Histoire contemporaine des paysages, parcs et jardins

Jean-Pierre Le Dantec, Tangi Le Dantec, 2019-11-27 L'art des jardins et des paysages accompagne au rythme des mutations profondes de la société la transformation de la France en un univers urbain mondialisé et confronté des crises inédites notamment d'ordre environnemental. La confrontation historique entre les partisans d'une beauté libre et naturelle et ceux d'une expression fondée sur la rationalité technique et géométrique s'est constamment renouvelée au point d'en brouiller la pertinence. Elle s'efface désormais au profit de nouveaux enjeux liés à la définition du cadre de vie et aux exigences de survie des écosystèmes. Cet ouvrage présente l'histoire des jardins et du paysage en France aux époques moderne et contemporaine en s'appuyant sur une riche iconographie constituée de photographies, croquis et gravures. Il retrace leur évolution influencée par des courants artistiques majeurs : le néo-classicisme des Duchesne, les jardins d'Espagne et du Maroc avec Forestier, les jardins modernes cubistes ou art déco. Jacques Simon et le renouveau de l'art paysager etc. jusqu'aux développements contemporains qui en font des lieux d'expérimentation de formes artistiques nouvelles et de techniques horticoles écologiques comme la permaculture ou la phytoremédiation. Il montre ainsi quel point l'art des jardins et paysages est un art capital qui tout en conservant sa vocation première de création de beauté partit des éléments naturels se met au service d'un dessein plus large visant la gestion l'aménagement et la création des territoires.

Le projet de paysage comme art relationnel

Sonia Keravel, 2015 **Passeurs de paysages** Sonia Keravel, 2008 Le paysage est une relation mouvante entre les hommes et leur environnement. Plus qu'une simple représentation ou un décor, le paysage nous enveloppe, nous traverse, nous transforme. Il nous fabrique et nous le fabriquons. Travers un champ de relations, un passage. Le projet de paysage en ce sens est l'art de mettre en relation les hommes et leur environnement. Le paysagiste a pour mission de mettre en relation le public et les lieux dont celui-ci fait usage. L'art du paysagiste est un art de passeur. Dans cette perspective, notre recherche propose d'étudier la question de la transmission du projet de paysage aux usagers. Plus précisément, cette thèse cherche à analyser et distinguer les différents principes de médiations développés par les paysagistes pour que le public s'approprie leur projet. Travers différentes études de cas construits, elle propose de montrer comment les paysagistes tentent d'impliquer l'utilisateur dans leur projet en le conviant à participer.

Livres de France, 2004

Le grand paysage en projet

Alexis Pernet, 2011 Cette thèse s'attache à explorer la genèse et les méthodes du projet de paysage lorsque celui-ci se déploie à l'échelle du grand paysage. Né en France dans les années 60 d'un largissement des pratiques paysagistes au contact de l'urbanisme et de l'écologie, la notion de grand paysage a rencontré le souci de l'État d'intervenir sur l'ensemble des paysages du quotidien au-delà des politiques de protection des sites. Si ce processus trouve un point d'aboutissement dans la loi Paysages de 1993, il a également trouvé de nombreux relais au niveau des échelles territoriales : de la décentralisation. Au moment où la Convention européenne du paysage invite à développer la participation du public dans la mise en œuvre des politiques d'aménagement, cette recherche

propose un double parcours pour comprendre la manière de penser un saut qualitatif et méthodologique dans la mise en œuvre d'un projet de grand paysage. D'une part en retraçant la genèse historique des préoccupations propres au grand paysage de leur institutionnalisation et de leur traduction dans le champ des pratiques professionnelles de l'autre en engageant une expérience concrète de projet de paysage sur le territoire de la communauté de communes de la vallée de l'Ance dans le Parc naturel régional Livradois Forez. Fondée sur une approche relationnelle du projet de paysage, celle-ci trouve sa place au sein de cette recherche grâce à un journal dont la méthode fait l'objet d'un développement particulier.
