The Cambridge Old English Reader Richard Marsden, 2004-04 Publisher Description **Old English Literature** Daniel Donoghue, 2008-04-15 This innovative and intriguing introduction to Old English literature is structured around what the author calls figures from Anglo Saxon culture the Vow the Hall the Miracle the Pulpit and the Scholar An innovative and intriguing introduction to Old English literature Structured around figures from Anglo Saxon culture the Vow the Hall the Miracle the Pulpit and the Scholar Situates Old English literary texts within a cultural framework Creates new connections between different genres periods and authors Combines close textual analysis with historical context Based on the author's many years experience of teaching Old English literature The author is co editor with Seamus Heaney of *Beowulf A Verse Translation* 2001 and

recently published with Blackwell Lady Godiva A Literary History of the Legend 2003 **Emotional Practice in Old English Literature** Alice Jorgensen, 2024 An examination of how emotions were practised and performed through Old English texts Scholarship is increasingly interested in investigating concepts of emotion found in Old English literature This study takes the next step arguing that both heroic and religious texts were vehicles for emotional practice that is for doing things with emotion Using case studies from heroic poetry Beowulf The Battle of Brunanburh and The Battle of Maldon religious poetry Christ I and Christ III and homilies selections from the Vercelli Book Blickling Homilies and the works of Wulfstan it shows via detailed close readings that texts could be used to act out emotional styles manage the emotions arising from specific events and negotiate relationships both within social groups and with God Meanwhile a chapter on the Old English Boethius explores how the control of unruly emotions is theorized as the transfer of attachment from the things of this world to the things of the divine Overall the volume offers new angles on the social functions of genres and questions of reception and performance and it gives insight into how early medieval people used emotions to relate to their world temporal and eternal Humour in Old English Literature Jonathan Wilcox, 2023-10-02 Humour in Old English Literature deploys modern theories of humour to explore the style and content of surviving writing from early medieval England The book analyses Old English riddles wisdom literature runic writing the deployment of rhymes and humour in heroic poetry hagiography and romance Drawing on a fine tuned understanding of literary technique the book presents a revisionist view of Old English literature partly by reclaiming often neglected texts and partly by uncovering ironies and embarrassments within well established works including Beowulf Most surprisingly Jonathan Wilcox engages the large body of didactic literature pinpointing humour in two anonymous homilies along with extensive use in saints lives Each chapter ends by revealing a different audience that would have shared in the laughter Wilcox suggests that the humour of Old English literature has been scantily covered in past scholarship because modern readers expect a dour and serious corpus Humour in Old English Literature aims to break that cycle by highlighting works and moments that are as entertaining now as they were then *ENGLISH LITERATURE ADVANCING THROUGH HISTORY 1 - Old English (Anglo-Saxon) and Medieval Periods* Petru Golban, 2020-11-24 It appears that literary work possesses eternal temporal validity due to its autonomous aesthetic value whereas criticism provides points of view having temporary and transitory significance Despite such claims the vector of methodology in our series of books dealing with the history of English literature relies on Viktor Shklovsky T S Eliot Mikhail Bakhtin and especially Yuri Tynyanov whose main reasoning would be that literature is a system of dominant central and peripheral marginalized elements to us tradition centre versus innovation margin engaged in a battle for supremacy demarginalization and the right to form a new literary system and the development or historical advancement of literature is the substitution of systems Roman Jakobson and French structuralism on the whole later Linda Hutcheon with her system and constant and Bran Nicol with the dominant to say nothing about Itamar Even Zohar and his theory of polysystem to a

certain extent Julia Kristeva and even Homi Bhabha as well as our humble contribution by means of the books in the present series we would like to believe maintain Tynyanov's line of thinking and concepts alive which have developed and emerged nowadays more like a kind of neo formalism
