Offas Dyke Path Collectif:

Poetry in the Clinic Alan Bleakley, Shane Neilson, 2021-12-30 This book explores previously unexamined overlaps between the poetic imagination and the medical mind It shows how appreciation of poetry can help us to engage with medicine in more intense ways based on de familiarising old habits and bringing poetic forms of close reading to the clinic Bleakley and Neilson carry out an extensive critical examination of the well established practices of narrative medicine to show that non narrative lyrical poetry does different kind of work previously unexamined such as place eclipsing time They articulate a groundbreaking lyrical medicine that promotes aesthetic ethical and political practices as well as noting the often concealed metaphor cache of biomedicine Demonstrating that ambiguity is a key resource in both poetry and medicine the authors anatomise poetic and medical practices as forms of extended and situated cognition grounded in close readings of singular contexts They illustrate structural correspondences between poetic diction and clinical thinking such as use of sound and metaphor This provocative examination of the meaningful overlap between poetic and clinical work is an essential read for researchers and practitioners interested in extending the reach of medical and health humanities narrative medicine medical education and English literature

Making Money

Christine Desan, 2014-11-28 Money travels the modern world in disguise It looks like a convention of human exchange a commodity like gold or a medium like language But its history reveals that money is a very different matter It is an institution engineered by political communities to mark and mobilize resources As societies change the way they create money they change the market itself along with the rules that structure it the politics and ideas that shape it and the benefits that flow from it One particularly dramatic transformation in money's design brought capitalism to England For centuries the English government monopolized money's creation The Crown sold people coin for a fee in exchange for silver and gold Commodity money was a fragile and difficult medium the first half of the book considers the kinds of exchange and credit it invited as well as the politics it engendered Capitalism arrived when the English reinvented money at the end of the 17th century When it established the Bank of England the government shared its monopoly over money creation for the first time with private investors institutionalizing their self interest as the pump that would produce the money supply The second half of the book considers the monetary revolution that brought unprecedented possibilities and problems The invention of circulating public debt the breakdown of commodity money the rise of commercial bank currency and the coalescence of ideological commitments that came to be identified with the Gold Standard all contributed to the abundant and unstable medium that is modern money All flowed as well from a collision between the individual incentives and public claims at the heart of the system The drama had constitutional dimension money as its history reveals is a mode of governance in a material world That character undermines claims in economics about money's neutrality The monetary design innovated in England would later spread producing the global architecture of modern money *All the Wide Border: Wales, England and the Places Between* Mike Parker, 2023-03-30 A Waterstones Travel Book of the Year 2023 A funny warm and timely meditation on identity and belonging following the scenic route along the England Wales border Britain's deepest faultline *The Columbia Gazetteer of the World: A to G* Saul Bernard Cohen, 2008 A geographical encyclopedia of world place names contains alphabetized entries with detailed statistics on location name pronunciation topography history and economic and cultural points of interest *Chambers Encyclopedic English Dictionary* Robert Allen, 1994 [Guide du Routard Angleterre, Pays de Galles \(sans Londres\)](#) Collectif, 2025-05-28 Cet epub est la version num rique du guide sans interactivit additionnelle Laissez vous charmer par un tout autre art de vivre l humour d routant et le c l bre flegme d outre Manche Dans ce pays monarchique il n y a que le ciel que les Britanniques ont oubli de repeindre Et encore Turner ne s est pas priv Dans le Routard Angleterre Pays de Galles sans Londres mis jour par nos sp cialistes vous trouverez Une premi re partie en couleurs pour d couvrir le pays l aide de photos et de cartes illustrant les coups de c ur de nos auteurs 7 itin raires th matiques et g ographiques avec toutes les infos et astuces dont vous avez besoin pour r ussir et profiter pleinement de votre voyage des activit s profiter des eaux thermales Bath randonner dans le Lake District des visites Canterbury Brighton la New Forest Stonehenge partager en famille entre amis ou en solo Pr s de 50 cartes et plans avec toutes les bonnes adresses du Routard positionn es Et bien s r le

