A Stitch in Time Aimee E. Newell, 2014-03-15 Drawing from 167 examples of decorative needlework primarily samplers and quilts from 114 collections across the United States made by individual women aged forty years and over between 1820 and 1860 this exquisitely illustrated book explores how women experienced social and cultural change in antebellum America The book is filled with individual examples stories and over eighty fine color photographs that illuminate the role that samplers and needlework played in the culture of the time For example in October 1852 Amy Fiske 1785 1859 of Sturbridge Massachusetts stitched a sampler But she was not a schoolgirl making a sampler to learn her letters Instead as she explained The above is what I have taken from my sampler that I wrought when I was nine years old It was w rough t on fine cloth and it tattered to pieces My age at this time is 66 years Situated at the intersection of women s history material culture study and the history of aging this book brings together objects diaries letters portraits and prescriptive literature to consider how middle class American women experienced the aging process Chapters explore the physical and mental effects of old age on antebellum women and their needlework technological developments related to needlework during the antebellum period and the tensions that arose from the increased mechanization of textile production and how gift needlework functioned among friends and family members Far from being solely decorative ornaments or functional household textiles these samplers and quilts served their own ends They offered aging women a means of coping of sharing and of expressing themselves These threads of time provide a valuable and revealing source for the lives of mature antebellum women Publication of this book was made possible in part through generous funding from the Coby Foundation Ltd and from the Quilters Guild of Dallas Helena Hibbs Endowment Fund

Textile Collections Amanda Grace Sikarskie, 2016-04-08 Collections of textiles historic costume quilts needlework samplers and the like have benefited greatly from the digital turn in museum and archival work Both institutional online repositories and collections based social media sites have fostered unprecedented access to textile collections that have traditionally been marginalized in museums How can curators interpreters and collections managers make best use of these new opportunities To answer this question the author worked with sites including the Great Lakes Quilt Center at the Michigan State University Museum the Design Center

at Philadelphia University the International Quilt Study Center and Museum at the University of Nebraska Lincoln and the WGBH Boston Media Library and Archives as well as user curated social sites online such as Tumblr and Polyvore to create four compelling case studies on the preservation access curation and interpretation of textile objects The book explores The nature of digital material culture The role of audience participation versus curatorial authority online Audience friendly collections metadata and tagging Visual rather than text based searching and cataloging The legality of ownership and access of museum collections online Gender equity in museums and archives This book is essential reading for anyone who cares for collects exhibits or interprets historic costume or textile collections but its broad implications for the future of museum work make it relevant for anyone with an interest in museum work online And because the focus of this volume is theory and praxis rather than specific technologies that are likely to become obsolete it will be staple on your bookshelf for years to come ["Women and the Material Culture of Needlework and Textiles, 1750-1950"](#) Maureen Daly

Goggin, 2017-07-05 Rejecting traditional notions of what constitutes art this book brings together essays on a variety of fiber arts to recoup women's artistic practices by redefining what counts as art Although scholars over the last twenty years have turned their attention to fiber arts redefining the conditions practices and products as art there is still much work to be done to deconstruct the stubborn patriarchal art/craft binary With essays on a range of fiber art practices including embroidery knitting crocheting machine stitching rug making weaving and quilting this collection contributes to the ongoing scholarly redefinition of women's relationship to creative activity Focusing on women as producers of cultural products and creators of social value the contributors treat women as active subjects and problematize their material practices and artifacts in the complex world of textiles Each essay also examines the ways in which needlework both performs gender and in turn constructs gender Moreover in concentrating on and theorizing material practices of textiles these essays reorient the study of fiber arts towards a focus on process the making of the object including the conditions under which it was made by whom and for what purpose as a way to rethink the fiber arts as social praxis [*Women and Second Life*](#) Dianna Baldwin, Julie

