**Passing the Buck** Simon Bloom, 2016-01-01 The idea of the three generation wealth trap is ingrained in our culture The notion that the first generation makes it the second generation merely preserves and the third generation loses it is one which has achieved almost legendary status But this pattern is by no means inevitable With knowledge and careful planning it is possible to ensure that your descendants retain and build on their inheritance for many generations to come This book will give you a greater understanding of the issues facing your family alongside a set of tools skills and strategies to ensure that you thrive rather than just survive both now and in the future *The Politics and Governance of Blame* Matthew Flinders, Gergana Dimova, Markus Hinterleitner, R. A. W. Rhodes, R. Kent Weaver, 2024-06-24 From coping with Covid 19 through to manging climate change from Brexit through to the barricading of Congress from democratic disaffection to populist pressures from historical injustices to contemporary social inequalities and from scapegoating through to sacrificial lambs the common thread linking each of these themes and many more is an emphasis on blame But how do we know who or what is to blame How do politicians engage in blame avoidance strategies How can blaming backfire or boomerang Are there situations in which politicians might want to be blamed What is the relationship between avoiding blame and claiming credit How do developments in relation to machine learning and algorithmic governance affect blame based assumptions By focusing on the politics and governance of blame from a range of disciplines perspectives and standpoints this volume engages with all these questions and many more Distinctive contributions include an emphasis on peacekeeping and public diplomacy on source credibility and anthropological explanations on cultural bias and on expert opinions on polarisation and de politicisation and on trust and post truth politics With contributions from the world s leading scholars and emerging research leaders this volume not only develops the theoretical disciplinary empirical and normative boundaries of blame based analyses but it also identifies new research agendas and asks distinctive and original questions about the politics and governance of blame **The Eleventh Commandment:** Ejike R. Egwuekwe, 2020-03-19 he exhorts against fraud Here he scares the opinion that even though Slave trade Scramble and Partition as well as Colonialism had come and gone the impact of those social vices are still being felt He indicates that people still hide under the canopy and or shadow of such vices and use those as excuses for the socio politico economic problems ravaging our nations He suggests that it is time to let go of the past and move forward That it is time to divest ourselves of the spirit of atomism and imbibe ourselves with the spirit of collectivism and thereby work together towards identifying the various particles of problems that have thus far conglomerated in submerging our nations in economic backwardness He strongly advocates that it is time to emancipate ourselves from mental encumbrances and thereby realize that we are the only ones who can save our nations from economic squalor But he maintains that while he does not profess to have gotten all the right answers to our economic and socio politico anomalies the suggestions contained herein are a pointer in the right direction and only a mere attempt in that
