Paul Klee 2014 Modern Art Fine Art:

Paul Klee Annie Bourneuf, 2015-07-20 The book offers a new original look at the great European modernist Paul Klee and the interplay of word and image in the work he produced after WWI when the European avant garde was at its most adamant Bourneuf asks why was it that Klee immersed himself in crossings of image and text at the same time that so much avant garde art focused fiercely on the visual She proposes that Klee created forms that hover between the pictorial and the written to provoke the viewer to look slowly and contemplatively a mode of viewing the artist saw as both analogous to reading and threatened by new technological media such as film mass printing telephones and radio Bourneuf demonstrates how Klee's concern for the literary aspects of visual art is both the motive for and the means of his ironic play with modernist art theories and practices

Mouse Muse Lorna Owen, 2014-11-18 A beautifully designed introduction to art history by way of artworks that feature the mouse from the ancient world to drawings by Picasso Disney and Art Spiegelman Across centuries and civilizations artists have used the mouse the planet's most common mammal after us to illustrate our myths and beliefs Mice have appeared as Japanese symbols of good luck or medieval emblems of evil in Arab fables Russian political satire and Nazi propaganda as scientific tools and to help us challenge the way we see nature With more than 80 rarely reproduced works including paintings by Hieronymus Bosch and Gustav Klimt a silkscreen by Andy Warhol a print by Hokusai a photograph by Andrzej Kertész a sculpture by Claes Oldenburg a video installation by Bruce Nauman a performance by Joseph Beuys and many more Lorna Owen has created an engaging presentation of an extraordinary range The pieces which represent every period of visual art

are accompanied by Owen's intriguing text about the story behind each work. She has combined her passion for art and her empathy for the unsung archetype of the animal kingdom to explain not only how or why the artist came to use the mouse as a subject but how the art in the end reveals more about us than it could ever reveal about this humble creature.

Midcentury Modern Art in Texas Katie Robinson Edwards, 2014-07-01 Winner Award of Merit for Non Fiction The Philosophical Society of Texas 2015 Before Abstract Expressionism of New York City was canonized as American postwar modernism the United States was filled with localized manifestations of modern art. One such place where considerable modernist activity occurred was Texas where artists absorbed and interpreted the latest most radical formal lessons from Mexico the East Coast and Europe while still responding to the state's dramatic history and geography. This barely known chapter in the story of American art is the focus of Midcentury Modern Art in Texas. Presenting new research and artwork that has never before been published, Katie Robinson Edwards examines the contributions of many modernist painters and sculptors in Texas with an emphasis on the era's most abstract and compelling artists. Edwards looks first at the Dallas Nine and the 1936 Texas Centennial which offered local artists a chance to take stock of who they were and where they stood within the national artistic setting. She then traces the modernist impulse through various manifestations including the foundations of early Texas modernism in Houston early practitioners of abstraction and non objectivity the Fort Worth Circle artists at the University of Texas at Austin Houston artists in the 1950s sculpture in and around an influential Fort Worth studio and to see how some Texas artists fared on a national scale the Museum of Modern Art's Americans exhibitions. The first full length treatment of abstract art in Texas during this vital and canon defining period Midcentury Modern Art in Texas gives these artists their due place in American art while also valuing the quality of Texan-ness that subtly undergirds much of their production.

Animating Film Theory Karen Redrobe, 2014-03-21 Animating Film Theory provides an enriched understanding of the relationship between two of the most unwieldy and unstable organizing concepts in cinema and media studies: animation and film theory. For the most part animation has been excluded from the purview of film theory. The contributors to this collection consider the reasons for this marginalization while also bringing attention to key historical contributions across a wide range of animation practices geographic and linguistic terrains and historical periods. They delve deep into questions of how animation might best be understood as well as how it relates to concepts such as the still the moving image the frame animism and utopia. The contributors take on the kinds of theoretical questions that have remained underexplored because as Karen Beckman argues scholars of cinema and media studies have allowed themselves to be constrained by too narrow a sense of what cinema is. This collection reanimates and expands film studies by taking the concept of animation seriously. Takahashi *Edgar Wind and Modern Art* Ben Thomas, 2020-12-10 This book presents the first comprehensive study of the philosopher and art historian Edgar Wind's critique of modern art. The first student of Erwin Panofsky and a close associate of Aby Warburg, Edgar Wind was unusual among the Warburgians for his sustained interest in modern art together with his support for contemporary artists. This culminated in his respected and influential book *Art and Anarchy* 1963 which seemed like a departure from his usual scholarly work on the iconography of Renaissance art. Based on extensive archival research and bringing to light previously unpublished lectures, *Edgar Wind and Modern Art* reveals the extent and seriousness of Wind's thinking about modern art and how it was bound up with theories about art and knowledge that he had developed during the 1920s and 30s. Wind's ideas are placed in the context of a closely connected international cultural milieu consisting of some of the leading artists and thinkers of the twentieth century. In particular, the book discusses in detail his friendships with three significant artists: Pavel Tchelitchew, Ben Shahn, and R. B. Kitaj. In the process, the existence of an alternative to the prevailing formalist approach of Alfred Barr and Clement Greenberg to modern art based on the enduring importance of the symbol is revealed.

The Artist's Estate Dr. Loretta Würtenberger, 2021-11-24 Andy Warhol bequeathed us the words: "Death can really make you look like a star." But death per se is not a catalyst for the relevance of an artist. What is of crucial importance is the proper management structure for the posthumous preservation and development of an artistic estate. The handbook by Loretta Würtenberger presents the possible legal framework, appropriate financing models, as well as the proper handling of the market, museums, and academia. Her business, Fine Art Partners, has advised artists and artists' estates for many years in their structuring and development of estate concepts, as well as in operative questions. Based on numerous international examples, the author explains the different alternatives for maintaining an artist's estate and makes recommendations on how to ideally handle work archives and mementos following the death of
