Pathways Meanderings Human Zivko Markovic:

Pathways and Meanderings of the Human Race Zivko Markovic, Ph.d.,2015-11-26 The end of the world has been foreseen for the longest time even going as far as to predict the dates many long passed If by inevitable laws of nature everything comes into existence and then disappears it follows that the human race could not always have been on the Earth and thus cannot survive forever However no one knows when and how the world will perish or if its fateful end is already upon us leaving many in the state of fear and helplessness In order to find out more about the subject of class exploitation we need to ask in which direction the human race is headed and if it is the right or on the contrary the wrong way leading it possibly to a dead end If it is the wrong way the hope of returning to the right path still exists if it is the right way the fateful end is indeed close To understand where we are presently we need to look back at human history that has led us to where we are now It has become common through ideological reductionism to draw a parallel between the history of the human society and class exploitation as if the society had not been developing for thousands of years before it was polarized Even the most severe critics of class exploitation Karl Marx and Friedrich Engels in Manifesto of the Communist Party claimed that the history of every society so far has been a history of class struggle due to class exploitation
