

# Old age, New Age and the age to come

A Biblical view of the future of the earth.

Chris Gousmett

Many Christians are persuaded that the world will one day come to an end, that it will be destroyed by God and replaced with something else. This world, they maintain, is corrupted by sin and is not worth saving; it is worn out and contaminated to such an extent that it must make way for a better world.

Other people, who are attracted by the ideas of the New Age movement, which is a form of modern paganism, believe that the earth does have a future, but it is a future in which there is little place for God. We all become gods ourselves through a process of evolution and growth.

Jesus on the other hand, spoke much about the age to come, the age in which the Kingdom of God would be manifested in its fullness. In that age, righteousness, peace and harmony will characterise life on earth under the rule of God himself.

What are we to make of three such disparate views of the future of the earth, especially when we consider that the first view, that the earth will be destroyed, is the one most commonly held by Christians, even though it is in direct contrast with what Jesus himself taught about the coming of the kingdom of God.

These three views can be fitted into an outline of basic conceptions about the future of the earth, which I have called Old Age, New Age and the Age to Come.

The **Old Age** view is that the earth will one day wear out and will be discarded and replaced by a totally different world.

Through Minds' Eyes Ryan J. Hite, 2013-03-27 This is a book of history ethics and philosophy It is a record of teachings passed down through the generations from the East and the West It contains the fullness of the sealed covenant established between man and the laws of the universe As we evolve as a race we take things out of our lives because we better understand who we are and what we have achieved The divine refers to the laws of nature and the universe that guide us in our everyday lives The creator that guides our everyday lives is not something that we should worship or pray to out of fear or love it is something that remains unseen and works in natural forces to explain all the events that happen on Earth It is merely a force and it is not necessary to belong to a group to experience the light The path to the light is straight and broad The creator of the universe is a divine

and intellectual force by which all things came into being The sealed covenant is a pact between all of humanity to the world around us and the universal laws that guide our everyday lives to come together and love one another and come to make the world a better place for all people This shall usher in the evolution of religious traditions and humanity to a new age of prosperity *Jung and the New Age* David John Tacey,2001 David Tacey offers a theoretical and philosophical account of the New Age phenomenon and the archetypal imperatives that have brought it about **New Age Spirituality** Duncan Sheldon Ferguson,1993-01-01 A collection of essays explores the psychological sociological historical and philosophical aspects of the New Age movement and assesses its strengths and weaknesses *Cognitive Robotics* Hooman Samani,2015-10-16 The kimono clad android robot that recently made its debut as the new greeter at the entrance of Tokyo s Mitsukoshi department store is just one example of the rapid advancements being made in the field of robotics Cognitive robotics is an approach to creating artificial intelligence in robots by enabling them to learn from and respond to real world

**The Letter to the Romans** Douglas J. Moo,2018-11-26 For more than twenty years Douglas Moo s NICNT volume on Romans has been providing pastors students and scholars with profound insight into Paul s most famous letter In this thorough revision of his commentary Moo deals with issues that have come into prominence since the first edition 1996 incorporating the latest research and rewriting the text throughout for better comprehension Exegetically astute and theologically minded Moo interacts critically with the new perspective on Paul highlights the emphasis in Romans on practical divinity and traces the theme of the gospel throughout the letter His Letter to the Romans in this second edition will inform and enlighten a new generation of serious Bible readers **The New Age Movement** Margrethe Løøv,2024-10-02 This Element introduces New Age religion The New Age Movement is a loosely cohesive conglomerate of different spiritual currents with no common founder leader institution dogma or scripture Because of its diversity it may appear amorphous and incoherent at first sight This Element emphasizes both the unity and diversity of the New Age It approaches the phenomenon from three main perspectives 1 the historical development of New Age religion 2 ideas and practices associated with the New Age and 3 the social organization of the New Age movement It thus provides a wide angle view that sketches out some of the main patterns that emerge from a mosaic of individual currents and actors associated with the New Age It also highlights some of the differences within the movement by exploring some ideas and practices in depth *Reframing Biblical Theology* Daniel C. Fredericks,2025-08-26 Biblical theology is adequate only if wholly contextualized within the eternal natures of God creation and history A more thorough awareness of God s eternal design within creation and its history and a fuller perspective on the Messiah s commission avoids significant discontinuities such as universal and redemptive histories the gospels of Jesus and his apostles cross and kingdom of God centers heaven and a new earth and the role of sanctification in the Old and New Testaments This study suggests that God s eternal design for creation and its history subsumes a limited biblical theology that focuses on the solution to the sin problem at the expense of what has always been the eternal practical

and productive objective of that solution and its current implications The church can focus on an urgent need for the rescue at the expense of the equally urgent and eternal purpose for that rescue A more comprehensive practical and productive theology of endless creation and its history contextualizes salvation and its eschatological focus by enveloping them as temporary components within God's eternal design *Fulfilling Ageing* Marisa Cordella, Aldo Poiani, 2021-01-04 This book explores the reality of ageing and old age from the perspectives of the individual and society It emphasizes cross cultural aspects of ageing and communication issues both within and across generations The authors approach the understanding of ageing from a multi disciplinary perspective integrating biology psychology linguistics sociology and history The book is organized as follows historical and broader cross cultural issues of ageing followed by biomedical psychological social and communicative aspects of ageing The book concludes with an in depth analysis of the existential dimension of ageing followed by an evolutionary perspective **Christian Ethics** Stivers, Laura, A., Martin-Schramm, James B., 2020-08-15 The fifth edition of this classic introduction to Christian ethics via the case method approach utilizing case studies of contemporary ethical issues Collected Writings by John Nelson Darby Volume Eight John Nelson Darby, 2015-01-07 Volume 8 contains the following An Examination of the statements made in the Thoughts on the Apocalypse Answer to a Letter to the Brethren and Sisters who meet for communion in Ebrington Street Answer to a Second Letter to the Brethren and Sisters who meet for communion in Ebrington Street A brief notice of a tract entitled Remarks on the Seventh Chapter of Daniel *New Age Spirituality* Steven J. Sutcliffe, Ingvild Saelid Gilhus, 2014-09-11 New Age and holistic beliefs and practices sometimes called the new spirituality are widely distributed across modern global society The fluid and popular nature of new age makes these movements a very challenging field to understand using traditional models of religious analysis Rather than treating new age as an exotic specimen on the margins of proper religion New Age Spirituality examines these movements as a form of everyday or lived religion The book brings together an international range of scholars to explore the key issues insight healing divination meditation gnosis extraordinary experiences and interactions with gods spirits and superhuman powers Combining discussion of contemporary beliefs and practices with cutting edge theoretical analysis the book repositions new age spirituality at the forefront of the contemporary study of religion
