Paul A Samuelson On Being An Economist Working Biographies:

Paul A. Samuelson Michael Szenberg, Aron A. Gottesman, Lall Ramrattan, 2005-01 This book captures much of the spirit of Paul A Samuelson Those who know Samuelson one of the great economists of the twentieth century only through his writings may have already sensed his wit his intellect his brilliance This book brings these into focus through details of his personal history and a wealth of anecdotes from colleagues and students Joseph E Stiglitz Foreword Probably more than anyone else in the twentieth century he transformed the way economists think and write Avinash Dixit Samuelson set a standard in teaching and citizenship that few if any will ever match Kenneth Rogoff To know Paul Samuelson is to be engaged in a life long intellectual conversation with the most important economist of our times Richard Zeckhauser About Paul Samuelson Paul Anthony Samuelson is Institute Professor Emeritus at Massachusetts Institute of Technology Born in the American midwest in the first half of the twentieth century he was a provocative student of Jacob Viner and was later wooed from Harvard to MIT He developed original methodology and instigated controversies in his profession Samuelson is the author of the best selling economics textbook of all time for which he never received an author's advance payment He is legendary for his expansive penetrating undogmatic thinking and generosity of spirit to students and colleagues alike He has contributed to national economic policies and business trends and was the winner of the 1970 Nobel Prize in Economics Paul Samuelson On Being an Economist is a concise profile of this original thinker whose forceful profound skeptical and expansive intellect drove one of the fundamental transformations of twentieth century economic theory About the Authors Michael Szenberg Ph D Distinguished Professor of Economics and Chair Finance and Economics Department Lubin School of Business Pace University is editor in chief of The American Economist His books include New Frontiers in Economics coedited with Lall Ramrattan with a Foreword by Paul A Samuelson Cambridge University Press 2004 Aron A Gottesman Ph D Assistant Professor Finance and Economics Department Lubin School of Business Pace University is coauthor of Insurance Logic Second Edition Captus Press 2005 Lall Ramrattan Ph D teaches Economics at the University of California Berkeley His books include Reflections of Eminent Economists coedited with Michael Szenberg Elgar Publishing Co 2004 **Economic Thinkers** David A. Dieterle, 2013-08-08 Who are the individuals whose novel ideas writings and philosophies have influenced economics throughout history and in doing so have helped change the world This encyclopedia provides a readable study of economics by examining the great economists themselves This book presents biographies of 200 economic thinkers throughout history supplying a one stop reference about the men and women whose ideas writings and philosophies created the foundation of our current understanding of economics Depicting their subjects within the contexts of history development economics and econometrics these biographies provide an insightful overview of the world of economics through the economists of significance and the many subdisciplines topics eras and philosophies they represent Economic Thinkers A Biographical Encyclopedia begins by describing economic thinkers in ancient Greece and Rome moves through history to

cover economists in the 15th through 19th centuries and addresses economic theory in the 20th century and the modern era. Written to be easily accessible and highly readable, the work will appeal to students, scholars, general readers, and anyone interested in learning about the historical and philosophical foundation of economics.

A Biographical Dictionary of Dissenting Economists Philip Arestis, Malcolm C. Sawyer, 2001-01-01 Annotation Government and the Economy David A. Dieterle, Kathleen M. Simmons, 2014-10-14 In this non-biased politically neutral compendium, the authors trace the evolution of the U.S. government's role in the economy, including the history, ideas, key players, and court rulings that influenced its involvement. Today's economic environment is in constant flux, as is the participation of governments in it. Local, state, national, and global governmental agencies have taken on new responsibilities with both positive and negative economic consequences. This book looks at the changing role of American government in the economy, from determining the measurements of economic health to being mindful of corporate sustainability to legislating business practices and consumer affairs. This comprehensive collection of essays draws from the contributions of 25 economic scholars along with seasoned educators David A. Dieterle and Kathleen C. Simmons to examine economic systems and the factors that influence them. The work includes summaries of important Supreme Court cases that have impacted America's economic infrastructure, biographies of famous economists, and descriptions of the seven key economic systems: command, socialism, democratic socialism, fascism, market capitalism, state capitalism, transitional, and welfare state.

