Good Thinking Erik Palmer, 2016. A large part of our everyday communication involves argumentation and reasoning: for example, when we want to persuade others, make good purchasing decisions or analyze the messages we receive from advertisers and politicians. But how well do we prepare students for these tasks? Can they critically evaluate a speaker's point of view? Understand rhetorical devices? Apply logic? Build an effective argument, whether written or spoken? In his new book *Good Thinking*, Erik Palmer shows teachers of all subject matters how to transform the activities they already use into openings for improving student thinking. Building on his previous work in *Well Spoken* (Stenhouse, 2011) and *Digitally Speaking* (Stenhouse, 2014), he reveals how all students, not just those in advanced classes, can begin developing sophisticated reasoning skills that will improve their oral and written communications. Blending theory with practice, Palmer shares a wide range of classroom-tested lessons, including ways to understand argument in paintings and images, address ad hominem attacks, using a traveling debate, create a class comedy club, write syllogisms, analyze character and plot development and teach logic through a class Booger Patrol. He explains complex concepts in simple, practical language that gives teachers a deft understanding of the principles of good arguments: proper use of evidence, persuasive techniques and rhetorical tricks. Once you start looking, you'll see arguments everywhere. Palmer writes: "All of them are opportunities to teach good thinking."

Pursuing Excellence for the Glory of God Keith A. Currie, 2022-01-13. What is education? How and why do educators do what we do? And in what way can and ought education be distinctively Christian? These are a few of the probing questions for which this book seeks answers. Among other contributions, Currie's book explores a biblical philosophy of Christian education with unprecedented breadth and depth. To accomplish this objective, it considers what education is (chapter 1), what philosophy of education is (chapter 2) and what the ultimate goal of education is (chapter 3). Additionally, this book provides a never-before Christian overview of twelve philosophies of education (chapters 4-15). Each of those chapters provides an introduction of a particular philosophy of education and some of that philosophy's exemplars. Each of those chapters also contributes a constructive Christian critique. Chapter 16 highlights a biblical philosophy of Christian education, featuring some people, some principles and some priorities for a biblical philosophy of Christian education, viz.

pursuing excellence for the glory of God The Tragedy of King Lear William Shakespeare, 2008 One of the most popular of Shakespeare's plays King Lear is also one of the most thought provoking The play turns on the practical ramifications of the words of Christ that we should render unto Caesar that which is Caesar's and unto God that which is God's When confronted with the demand that she should render unto Caesar that which is God's Cordelia chooses to love and be silent As the play unfolds each of the principal characters learns wisdom through suffering This edition includes new critical essays by some of the leading lights in contemporary literary scholarship **The Writer's Workshop** Gregory L. Roper, 2023-08-22 The Writer's Workshop takes an approach to teaching writing that is new only because it is so old Today rhetoric and composition typically proceed by ignoring what was done for 2 500 years in Western education Gregory Roper on the other hand helps students learn to write in the way the great writers of the past themselves learned by carefully imitating masters of the craft including Cicero Thomas Aquinas Charles Dickens Sojourner Truth James Joyce and Ernest Hemingway By living in their workshops and apprenticing to these and other masters apprentice writers like apprentice musicians painters and blacksmiths of the past will rapidly improve the complexity of their art and discover their own native voices Interspersed into chapters full of sound practical advice and challenging assignments are reflections on Great Ideas from Realism and Impressionism to Nominalism and Modern Science Perfect for the college or even high school writing classroom as well as a marvelous book for homeschoolers and others who would like to improve their own writing The Writer's Workshop is a fine practical guide and Dr Roper a friendly yet demanding teacher mentor **Choice** ,2005-09 **Polis** ,2006 **Book Review Index** ,2006 Every 3rd issue is a quarterly cumulation *A Liberal Education in Late Emerson* Sean Ross Meehan, 2019 Sean Meehan's book reclaims three important but critically neglected aspects of the late Emerson's mind first his engagement with rhetoric conceived as the organizing power of mind and unconventionally characterized by the trope metonymy second his public engagement with the ideals of liberal education and debates in higher education reform early in the period 1860 1910 that saw the emergence of the modern university and third his intellectual relation to significant figures from this age of educational transformation Walt Whitman William James Harvard president Charles W Eliot and W E B Du Bois Harvard's first African American PhD Meehan argues that the late Emerson educates through the rhetorical liberal arts and he thereby rethinks Emerson's influence as rhetorical lessons in the traditional pedagogy and classical curriculum of the liberal arts college The Practical Elements of Rhetoric John Franklin Genung, 1892 **The Saturday Review of Politics, Literature, Science and Art** ,1860 *The Saturday Review of Politics, Literature, Science, Art, and Finance* ,1877
