**Divination and Theurgy in Neoplatonism** Dr Crystal Addey,2014-10-28 Why did ancient philosophers consult oracles write about them and consider them to be an important part of philosophical thought and practice This book explores the extensive links between oracles and philosophy in Late Antiquity particularly focusing on the roles of oracles and other forms of divination in third and fourth century CE Neoplatonism Examining some of the most significant debates between pagan philosophers and Christian intellectuals on the nature of oracles as a central yet contested element of religious tradition Addey focuses particularly on Porphyry's Philosophy from Oracles and Iamblichus De Mysteriis two works which deal extensively with oracles and other forms of divination This book argues for the significance of divination within Neoplatonism and offers a substantial reassessment of oracles and philosophical works and their relationship to one another With a broad interdisciplinary approach encompassing Classics Ancient Philosophy Theology Religious Studies and Ancient History Addey draws on recent anthropological and religious studies research which has challenged and re evaluated the relationship between rationality and ritual *Oracles of the Gods* Crystal Jade Addey,2009 **Oracles of the Gods** ,2009 *Theurgy and the Soul* Gregory Shaw,1995 Iamblichus was once considered one of the great philosophers The Emperor Julian followed Iamblichus's teachings to guide the restoration of traditional pagan cults in his campaign against Christianity Although Julian was unsuccessful Iamblichus's ideas persisted well into the Middle Ages and beyond His vision of a hierarchical cosmos united by divine ritual became the dominant worldview for the entire medieval world Even Ralph Waldo Emerson wrote that he expected a reading of Iamblichus to cause a revival in the churches But modern scholars have dismissed him seeing theurgy as ritual magic or manipulation of the gods Shaw however shows that theurgy was a subtle and intellectually sophisticated attempt to apply Platonic and Pythagorean teachings to the full expression of human existence in the material world **Pathways to the Gods** Erich von Däniken,1984-02
