hunters missionaries and traders from the early nineteenth century onwards this book illustrates the ecology of the country as it was emphasizing its rich large mammal fauna its decline from increasing aridity of the country its destruction by hunters by disease and most importantly destruction of its vast herds notably of wildebeest due to the developing beef export economy and the erection of veterinary cordon fences depriving the large game of migration routes in times of drought Once possessing one of the greatest animal displacements in Africa with huge migrations of antelope this book underlines the reality that the fauna of Botswana today is but a tiny remnant of what was perhaps once one of the the greatest spectacles of big game on earth It shows how the decline came about and the controls exercised by tribal chiefs illustrating the indigenous peoples attitudes and eventual protective measures both tribal and statutory Whereas the pessimistic predictions of extinction at the end of the nineteenth century have happily not come true nonetheless the continued existence of this once great fauna is increasingly threatened by climate change threatening an already fragile balance and human population increase with its increasing economic demands and changes in land use The study fills a gap in the literature of African wildlife conservation and is distinctive by drawing upon a rich historical background The Delta Tony Park,2020-05-17 Mercenary Sonja Kurtz is brought out of retirement to blow up a dam and save an African wildlife paradise Retired mercenary Sonja Kurtz is recruited to blow up a dam that threatens the existence of Botswana s premier wildlife area the Okavango Delta A coalition of environmentalists and safari lodge owners including Sonja s former lover Stirling Smith are determined to see the dam destroyed at any cost but there are deals and double crosses going on behind the scenes Well meaning American wildlife researcher turned reality TV star Coyote Sam Chapman stumbles into the middle of the conflict and Sonja finds herself having to babysit a film crew while planning her daring raid Old flames and new ones a rebellious teenage daughter and her estranged father are all in Sonja s sights as her mission to save The Delta turns into a full blown civil war and a race to protect the one person she really cares for *Botswana Safari Guide* Chris McIntyre,Susie McIntyre,2024-11-08 This new thoroughly updated sixth edition of Bradt s Botswana Safari Guide remains the only full blown standalone guide to one of Africa s most popular and rewarding safari destinations This is the sole guide to focus on Botswana s key safari locations the Okavango Delta Chobe National Park and the Northern Kalahari Botswana s wilderness is pristine a virtue underpinned by governmental commitment to sustainable tourism The Okavango Delta s permanent waters attract year round wildlife including all the big five Outside the Delta this English speaking country offers tremendous variety in landscapes from the arid Kalahari to lush forests Riverine areas harbour spectacular herds of elephants and buffalo as well as mighty predator populations Dusty savannahs attract hardier game such as oryx and springbok On Makgadikgadi s great salt pans zebras gather in huge congregations after rain Birdwatching is brilliant throughout Then there s Botswana s rich history from the ancient rock paintings at the Tsodilo Hills to Stone Age arrowheads on the Makgadikgadi Pans Bradt s Botswana Safari Guide offers detailed descriptions of many lodges from traditional tented camps to those offering five star

If the wars of the last century were fought over oil the wars of this century will be fought over water Ismail Serageldin The World Bank The giant dams of today are the modern Pyramids colossally expensive edifices that generate monumental amounts of electricity irrigated water and environmental and social disaster With Deep Water Jacques Leslie offers a searching account of the current crisis over dams and the world s water An emerging master of long form reportage Leslie makes the crisis vivid through the stories of three distinctive figures Medha Patkar an Indian activist who opposes a dam that will displace thousands of people in western India Thayer Scudder an American anthropologist who studies the effects of giant dams on the peoples of southern Africa and Don Blackmore an Australian water manager who struggles to reverse the effects of drought so as to allow Australia to continue its march to California like prosperity Taking the reader to the sites of controversial dams Leslie shows why dams are at once the hope of developing nations and a blight on their people and landscape Deep Water is an incisive beautifully written and deeply disquieting report on a conflict that threatens to divide the world in the coming years **Anderson's Travel Companion**

Critical Approaches to African Cinema Discourse Nwachukwu Frank Ukadike, 2014-02-27 Critical Approaches to African Cinema Discourse utilizes an interdisciplinary approach to lay bare the diversity and essence of African cinema discourse It is an anthology of historical reflections critical essays and interviews by film critics historians theorists and filmmakers that signifies a dialogue and engagement apropos the ideology and cultural politics of film production in Africa The contributors are extremely concerned not only with the history of African cinema but with its future and its potential This book then is not limited to the expansion of the discourse on African cinema but tries to approach the definition of the critical canon within the exigencies and manifestations of art and African sociopolitical practices The authors view these practices as an investment in a cultural imperative stemming from the quest to delineate how critical methodologies are derived from and shape contemporary historical and cultural practices Hence the contributions are less about the usual constrictive method of analysis and more about illustrating manifestations of an interrogative critical methodology that is certainly an offspring of an indigenous African critical cum cinematic culture and paradigms