Economics David A. Dieterle, 2017-03-27 A comprehensive four-volume resource that explains more than 800 topics within the foundations of economics: macroeconomics, microeconomics, and global economics, all presented in an easy-to-read format. As the global economy becomes increasingly complex, interconnected, and therefore relevant to each individual in every country, it becomes more important to be economically literate to gain an understanding of how things work beyond the microcosm of the economic needs of a single individual or family unit. This expansive reference set serves to establish basic economic literacy of students and researchers, providing more than 800 objective and factually driven entries on all the major themes and topics in economics. Written by leading scholars and practitioners, the set provides readers with a framework for understanding economics as mentioned and debated in the public forum and media. Each of the volumes includes coverage of important events throughout economic history, biographies of the major economists who have shaped the world of economics, and highlights of the legislative acts that have shaped the U.S. economy throughout history. The extensive explanations of major economic concepts, combined with selected key historical primary source documents and a glossary, will endow readers with a fuller comprehension of our economic world.

Luigi L. Pasinetti: An Intellectual Biography Mauro L. Baranzini, Amalia Mirante, 2018-03-18 Luigi L. Pasinetti, born 1930, is arguably the most influential of the second generation of the Cambridge Keynesian School of Economics, both because of his achievements and his early involvement with the direct pupils of John Maynard Keynes. This comprehensive intellectual biography traces his research from his early groundbreaking

contribution in the field of structural economic dynamics to the Pasinetti Theorem With scientific outputs spanning more than six decades 1955 2017 Baranzini and Mirante analyse the impact of his research work and roles at Cambridge the Catholic University of Milan and at the new University of Lugano Pasinetti's whole scientific life has been driven by the desire to provide new frameworks to explain the mechanisms of modern economic systems and this book assesses how far this has been achieved Founder of Modern Economics: Paul A. Samuelson Roger E. Backhouse, 2017-04-11 Founder of Modern Economics offers stimulating insight into a towering figure's influence on economics a discipline and way of thinking that influences business policy making and everyday life *Editing Economists and Economists as Editors* Pascal Bridel, 1992

A Companion to Intellectual History Richard Whatmore, Brian Young, 2015-11-06 A Companion to Intellectual History provides an in depth survey of the practice of intellectual history as a discipline Forty newly commissioned chapters showcase leading global research with broad coverage of every aspect of intellectual history as it is currently practiced Presents an in depth survey of recent research and practice of intellectual history Written in a clear and accessible manner designed for an international audience Surveys the various methodologies that have arisen and the main historiographical debates that concern intellectual historians Pays special attention to contemporary controversies providing readers with the most current overview of the field Demonstrates the ways in which intellectual historians have contributed to the history of science and medicine literary studies art history and the history of political thought Named Outstanding Academic Title of 2016 by Choice Magazine a publication of the American Library Association *Cambridge Economics in the Post-Keynesian Era* Ashwani Saith, 2022-11-11 This book chronicles the rise and especially the demise of diverse revolutionary heterodox traditions in Cambridge theoretical and applied economics investigating both the impact of internal pressures within the faculty as also the power of external ideological and political forces unleashed by the global dominance of neoliberalism Using fresh archival materials personal interviews and recollections this meticulously researched narrative constructs the untold story of the eclipse of these heterodox and post Keynesian intellectual traditions rooted and nurtured in Cambridge since the 1920s and the rise to power of orthodox mainstream economics Also expunged in this neoclassical counter revolution were the structural and radical policy oriented macro economic modelling teams of the iconic Department of Applied Economics along with the atrophy of sociology development and economic history from teaching and research in the self purifying faculty This book will be of particular interest to researchers in the history of economic thought sociology of knowledge political economy especially those engaged in heterodox and post Keynesian economics and to everyone wishing to make economics fit for purpose again for negotiating the multiple economic social and environmental crises rampant at national and global levels **Biography of a Subject** Gerald M. Meier, 2004-10-14 The study of economic development is one of the newest most exciting and most challenging branches of the broader discipline of economics and political economy Although one could claim that Adam Smith was the first development economist the systematic study of the problems and

processes of economic development in Africa Asia and Latin America has emerged only over the past five decades This biography of the subject of economic development will focus on the essential ideas in the evolution of development thought and policy over the subject s half century of life In concise form and avoiding undue technicality it highlights the influence of development theory on policymaking and on the mixed record of successes and failures in promoting development efforts The interpretation of theory policy and the lessons of experience are covered in three periods early development economics of the 1950s 60s orthodox reaction of the 1970s 80s and the new development economics of the 1980s 90s Gerald Meier one of the world s most prominent leading thinkers in the economics of development interprets the past treatment of development problems with the present and future in mind He re interprets the past two generations of development economists in a contemporary voice And in a forward looking fashion the book s perspectives should make the next generation of development problems and development economists more intelligible The reader is invited to consider whether development economists really know how to put matters right

