Reed,2015-11-23 9 Steps to Fall

It shares nine actionable steps that encourage readers to shift their mindset, clarify their vision, and align their actions with their deepest values and principles that Reed has applied throughout his life. Louis L Reed is a committed advocate for justice reform who spent over a decade in federal prison, an experience that fueled his passion for helping others reclaim their lives. Through his advocacy, Reed has helped pass over 30 pieces of legislation positively impacting more than 650,000 people. The same resilience, mindset, and commitment to personal transformation that form the foundation of this book are now guiding his work in criminal justice reform, where he continues to inspire and empower justice-impaired individuals to rebuild their lives.

***The Psychology of Passion*** Dr Robert J. Vallerand, 2015-05-01 Winner of the 2017 APA William James Book Award. The concept of passion is one we regularly use to describe our interests, and yet there is no broad theory that can explain the development and consequences of passion for activities across people's lives. In *The Psychology of Passion*, Robert J Vallerand presents the first such theory, providing a complete presentation of the Dualistic Model of Passion and the empirical evidence that supports it. Vallerand conceives of two types of passion: harmonious passion, which remains under the person's control, and obsessive passion, which controls the person. While the first typically leads to adaptive behaviors, the obsessive form of passion leads to less adaptive and at times maladaptive behaviors. Vallerand highlights the effects of these two types of passion on a number of psychological phenomena, such as cognition, emotions, performance, relationships, aggression, and violence. He also discusses the development of passion and reviews a range of literature on passion for activities.

***The Mating Game*** Pamela C. Regan, 2016-01-12 Pamela C Regan's *The Mating Game: A Primer on Love, Sex, and Marriage* Third Edition is the only introductory text about human mating relationships aimed specifically at a university audience. Encompassing a wide array of disciplines, this comprehensive review of theory and empirical research takes an integrated perspective on the fundamental human experiences of attraction and courtship, mate selection and marriage, and love and sex. Strongly grounded in methodology and research design, the book offers relevant examples and anecdotes along with ample pedagogy that will spark debate and discussion on provocative and complex topics.

***A Parent-Partner Status for American Family Law*** Merle H. Weiner, 2015-09-17 Despite the fact that becoming a parent is a pivotal event, the birth or adoption of a child has little significance for parents' legal relationship to each other. Instead, the law relies upon marriage, domestic partnerships, and contracts to set the parameters of parents' legal relationship. With over forty percent of American children born to unwed mothers and consistently high rates of divorce, this book argues that the law's current approach to regulating parental

relationships is outdated A new legal and social structure is needed to guide parents so they act as supportive partners and to deter uncommitted couples from having children This book is the first of its kind to propose a new parent partner status within family law Included are a detailed discussion of the benefits of the status as well as specific recommendations for legal obligations