Achterberg, 2013-04-30 This collection of new essays explores issues of identity work and play in the virtual world of Second Life SL Fourteen women discuss their experiences Topics include teaching in Second Life becoming an SL journalist and using SL as a means to bring human rights to health care exploring issues of identity and gender such as performing the role of digital geisha playing with gender crossing or determining how identity is formed virtually examining how race is perceived and investigating creativity such as poetry writing or quilting The text is unique in that it represents only women and their experiences in a world that is most often viewed as a man's world [*Digital Research Methods in Fashion and Textile Studies*](#) Amanda Sikarskie, 2020-01-09 Are you a researcher struggling to mine and make sense of a mountain of fashion data Are you interested in learning about how digital methods and tools could enhance your research Have you thought about ways to spark and engage in academic conversations on social media Have you wondered how digital

technologies are internationalizing the field of fashion and textile studies Digital Research Methods in Fashion and Textile Studies presents the reader with a variety of digital methodologies to help build skills in searching for analyzing and discussing vintage design photography and writing on fashion as well as historic and ethnographic dress and textile objects themselves Each chapter focuses upon a different method problem or research site including Maximalism and mixed methods approaches to research Searching large databases effectively Pattern recognition and visual searching Critical reading use and citation of social media texts Digital ethnography and shopping as research Data visualization and mapping Images in the public domain From advanced undergraduates and postgraduate students working on research projects to veteran professionals in fashion and textile history and beyond everyone can benefit from a diverse set of fresh approaches to conducting and disseminating research In the current age of instant gratification with users snapping and posting images from runway shows long before the clothes will ever appear instores the world of fashion is increasingly digital and fast paced Research on fashion is too Digital Research Methods in Fashion and Textile Studies will help you keep up in this rapidly changing world

Californian *Historical Ethnographies of Quiltmaking* Teresa Christine Klassen, 2007 **American Quilts in the Modern Age, 1870-1940** Marin F. Hanson, Patricia Cox Crews, 2009-04 Pulitzer Prize winning historian Laurel Thatcher Ulrich has remarked Much of the social history of early America has been lost to us precisely because women were expected to use needles rather than pens This book part of the multivolume series of the International Quilt Study Center collections recovers a swath of that lost history and shows us some of America's treasured material culture as it was pieced and stitched into place American Quilts in the Modern Age 1870-1940 examines the period's quilts from both an artistic and a historical perspective From pieced block to Crazy style to Colonial Revival examples as well as one of a kind creations the full array of style and design appears in this book covering seven decades of quiltmaking The contributing authors provide critical information regarding the modern and anti modern tensions that persisted throughout this era of America's coming of age from the Civil War to World War II They also address the textile technology and cultural context of the times in which the quilts were created with an eye to the role that industrialization and modernization played in the evolution of techniques materials and designs With full color photographs of over 587 quilts American Quilts in the Modern Age 1870-1940 offers a new visual and tactile understanding of American culture and society bridging the transition from traditional folk culture to the age of mass production and consumption Journal of Women's History, 2000 Los Angeles Magazine, 1997-10 Los Angeles magazine is a regional magazine of national stature Our combination of award winning feature writing investigative reporting service journalism and design covers the people lifestyle culture entertainment fashion art and architecture and news that define Southern California Started in the spring of 1961 Los Angeles magazine has been addressing the needs and interests of our region for 48 years The magazine continues to be the definitive resource for an affluent population that is intensely interested in a lifestyle that is uniquely Southern Californian **Forthcoming Books** Rose Arny, 2003 *Dating Fabrics 2* Eileen Jahnke Trestain, 2005 From poodle skirts of the 1950s to baby doll dresses of the 1990s the fabrics of our everyday lives are featured in this handy reference guide to the materials of the last half century A companion to *Dating Fabrics A Color Guide 1800-1960* this source is ideal for those studying fashion and clothing trends from the late twentieth century as well as collectors of recent quilts Today's quilts may have elements of more than one decade because many quilters collect a great deal of fabric and may draw from one group of fabric over a long period of time The recent proliferation of reproduction fabrics has caused concern for the ability to differentiate the old from the new in reproduction quilts and repairs An informative section on these fabrics from the 1980-2000 era provides a blueprint for building confident conclusions as to the fabric's origins For ease in identification prints are shown actual size and specific fabric lines and styles are grouped and sorted by date then color Dating divisions coincide with turning points in history which influenced attitudes and styles and are highlighted by a brief history of each era **Uncoverings**, 2006
