Oil In Uganda International Lessons For Success:

Oil in Uganda Ben Shepherd, 2015-07-28 The resource curse is not inevitable Uganda has time on its side but it must not waste it The debate on oil must move beyond the politics of the present and look to the long term Oil will be central to Uganda for decades to come It is incumbent on today's leaders in government opposition and civil society alike to work together to ensure a bright future for generations to come Lessons can be learned from those countries that have successfully managed natural resources as well as those that have suffered from their mismanagement Transparency matters if Uganda's social cohesion is going to be maintained A well informed national conversation on how to balance spending with saving is vital to the health of the agricultural sector and key to a positive future The need to protect technical advice from political influence is vital across all governments And a population that understands how revenues are being spent is more likely to work with government rather than against it building a positive feedback mechanism between people and the state that can act as a bulwark against future abuses

Oil Wealth and Development in Uganda and Beyond Arnim Langer, Ukiwo, Pamela Mbabazi, 2020-01-07 Multidisciplinary perspectives to governance of oil in African countries Large quantities of oil were discovered in the Albertine Rift Valley in Western Uganda in 2006 The sound management of these oil resources and revenues is undoubtedly one of the key public policy challenges for Uganda as it is for other African countries with large oil and/or gas endowments With oil expected to start flowing in 2021 the current book analyses how this East African country is preparing for the challenge of effectively efficiently and transparently managing its oil sector and resources Adopting a multidisciplinary comprehensive and comparative approach the book identifies a broad scope of issues that need to be addressed in order for Uganda to realise the full potential of its oil wealth for national economic transformation Predominantly grounded in local scholarship and including chapters drawing on the experiences of Nigeria Ghana and Kenya the book blazes a trail on governance of African oil in an era of emerging producers Oil Wealth and Development in Uganda and Beyond will be of great interest to social scientists and economic and social policy makers in oil producing countries It is suitable for course adoption across such disciplines as International Global Affairs Political Economy Geography Environmental Studies Economics Energy Studies Development Politics Peace Security and African Studies Contributors Badru Bukenya Makerere University Moses Isabirye Busitema University Wilson Bahati Kazi Uganda Revenue Authority Corti Paul Lakuma Economic Policy Research Centre Joseph Mawejje Economic Policy Research Centre Pamela Mbabazi Uganda National Planning Authority Martin Muhangi independent researcher Roberts Muriisa Mbarara University of Science and Technology Chris Byaruhanga Musiime independent researcher Germano Mwabu University of Nairobi Jackson A Mwakali Makerere University Tom Owang Mbarara University of Science and Technology Joseph Oloka Onyango Makerere University Peter Quartey University of Ghana Peter Wandera Transparency International Uganda Kathleen Brophy Transparency International Uganda Jaqueline Nakaiza independent researcher Babra Beyeza independent researcher Jackson Byaruhanga

Africa's Radicalisms and Conservatisms, 2022-10-31 Volume II of Africa's Radicalisms and Conservatisms continues the broad themes of radicalisms and conservatisms that were examined in volume I. Like volume I the essays examine why the two isms of radicalisms and conservatisms should not be viewed as mere irreconcilable conceptual tools with which to categorize or structure knowledge. The volume demonstrates that these concepts are intertwined, have multiple and diverse meanings as perceived and understood from different disciplinary vantage points, hence the deliberate pluralization of the terms. The twenty-two essays in the volume show what happens when one juxtaposes the two concepts and when different peoples lived experiences of politics, pop culture, democracy, liberalism, the environment, colonialism, migration, identities, and knowledge etc. across the length and breadth of Africa are brought to bear on our understandings of these two particularisms. Oil and Gas Pipeline Infrastructure Insecurity Abdul L. Abraham Jatto, 2024-05-26 This book offers a comprehensive analysis of infrastructure insecurity issues in the historic Niger Delta, drawing on empirical fieldwork involving host communities, regulators, and multinational oil and gas operators. It introduces innovative models and theories such as a pipeline life cycle model focusing on community development, community neglect, aggression, displacement theory, social aggression theory, stakeholders policy development model, contemporary poor governance cycle model, and an infrastructure insecurity nexus model linking governance, socio-economic conditions, and infrastructure insecurity in resource-rich regions of the Global South. The book bridges gaps left by previous publications, providing depth and applicability of data. It employs the Frustration-Aggression-Displacement theory to explain underlying triggers of violence and uses real-world case studies, diagrams, and charts to facilitate understanding. Suitable and engaging for individuals, communities, or regulators involved in oil and gas activities alike, this book offers valuable insights into onshore pipeline infrastructure insecurity in Nigeria, West Africa, and the broader Global South, addressing regulation, compliance, environmental concerns, social aspects, and technological innovations

