**Thomas Pynchon's Animal Tales** Keita Hatooka, 2022-08-29 Throughout his works Thomas Pynchon uses various animal characters to narrate fables that are vital to postmodernism and ecocriticism Thomas Pynchon's *Animal Tales Fables for Ecocriticism* examines case studies of animal representation in Pynchon's texts such as alligators in the sewer in *V* the alligator purse in *Bleeding Edge* dolphins in the Miami Seaquarium in *The Crying of Lot 49* dodoes pigs and octopuses in *Gravity's Rainbow* Bigfoot and Godzilla in *Vineland* and *Inherent Vice* and preternatural dogs and mythical worms in *Mason Dixon* and *Against the Day* Through this exploration Keita Hatooka illuminates how radically and imaginatively the legendary novelist depicts his empathy for nonhuman beings Furthermore by conducting a comparative study of Pynchon's narratives and his contemporary documentarians and thinkers Thomas Pynchon's *Animal Tales* leads readers to draw great lessons from the fables which stimulate our ecocritical thought for tomorrow

**Goldfish in the Parlour** Professor John Simons, 2023-01-01 For the first time fish became our companions and a corner of many a Victorian parlour was given over to housing tiny fragments of their world enclosed in glass The experience of seeing a fish swimming in a glass tank is one we take for granted now but in Victorian England this was a remarkable sight People had simply not been able to see fish as they now could with the invention of the aquarium and everything that went with it *Goldfish in the Parlour* looks at the boom in the building of public aquariums as well as the craze for home aquariums and visiting the seaside during the reign of Queen Victoria Furthermore this book considers how people see and meet animals and importantly in what institutions and in what contexts these encounters happen John Simons uncovers the sweeping consequences of the Victorian obsession with marine animals by looking at naturalist Frank Buckland's Museum of Economic Fish Culture and the role of fish in the Victorian economy the development of angling as a sport divided along class lines the seeding of Empire with British fish and comparisons with aquarium building in Europe USA and Australia *Goldfish in the Parlour* interrogates the craze that took

over Victorian England when aquariums introduced fish to parks zoos and parlours

*The Giant Squid in Transatlantic Culture* Otto Latva, 2023-09-30 This book builds upon the extensive study of the historical relationship between sea animals and humans in transatlantic culture during the eighteenth and nineteenth centuries It exposes the present understanding of the human relationship with the giant squid not only as too simplistic but also as historically inaccurate For instance it redefines the earlier understanding that humans and especially seafarers have understood giant squid as horror evoking and ugly creatures since the dawn of history and explains the origins of mythical sea monsters such as the Kraken The book is however more than a critical response to previous work It will point out that animals such as cephalopods which have largely been defined in biological contexts in recent times have a fascinating and multivariate past entangled with the history of humans in many remarkable ways Hence this book is not just about perceptions of giant sized squid or cephalopods but a historical inquiry into the transatlantic culture from the late eighteenth century to the turn of the twentieth century It will provide new knowledge about the history of mollusc studies seafaring culture and more broadly of the relationship between humans and animals during the period
