## **Ordaining Reality The Science Behind The Power Of Positive Thinking:**

**Ordaining Reality** Joseph E. Donlan, 2021-06-06 Many people believe in the power of positive thinking i.e. how thoughts and attitude can shape their future yet despite a plethora of books on this subject no previous author has credibly explained how mere thoughts are able to tangibly influence future events To explain the connection Dr Donlan presents a new paradigm of nature coupled with a viable explanation of how our right cerebral hemisphere has evolved circuitry that can tap into the hidden domain of the metaphysical To support this premise he exposes the reader to the worlds of physics metaphysics brain architecture and evolution Donlan then introduces the many problems associated with the current model and contrasts it with a new view which remedies many of the issues facing theoretical physicists today Important to its central theme the book's proposed paradigm supports the remarkable notion that the future can only be created with thoughts In the final analysis the author brings his readers through the necessary steps to put this knowledge to work to help them pre-ordain their own realities

**Ordaining Reality in Brief** Joseph E. Donlan, 2009 Many people believe in the Power of Positive Thinking but no one had succeeded in credibly explaining how mere thoughts can tangibly influence future occurrences To explain the connection Joseph Donlan presented highly plausible theories in two preceding books Each of these books presents a new paradigm of nature and couples it with a convincing explanation of how our right brain hemispheres have a unique ability to tap into the hidden domain of the metaphysical This final book in the series also supports these premises however it does so at a higher more condensed level so that readers with no background in science can gain enough information to appreciate the divergent worlds of physics and metaphysics and gain a view of nature that undeniably links mind to matter

*Ordaining Reality Made Easy* Joseph E. Donlan, 2009 Many people believe in the Power of Positive Thinking but no one has succeeded in credibly explaining how mere thoughts can tangibly influence future occurrences To explain the connection this book presents a new paradigm of nature and couples it with a convincing explanation of how our right brain hemispheres have a unique ability to tap into the hidden domain of the metaphysical To support this premise the reader is lightly exposed to the divergent worlds of physics and metaphysics and is then introduced to a new view of nature that undeniably links mind to matter Important to its charge the new perspective makes the case that the future can only be created with thoughts In the final analysis the author brings his readers through the necessary steps to put this knowledge to work to help them create their own realities

**Aaden Blue-Star Awakening** David Gaughan, 2024-06-28 A normal teen discovers he's an ET time traveler When his superhuman powers awaken after a freak accident he also discovers his extraterrestrial heritage Able to sense danger and read people's auras and thoughts his life couldn't get any more strange until he discovers his connection with two inter-dimensional champions who are here on a time travel mission to help save our world from environmental disaster With a backdrop of climate change and environmental issues Aaden struggles to balance his life as he knows it with increasingly vivid recollections of another life With his sister

Tiffany and his best friend Fleur who are the only two he can confide in he discovers his heritage and the special connection with two inter dimensional champions and their mentor Varoon His grip on reality is challenged even further when he realizes that one of these inter dimensional champions and his father are interconnected They have all been brought back together at a time when the Earth is threatened not only by the darker forces working against them but also by ecological disaster brought about by humanity Their journey emphasizes the Power of Attraction where the combined concentrated positive thought energy of the masses can bring about miraculous changes in our world Their nemesis the dark Lord Belial is just as determined to influence human development and dominate the world Throughout their trials it is Varoon s wisdom and influence that helps them rise to the challenge The ensuing battle with the darker forces results in a climax that challenges the reader to determine the truth in Varoon s words Life is a dream and you are the dreamer In comparison with other books in this genre one reviewer described this one as an imaginative extremely creative story while another reviewer said the plot was unique I ve never read a book about a boy who got powers from a lightning strike and it was a really cool concept also interesting is that it revolves around today s environmental issues and shows some ways that might help fix them Readers who enjoyed the Harry Potter series would find this an easy and absorbing read although the wizard in this story is an ET and the action is more of a blend of Star Wars and Indiana Jones in a modern day climate crisis setting

**The Blue-Star Millennium** David Gaughan, When Zakeera is asked to take over the body of a senator running for president in an attempt to save our environment he s faced with the challenge of giving up is current identity as a star ship Commander of the Astar Galactic Command With the full strength of the negative Darket forces pitted against him Zakeera s mission is to try to convince terrestrials to vote him into power in time to make the necessary changes to save our world from environmental backlash Captivating and thought provoking this book is another masterpiece of the author The way the author tells the story made me feel like I was watching a blockbuster movie The message of the book is indeed very relevant to what s happening to our world right now A must read for those who seek answers to existential questions and those who simply want to read an enjoyable and out of this world adventure reviewed by Liz2020 Merging the realms between fiction and fact past and future into a thought provoking tale of two worlds and one future the central theme of this book is the conservation crises facing planet Earth and this forms the backdrop as we follow the adventures of the Blue Star Zakeera of the Astar Galactic Command Prequel to the Aaden Blue Star series it is written from the viewpoint of an extra terrestrial civilization a union of star groups concerned about humankind s misuse of planet Earth Will Zakeera succeed in his mission of convincing terrestrials to vote for him in time to make the necessary changes to save our world Will the negative Darket forces achieve their aim of convincing enough people to turn against him Whoever wins this battle will determine the future of our world as we know it Get your copy of The Blue Star Millennium and start reading this prequel to the Aaden Blue Star series today