Hayek: A Collaborative Biography Robert Leeson,2019-08-05 This book is the eighth volume in this Collaborative Biography which explores the life and works of Nobel Prize winning economist F A Hayek 1899 1992 Making extensive use of archival material and Hayek s own published writings it presents a strong challenge to perceptions of the economist s life and thought In this volume chapters canvas subjects such as the relationship between the Austrian School of Economics and the Cold War the Hapsburg Empire and the overthrow or planned overthrow of democracy in a variety of countries with a view to examining the process by which economics is constructed and disseminated

Post-Keynesian Essays in Biography G C Harcourt,2016-07-27 This volume is a collection of intellectual biographies of economists which the author has written over the last 16 years There are four categories accounts of Cambridge greats Joan Robinson Piero Sraffa Nicholas Kaldor Richard Kahn oral histories of Lorie Tarshis George Shackle Kenneth Boulding and Richard Goodwin memoirs of close friends of the author who have died and shorter essays which include John Hicks James Meade Brian Reddaway Arthur Smithies Heinz Arndt and J M Keynes

ECONned: How Unenlightened Self Interest Undermined Democracy and Corrupted Capitalism Yves Smith,2011-10-11 ECONned examines the unquestioned role of economists as policy makers and how they helped create an unmitigated economic disaster Why are we in such a financial mess today There are lots of proximate causes over leverage global imbalances bad financial technology that lead to widespread underestimation of risk But these are all symptoms Until we isolate and tackle fundamental causes we will fail to extirpate the disease Here Yves Smith looks at how economists in key policy positions put doctrine before hard evidence ignoring the deteriorating conditions and rising dangers that eventually led them and us off the cliff and into financial meltdown Intelligently written for the layman Smith takes us on a terrifying investigation of the financial realm over the last twenty five years of misrepresentations naive interpretations of economic conditions rationalizations of bad outcomes and rejection of clear signs of growing instability In eConned author Yves Smith reveals why

the measures taken by the Obama Administration are mere palliatives and are unlikely to pave the way for a solid recovery how economists have come to play a profoundly anti democratic role in policy how financial models and concepts that were discredited more than thirty years ago are still widely used by banks regulators and investors how management and employees of major financial firms looted them enriching themselves and leaving the mess to taxpayers how financial deregulation enabled predatory behavior by Wall Street towards investors how economics has no theory of financial systems yet economists fearlessly prescribe how to manage them Oxford Dictionary of National Biography 2005-2008 Lawrence Goldman,2013-03-07 Who made modern Britain This book drawn from the award winning Oxford Dictionary of National Biography tells the story of our recent past through the lives of those who shaped national life Following on from the Oxford DNB s first supplement volume noteworthy people who died between 2001 and 2004 this new volume offers biographies of more than 850 men and women who left their mark on twentieth and twenty first century Britain and who died in the years 2005 to 2008 Here are the people responsible for major developments in national life from politics the arts business technology and law to military service sport education science and medicine Many are closely connected to specific periods in Britain s recent history From the 1950s the young Harold Pinter or the Yorkshire cricketer Fred Trueman for example From the Sixties the footballer George Best photographer Patrick Lichfield and the Pink Floyd musician Syd Barrett It s hard to look back to the 1970s without thinking of Edward Heath and James Callaghan who led the country for seven years in that turbulent decade or similarly Freddie Laker pioneer of budget air travel and the comedians Ronnie Barker and Dave Allen who entertained with their sketch shows and sit coms A decade later you probably browsed in Anita Roddick s Body Shop or danced to the music of Factory Records established by the Manchester entrepreneur Tony Wilson In the 1990s you may have hoped that Things can only get better with a New Labour government which included Robin Cook and Mo Mowlam Many in this volume are remembered for lives dedicated to a profession or cause Bill Deedes or Conor Cruise O'Brien in journalism Ned Sherrin in broadcasting or indeed Ted Heath whose political career spanned more than 50 years Others were responsible for discoveries or innovations of lasting legacy and benefit among them the epidemiologist Richard Doll who made the link between smoking and lung cancer Cicely Saunders creator of the hospice movement and Chad Varah founder of the Samaritans With John Profumo who gave his name to a scandal policeman Malcolm Fewtrell who investigated the Great Train Robbery or the Russian dissident Aleksandr Litvinenko who was killed in London in 2006 we have individuals best known for specific moments in our recent past Others are synonymous with popular objects and experiences evocative of recent decades Mastermind with Magnus Magnusson the PG Tips chimpanzees trained by Molly Badham John DeLorean s gull wing car or the new British Library designed by Colin St John Wilson though as rounded and balanced accounts Oxford DNB biographies also set these events in the wider context of a person s life story Authoritative and accessible the biographies in this volume are written by specialist authors many of them leading figures in their field Here you will find

