now saw it as part of the War on Terror and called for a military invasion dressed up as humanitarian intervention. Incisive and authoritative Savors and Survivors will radically alter our understanding of the crisis in Darfur.
