Complex Trauma Joanne Stubbley, Linda Young, 2021-12-21 The new diagnosis of Complex Post Traumatic Stress

Disorder presents diagnostic and treatment challenges that need to be grappled with since in a troubled world it is increasingly important to understand the impact and aftermath of traumatic experiences and crucially how to work with those affected by them In Complex Trauma Joanne Stubley and Linda Young have assembled a fascinating range of approaches in order to explore the questions of understanding and intervention They detail the relevance of an applied psychoanalytic approach both in the Tavistock Trauma Service and more broadly in illuminating understanding of traumatized individuals The book includes chapters related to the impact of trauma on the body as well as on the mind incorporating neurobiological and attachment theory to develop ideas on the impact and aftermath of complex trauma A number of specialist areas of trauma work are covered within this volume including work with adolescents with refugees and asylum seekers with military veterans and with survivors of child sexual abuse The editors bring together chapters that will be of interest to those working with traumatized individuals in a variety of settings and using different modalities The central importance of relationships as understood within the psychoanalytic model is depicted throughout as being at the heart of understanding and working with traumatic experience Group Relations and Other Meditations Carlos

Sapochnik, 2021-09-30 This book examines the Tavistock tradition of using group relations conferences as temporary training organizations for groups and institutions and how those can inform and enrich the theory and practice of experiential learning more generally First this book analyses the structures rituals and beliefs of group relations conferences drawing on the author's learned experience in the field followed by meditations extending to broader areas such as the social nature of corruption martial arts Western culture's longing for creativity and the use of drawing in social science research It addresses the tension between psychoanalysis and systemic theory in group relations thinking refining and re-defining key concepts of the practice challenging notions of dependence and dependency performative poetics learning the politics of power nostalgia and the unspoken reasons for the wish to join conference staff teams It offers a critique of the polarity concerning terms such as spontaneity the sense of mystery openness to the unexpected and trust in unconscious processes as opposed to the desire for certainty and the confusion anxiety and aggression evoked when groups find themselves without familiar signposts Drawing on his thinking developed over the course of a professional life as organizational consultant artist designer teacher researcher and poet the author invites the reader to challenge boundaries towards a less inflexible and defended engagement with the Other The metaphor of bricolage an activity that inspires creativity and originality suggests possible ways of putting known things together to approach new meaning as provisional and shifting The many strands thus gathered reveal new dimensions of group life that crucially affect our everyday living and surviving both as individuals and as members of society This work will allow psychoanalysts psychotherapists group therapists organizational consultants and trainers to put the lessons learned from group relations conferences into everyday practice *New Discoveries in Child Psychotherapy* Margaret Rustin, Michael Rustin, 2019-05-28 New Discoveries in Child Psychotherapy presents eleven new

Sexuality and Gender Now Leezah Hertzmann, Juliet Newbigin, 2019-08-08 Sexuality and Gender Now uses a psychoanalytic approach to arrive at a more informed view of the experience and relationships of those whose sexuality and gender may not align with the heterosexual norm This book confronts the heteronormative bias dominant in psychoanalysis using a combination of theoretical and clinical material offering an important training tool as well as being relevant for practicing clinicians The contributors address the shift clinicians must make not only to support their patients in a more informed and non prejudicial way but also to recognise their own need for support in developing their clinical thinking They challenge assumptions deconstruct theoretical ideas extend psychoanalytic concepts and importantly show how clinicians can attend to their pre conscious assumptions They also explore the issue of erotic transference and countertransference which if unaddressed can limit the possibilities for supporting patients more fully to explore their sexuality and gender Theories of psychosexuality have tended to become split off from the main field of psychoanalytic thought and practice or read from an assumed moral high ground of heteronormativity The book specifically addresses this bias and introduces new ways of using psychoanalytic ideas The contributors advocate a wider and more flexible attitude to sexuality in general which can illuminate an understanding of all sexualities including heterosexuality Sexuality and Gender Now will be essential reading for professionals and students of psychoanalysis who want to broaden their understanding of sexuality and gender in their clinical practice beyond heteronormative assumptions
