

LEO-125A

LEO(G)-125A

LEO SERIES LATHES are available in four different types with straight and gap bed; the parts are all the same in size and shape throughout the series except those used in increasing the nominal distance between centers and in providing the bed for the gap feature. The use of almost the same parts for all different size of lathe, with resultant low production costs, has enabled us to offer these high-performance lathes at moderate prices and to proceed with quick and ready supply of replacement parts when ordered. Improvements in design are continuously being made, and so sometimes, some informations may differ from the machine delivered to you.
