## Oeuvres Complètes I French Edition:

*Catalogue of Printed Books* British Museum. Dept. of Printed Books, 1885      A Critical Bibliography of French Literature V2 16th C ,      **Recollections: the French Revolution of 1848** Alexis de Tocqueville,      **French Literature (from 1700 to 1928)** Maggs Bros, 1928      British Museum Catalogue of Printed Books , 1883      Recollections Alexis de Tocqueville, 2017-09-29 Tocqueville was not only an active participant in the French Revolution of 1848 he was also a deeply perceptive observer with a detached attitude of mind He saw the pitfalls of the course his country was taking more clearly than any of his contemporaries including Karl Marx *Recollections* was first written for self clarification It is both an exciting candid behind the scenes account of what actually happened during those tumultuous months and a remarkably shrewd analysis that has become an accurate forecast of future societies wrestling with the dilemma of synthesizing equality and freedom Thus the book has a relevance that extends beyond France to our own country and others a relevance that is explored in J P Mayer's new introduction Out of print in English for several years *Recollections* is presented here in a translation based on the definitive French edition of 1964 It captures the wit and subtlety of mind that have made this book one of the most popular of all Tocqueville's works Tocqueville's own comments which he wrote into the manuscript including his variants are given and the editors have added explanatory notes      **Urban Poetics in the French Renaissance** Elisabeth Hodges, 2016-12-05 The city view forms the jumping off point for this innovative study which explores how the concept of the city relates to the idea of the self in early modern French narratives At a time when print culture cartography and literature emerged and developed together the city view a picture or topographic image of a city became one of the most distinctive and popular products of the early modern period Through a construct she calls urban poetics Elisabeth Hodges draws out the relationship between the city and the self showing the impact of the city in cultural production to be so profound that it cannot be extricated from what we know by the name of subjectivity Each chapter of the book brings focus to a crucial text that features descriptions of the self in the city by the writers Villon Corrozet Scève and Montaigne and investigate how representations of urban experience prepared the way for the emergence of the autonomous subject Charting a course between cartography literary studies and cultural history this study opens new vistas on some of the period's defining problems the book the subject the city      Writings by Pre-Revolutionary French Women Colette H. Winn, Anne R. Larsen, 2017-09-29 The present volume covers 30 Pre Revolutionary French women providing a representative sampling of their manifold and varied contributions to intellectual and cultural history This volume is unique in its grouping of essentially French writers from the Pre Revolutionary period The authors included here range from those prominent because of their social position or literary fame to those slowly becoming part of a new canon of Old Regime women writers authors whose works were known to their contemporaries but who have slipped into near invisibility in the following centuries until their recent rediscovery and reassessment      **Benjamin Constant and the Birth of French Liberalism** K.

Steven Vincent,2011-01-12 This book advances a new interpretation of the timing and character of French and more broadly European liberalism and contributes to the ongoing debate concerning the place of morality sociability and conceptions of the self in modern liberal thought      **Catalog of Copyright Entries** Library of Congress. the rights of minority shareholders have failed in their duty and how those shareholders have remained practically without any protection against the arbitrariness of the companies and majority shareholders The law the SEC society boards of directors independent directors auditors analysts underwriters and the press have remained in many cases worthless panaceas Nevertheless in the Ethics of 2000 new vehicles have been developed for the protection of minority shareholders mainly the Internet transparency activist associations and ethical funds Those vehicles give the shareholders at least the chance to understand the pattern and methods that are utilized to wrong them and give them a viable alternative for investment in ethical funds The new vehicles will prevent minority shareholders from using the Armageddon weapon by ceasing to invest in the stock exchange and causing the collapse of the system that discriminates against them **Sampling the Book** Deborah N.