Michael Billington on Harold Pinter Michael Crick on George Best Richard Davenport Hines on Anita Roddick Brenda Hale on Rose Heilbron Roy Hattersley on James Callaghan Simon Heffer on John Profumo Douglas Hurd on Edward Heath Alex Jennings on Paul Scofield Hermione Lee on Pat Kavanagh Geoffrey Wheatcroft on Conor Cruise O'Brien and Peregrine Worsthorne on Bill Deedes Many in this volume are naturally household names But a good number are also remembered for lives away from the headlines What in the 1980s became Thatcherism owed much to behind the scenes advice from Ralph Harris and Alfred Sherman children who learned to read with Ladybird Books must thank their creator Douglas Keen while without its first producer Verity Lambert there would have been no Doctor Who Others are ordinary people capable of remarkable acts Take for instance Arthur Bywater who over two days in 1944 cleared thousands of bombs from a Liverpool munitions factory following an explosion only to do the same months later in an another factory Awarded the George Cross and the George Medal Bywater remains the only non combatant to have received Britain's two highest awards for civilian bravery

Chicagonomics Lanny Ebenstein, 2015-10-06 Chicagonomics explores the history and development of classical liberalism as taught and explored at the University of Chicago Ebenstein's tenth book in the history of economic and political thought it deals specifically in the area of classical liberalism examining the ideas of Friedrich Hayek and Milton Friedman and is the first comprehensive history of economics at the University of Chicago from the founding of the University in 1892 until the present The reader will learn why Chicago had such influence to what extent different schools of thought in economics existed at Chicago the Chicago tradition vision and what Chicago economic perspectives have to say about current economic and social circumstances Ebenstein enlightens the personal and intellectual relationships among leading figures in economics at the University of Chicago including Jacob Viner Frank Knight Henry Simons Milton Friedman George Stigler Aaron Director and Friedrich Hayek He recasts classical liberal thought from Adam Smith to the present

ARBA Guide to Biographical Resources, 1986-1997 Robert L. Wick, Terry Ann Mood, 1998 This single source guide to selected biographical dictionaries and directories covers the entire spectrum of biographical sources serial and nonserial that have been published in the last ten years In each entry the book gives complete bibliographic information along with price and a critical evaluation Most entries have been selected from American Reference Books Annual ARBA between 1986 and 1997 Organized in two broad categories International and National Biographies and Biographies in Professional Fields listings are also easily accessed through detailed author title and subject indexes This work will be valuable to reference librarians researchers and others who require information on the lives of individuals from all fields of study and all time periods and of particular use to those involved in the library acquisition process

Biographical Memoirs National Academy of Sciences, 1994-02-01 Biographic Memoirs Volume 64 contains the biographies of deceased members of the National Academy of Sciences and bibliographies of their published works Each biographical essay was written by a member of the Academy familiar with the professional career of the deceased For historical and bibliographical purposes these volumes are worth

returning to time and again **What Would the Great Economists Do?** Linda Yueh, 2018-06-05 A timely exploration of the life and work of twelve world changing thinkers and how their ideas would solve the great economic problems we face today A Newsweek Best 50 Books of the Year So Far Pick A highly accessible and acute guide to thinking and learning from the men and woman whose work can inform and ultimately aid us in understanding the great national and global crises we are living through Nouriel Roubini author of the New York Times bestselling Crisis Economics A Crash Course in the Future of Finance Since the days of Adam Smith economists have grappled with a series of familiar problems but often their ideas are hard to digest even before we try to apply them to today's issues Linda Yueh is renowned for her combination of erudition as an accomplished economist herself and accessibility as a leading writer and broadcaster in this field In What Would the Great Economists Do she explains the key thoughts of history's greatest economists how our lives have been influenced by their ideas and how they could help us with the policy challenges that we face today In the light of current economic problems and in particular economic growth Yueh explores the thoughts of economists from Adam Smith and David Ricardo to contemporary academics Douglass North and Robert Solow Along the way she asks for example why are wages so low How do the ideas of John Maynard Keynes who argued for government spending to create full employment help us think about state investment And with globalization in trouble what can we learn about handling Brexit and Trumpism What Would the Great Economists Do includes Adam Smith David Ricardo Karl Marx Alfred Marshall Irving Fisher John Maynard Keynes Joseph Schumpeter Friedrich Hayek Joan Robinson Milton Friedman Douglass North Robert Solow *Hayek: A Collaborative Biography* R. Leeson, 2015-01-15 F A Hayek 1899 1992 the co leader of the Austrian free market school embraced the transparently fraudulent assertion made by Donald McCormick aka Richard Deacon in The British Connection which accused A C Pigou the co leader of the Cambridge market failure school of being a Soviet spy