African State Governance A. Carl LeVan, Joseph Olayinka Fashagba, Edward R. McMahon, 2016-02-05 Africa is changing, and it is easy to overlook how decentralization, democratization, and new forms of illiberalism have transformed federalism, political parties, and local politics. African Economic Sovereignty Warikandwa, Tapiwa Victor, Nhemachena, Artwell, 2019-02-06 The emergent so called Fourth Industrial Revolution is regarded by some as a panacea for bringing about development to Africans This book dismisses this flawed reasoning Surfacing how investors are actually looting and plundering Africa how the industrial internet of things the gig economies digital economies and cryptocurrencies breach African political and economic sovereignty the book pioneers what can be called anticipatory economics which anticipate the future of economies It is argued that the future of Africans does not necessarily require degrowth postgrowth postdevelopment postcapitalism or sharing solidarity economies it requires attention to age old questions about African ownership and control of their resources Investors have to invest in ensuring that Africans own and control their resources Further it is pointed out that the historical imperial structural creation of forced labour is increasingly morphing into what we call the structural creation of forced leisure which is no less lethal for Africans Because both the structural creation of forced labour and the structural creation of forced leisure are undergirded by transnational neo imperial plunder theft robbery looting and dispossession of Africans this book goes beyond the simplistic arguments that Euro America developed due to the industrial revolutions

government and security provision which continue to reflect their colonial past This book raises both practical and theoretical ethical dilemmas of the increasing fragmentation of security functions within Uganda Kenya South Sudan mainland Tanzania and Zanzibar It is a vital contribution to the non state plural policing debates and is of both local and global relevance

Gender and Peacebuilding Claire Duncanson, 2016-05-27 Gender and Peacebuilding offers a comprehensive and up to date analysis of how and why gender matters in contemporary peace operations It draws on a wide range of examples from across the world to offer a nuanced account of the UNs attempts to mainstream gender into peace operations via Security Council Resolution 1325 and assesses the successes and failures of this effort to enhance the participation and protection of women and girls in peacebuilding operations In presenting this mixed picture of progress and ongoing challenges the book argues for bold steps forward that will enable peacebuilding to contest the current neoliberal order address structural inequalities and bring about feminist visions of peace and security It is only by focusing attention on the economic empowerment of women and its ability to temper the dangers of neo liberalism in post conflict contexts that feminists can hope to achieve these aims Timely critical and engaged this book provides an invaluable guide to the issues for students of peace and conflict studies and sets the agenda for future scholarship and advocacy

Rethinking Taxes and Development Erol K. Yayboke, Conor Savoy, Christopher Metzger, 2019-06-03 This report from the CSIS Project on Prosperity and Development looks at the domestic resource mobilization DRM reforms in developing countries through a political economy lens As countries mobilize more resources to fund their governments and services they can think more strategically about transitioning from a reliance on foreign aid to more mutually beneficial relationships with foreign countries There are structural challenges to mobilizing domestic resources that long have been the focus of DRM efforts however addressing the political economy and structural challenges will be critical in the face of increased need and plateauing levels of foreign aid It is critical that development approaches create the foundational capabilities and systems necessary to capitalize on political windows of opportunity

globalization the task of re engagement will be vastly enhanced and the debates and discussions in this volume will serve to facilitate this re engagement A main highlight of the conference was a special tribute to Nelson Mandela to honour his death in December 2013 and celebrate 20 years of South African independence In these papers scholars examine Mandela s role in the transition of South Africa from a racist state to a democratic nation They critically examine how the ANC s policies have impacted post Apartheid South Africa and question what alternatives remain for the future
