Patriot Of Persia Muhammad Mossadegh And A Tragic Anglo American Coup:

Patriot of Persia Christopher de Bellaigue, 2012-05-15 A study of the life and leadership of the former Iranian prime minister and how Britain and the United States overthrew his government On August 19 1953 the American and British intelligence agencies launched a desperate coup in Iran against a cussed bedridden seventy two year old man His name was Muhammad Mossadegh and his crimes had been to flirt with communism and to nationalize his country s oil industry which for forty years had been in British hands To Winston Churchill the Iranian prime minister was a lunatic determined to humiliate Britain To President Dwight Eisenhower he was delivering Iran to the Soviets Mossadegh must go And so he did in one of the most dramatic episodes in modern Middle Eastern history But the countries that overthrew him would in time deeply regret their decision Mossadegh was one of the first liberals of the Middle East a man whose conception of liberty was as sophisticated as any in Europe or America He wanted friendship with the West but not slavish dependence He would not compromise on Iran s right to control its own destiny The West therefore sided against him and in favor of his great foe Shah Muhammad Reza Pahlavi Who was this political guerilla of noble blood who was so adored in the Middle East and so reviled in the West Schooled in Europe of the Belle Epoque Mossadegh was pitted against dictatorship at home a struggle that almost cost him his life and had tragic consequences for his family By the time of the Shah s accession in 1941 Mossadegh had become the nation s conscience and he spent the rest of his life in conflict with a monarch whose despotic regime was eventually toppled in the Islamic Revolution of 1979 Here for the first time is the political and personal life of a remarkable patriot written by our foremost observer of Iran Drawing on sources in Tehran and the West Christopher de Bellaigue reveals a man who not only embodied his nation s struggle for freedom but also was one of the great eccentrics of modern times and uncovers the coup that undid him Above all the life of Muhammad Mossadegh serves as a warning to today s occupants of the White House and Downing Street as the commit to further intervention in a volatile and unpredictable region *Our Violent*

Role Theory and Role Conflict in U.S.-Iran Relations Akan Malici,Stephen G. Walker,2016-10-04 U S Iran relations continue to be an international security problem in the Middle East

These two countries could have been friends but instead they have become enemies Stating this thesis raises the following questions Why are the United States and Iran enemies How and when did this relationship come to be When the relationship began to deteriorate could it have been reversed What lessons can be learned from an analysis of past U S Iranian relations and what are the implications for their present and future relations Akan Malici and Stephen G Walker argue that the dynamics of U S Iran relations are based on role conflicts Iran has long desired to enact roles of active independence and national sovereignty in world politics However it continued to be cast by others into client or rebel roles of national inferiority In this book the authors examine these role conflicts during three crucial episodes in U S Iran relations the oil nationalization crisis and the ensuing clandestine coup aided by the CIA to overthrow the Iranian regime in 1950 to 1953 the Iranian revolution followed by the hostage crisis in 1979 to 1981 the reformist years pre and post 9 11 under Mohammad Khatami from 1997 to 2002 Their application of role theory is theoretically and methodologically progressive and innovative in illuminating aspects of U S Iran relations It allows for a better understanding of the past navigating the present and anticipating the future in order to avoid foreign policy mistakes Role Theory and Role Conflict in U S Iran Relations is a useful resource for international relations and foreign policy scholars who want to learn more about progress in international relations theory and U S relations with Iran

How Armies Respond to Revolutions and Why Zoltan Barany,2020-03-31 An exploration of military responses to revolutions and how to predict such reactions in the future We know that a revolution s success largely depends on the army s response to it But can we predict the military s reaction to an uprising How Armies Respond to Revolutions and Why argues that it is possible to make a highly educated guess and in some cases even a confident prediction about the generals response to a domestic revolt if we know enough about the army the state it is