The Welsh Way Dan Evans,Kieron Smith,Huw Williams,2021-09-01 This book argues for a new Welsh Way one that is truly radical and transformational A call for a political engagement that will create real opportunity for change Neoliberalism has firmly taken hold in Wales The clear red water is darkening The wounds of poverty inequality and disengagement far from being healed have worsened Child poverty has reached epidemic levels the worst in the UK Educational attainment remains stubbornly low particularly in deprived communities Prison population rates are among the highest in Europe Unemployment remains stubbornly high House prices are rising with the private rented sector lining the pockets of an ever increasing number of private landlords Minority groups are consistently marginalised All this is not to mention the devastatingly disproportionate impact of the coronavirus pandemic on working class communities The Welsh Way interrogates neoliberalism s grasp on Welsh life It challenges the lazy claims about the successes of devolution fabricated by Welsh politicians and regurgitated within a tepid attenuated public sphere These wide ranging essays examine the manifold ways in which neoliberalism now permeates all areas of Welsh culture politics and society They also look to a wider world to the global trends and tendencies that have given shape to Welsh life today Together they encourage us to imagine and demand another Welsh future

Reanimating Regions James Riding,Martin Jones,2017-05-12 Writing regions undertaking a regional study was once a standard form of geographic communication and critique This was until the quantitative revolution in the middle of the previous century and more definitively the critical turn in human geography towards the end of the twentieth century From then on writing regions as they were experienced phenomenologically or arguing culturally historically and politically with regions was deemed to be old fashioned Yet the region is and always will be a central geographical concept and thinking about regions can tell us a lot about the history of the discipline called geography Despite taking up an identifiable place within the geographical imagination in scholarship and beyond region remains a relatively forgotten under used and in part under theorised term Reanimating Regions marks the continued reinvigoration of a set of disciplinary debates surrounding regions the regional and regional geography Across 18 chapters from international interdisciplinary scholars this book writes and performs region as a temporary permanence something held stable not fixed and absolute at different points in time for different purposes There is as this expansive volume outlines no single reading of a region Reanimating Regions collectively rebalances the region within geography and geographical thought In renewing the geography of regions as not only a site of investigation but also as an analytical framework through which to write the world what emerges is a powerful reworking of the geographic imagination Read against one another the chapters weave together timely commentaries on region and regions across the globe with a particular emphasis upon the regional as played out in the United Kingdom and regional worlds both within and beyond Europe offering chapters from

Africa and South America Addressing both the political and the cultural this volume responds to the need for a consolidated and considered reflection on region the regional and regional geography speaking directly to broader intellectual concerns with performance aesthetics identity mobilities the environment and the body Fictions of Memory Ansgar Nünning, 2003

Bye-gones ,1888 *Pause - A Spiritual Power* Rob Wykes, 2023-08-25 Opportunities to enter a spiritual place are all around us but we often don't recognise them *Pause A Spiritual Power* helps the reader identify those moments and enter places of spiritual pause The spiritual life often neglected exists apart from our thoughts and feelings *Pause* explores how spirituality is separate and how we often mistakenly substitute rational and emotional experiences for spiritual experience To be spiritual is not to be religious or bound to a specific understanding of God To be human is to have a spirit within regardless of religious commitment or persuasion Attending to one's spiritual life finding pause is not confined or defined by any one faith tradition In *Pause* author Rob Wykes relates accounts of his own journeys physical and spiritual that have helped him discover his own spiritual self Part of his story is a literal pilgrimage on foot and by bike that brought him into a deeper understanding of pause Attending to one's spiritual being is as important as physical health and emotional self care Learning to find pause in life's experiences and to enter those spiritual places yields profound meaning and pleasure many have never before known **THE OXFORD HOME ATLAS OF THE WORLD** ,1960 **Guide du Routard Angleterre**
