Partners 4 Life The Importance Of Partners In Surviving An Organ Transplant:

Partners 4 Life Jim Uhrig, 2014-03-26 Early in 2008 doing ordinary mundane things like tying his shoes and walking up steps literally took author Jim Uhrig's breath away. He had trouble breathing and it seemed as though he could never catch his breath. That was the beginning of a long journey for Uhrig who shares his story in *Partners 4 Life*. In this memoir he narrates the path his life took after being diagnosed with the incurable idiopathic pulmonary fibrosis and undergoing a subsequent lung transplant in April of 2009. Uhrig not only discusses his diagnosis and treatment but also places special emphasis on the partners from his personal life, his business, and his sports activities who provided him with inspiration and help and played an integral role in his survival. He includes his partners in medicine, the donor and her family, caregivers, and special angels. Uhrig's story relates how he tackled his lung disease and transplant with the same fervor he lived life. *Partners 4 Life*

Decker, 2014-04-24. *Commodified Bodies* examines the social practice of organ transplantation and trafficking and scrutinises the increasingly neoliberal tendencies in the medical system. It analyses phenomena such as the denomination of human body parts as raw materials and commodities or the arguments used by the proponents for a free market solution. Moreover, it argues that modern medicine is still linked with its religious roots. The commodification of body parts is seen not as an imperialistic act of the market but as the end of a historical process as the notion of fetishism links the market with the body. Marx's concept of commodity fetishism and Sigmund Freud's theory of the perverted use of objects are modified and adapted to the reconstruction of the joint beginnings of market and medicine. **Morbidity and Mortality Weekly Report**, 1994
