## **Office Hours One Academic Life:**

Office Hours H. N. Hirsch, 2016-01-04 A personal look inside the black box of American higher education Even a cursory glance at today's headlines reveals that higher education is in crisis Tuition outpaces inflation states slash budgets graduation rates decline and technology threatens to reshape everything Universities continue to crank out new PhDs but many will become poorly paid members of a secondary adjunct labor force teaching most of today's college courses Scholars lucky enough to be on the tenure track must publish more and more while students at large universities sit in ever larger lectures seldom interacting with professors Yet every year thousands of applicants from the world over apply to America's most prestigious colleges and universities and students and their families continue to spend huge sums on college What are colleges and universities really like from the inside What do we do wrong and what are we doing right What is it like to be a professor and administrator at one of America's leading educational institutions This memoir asks these questions in a very personal way This is the story of a serious scholar finding his vocation his students and his gratifications amidst the near impossibility of such discoveries in higher education today The writing is beautiful and the accounts of times places and institutions are alternatively moving penetrating and provocative Wendy Brown Class of 1936 First Professor of Political Science University of California Berkeley Written in lyrical and sparkling prose Harry Hirsch's *Office Hours* is on the one hand an intimate and insightful memoir of a Jewish gay man's trajectory from a Chicago boyhood to Princeton Harvard and beyond On the other hand it's a penetrating critical analysis of college and university approaches to education by an accomplished professor and dean and dedicated teacher who knows of what he speaks *Office Hours* draws back the curtain on a major way of American life the academic way revealing at once the bright spots and the rotten ones It should be read by every dean professor and adjunct and by anyone involved in an academic career or contemplating one Priscilla Long Author of *The Writer's Portable Mentor* and *Crossing Over Poems* *The Chicago Guide to Your Academic Career* John A.

previously underdeveloped narrative of value in higher education in England *Value and the Humanities* draws upon historical financial and critical debates concerning educational and cultural policy Rather than writing a singular defence of the humanities against economic rationalism Zoe Hope Bulaitis constructs a nuanced map of the intersections of value in the humanities encompassing an exploration of policy engagement scientific discourses fictional representation and the humanities in public life The book articulates a kaleidoscopic range of humanities practices which demonstrate that although recent policy encourages higher education to be entirely motivated by outcomes fiscal targets and the acquisition of employability skills the humanities continue to inspire and aspire beyond these limits This book is a historically grounded and theoretically informed analysis of the value of the humanities within the context of the market Yale Alumni Weekly ,1907