supposed to serve the society in which it exists and the external environment that affects its actions Through concise case studies of modern uprisings in Iran China Eastern Europe Burma and the Arab world Zoltan Barany looks at the reasons for and the logic behind the variety of choices soldiers ultimately make Barany offers tools in the form of questions to be asked and answered that enable analysts to provide the most informed assessment possible regarding an army's likely response to a revolution and ultimately the probable fate of the revolution itself He examines such factors as the military's internal cohesion the regime's treatment of its armed forces and the size composition and nature of the demonstrations How Armies Respond to Revolutions and Why explains how generals decide to support or suppress domestic uprisings Kevin Macdonald's Metaphysical Failure: a Philosophical, Historical, and Moral Critique of Evolutionary Psychology, Sociobiology, and Identity Politics Jonas E. Alexis, 2022-04-25 In Kevin MacDonald's Metaphysical Failure Jonas E Alexis offers a thoroughly researched nuanced and lucid analysis of Kevin MacDonald's thought in particular MacDonald's belief in biological and philosophical Darwinism It is an important book that fills a critical gap in the literature on the history of revolutionary movements and Darwinism both in the West and in Asia It is also a study that adds many significant strands to the densely interwoven history of ideas such as Malthusianism and Eugenics Alexis's book engages debates in the history of ideas going back to Madison Grant and beyond and the history of Darwinism It challenges many of the life long prevailing assumptions about identity politics and produces a powerful critique of how scientific theories have been misused to uphold misguided and faulty categorizations Powerfully reasoned and backed with a startling array of documented studies Kevin MacDonald's Metaphysical Failure presents an in depth look at key beliefs behind many mistaken and consequently destructive actions taken by numerous writers and thinkers particularly Darwin's ardent enthusiasts and devoted disciples The book presents eye opening insights into the historical development of Darwin's ideological project and how that project ended up crippling Darwin's intellectual children from Richard Dawkins Francis Crick James Watson Daniel Dennett Ernst Mayr and E O Wilson to Kevin MacDonald Richard Spencer David Duke and Jared Taylor **The International Politics of an Embodied God** Stephen Chan, OBE, 2024-10-02 In a world of violence in which religion seems to play an increasing role the understanding of the Religions of the Book Judaism Christianity and Islam is highly important This book concentrates on these religions all with common ancestry that claim their mandates come from a holy text These religions are embodied in both a text and a political purpose associated with a contentious nationalism and internationalism Chan indicates their commonalities especially in the political realm but also their approaches to conflict with one another within themselves and with others who do not have a centralizing Book **Research Handbook on Energy, Law and Ethics** Malik R. Dahlan, Rosa M. Lastra, Gustavo Rochette, 2022-11-22 This Research Handbook offers crucial ethical perspectives on navigating the increasingly complex and contested landscape of contemporary energy law Taking an interdisciplinary approach it brings together diverse scholarship and expertise from academia international organizations legal practice and the judiciary to

address wide ranging issues linking energy and law to ethical drivers such as wealth peace and war development climate change and use and abuse of natural resources The Oxford Handbook of Contemporary Middle Eastern and North African History Jens Hanssen, Amal N. Ghazal, 2020-11-30 The Oxford Handbook of Contemporary Middle Eastern and North African History critically examines the defining processes and structures of historical developments in North Africa and the Middle East over the past two centuries The Handbook pays particular attention to countries that have leapt out of the political shadows of dominant and better studied neighbours in the course of the unfolding uprisings in the Middle East and North Africa These dramatic and interconnected developments have exposed the dearth of informative analysis available in surveys and textbooks particularly on Tunisia Libya Yemen Bahrain and Syria *The Great Power Competition Volume 1* Adib Farhadi, Anthony J. Masys, 2021-06-22 Over the past decade the international political system has come to be characterized as a Great Power Competition in which multiple would be hegemons compete for power and influence Instead of a global climate of unchallenged United States dominance revisionist powers notably China and Russia alongside other regional powers are vying for dominance through political military and economic means A critical battleground in the Great Power Competition is the Middle East the Horn of Africa and the Central Asia South Asia CASA also known as the Central Region With the planned withdrawal of U S military forces from Afghanistan the U S has stated its intention of shifting attention away from the CASA Region in favor of a more isolationist foreign policy approach This book provides an in depth understanding of the implications for this shift related to regional diplomacy politics economic opportunities rivalries security considerations interests and the information environment Amplifying the vital importance of success in the Central Region to U S prosperity and security this volume advances dialogue in identifying key issues for stakeholders within and beyond the Central Region to gain a holistic perspective that better informs decision making at various levels This collection of work comes from scholars strategic thinkers and subject matter experts who participated in the Great Power Competition Conference hosted by the University of South Florida in partnership with the National Defense University Near East South Asia Center for Strategic Strategies in January 2020 **CYBERWARFARE SOURCEBOOK** A.
